DEPARTMENT OF COMMERCE

[DOcket No. 160329305–6305–01]

Privacy Act of 1974, System of Records

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

SUMMARY: This notice announces the Department of Commerce’s (Department’s) proposal to amend a System of Records under the 1974 Privacy Act. The National Oceanic and Atmospheric Administration’s (NOAA’s) National Marine Fisheries Service (NMFS) is amending their system of records for marine mammal and threatened and endangered species permit and authorization programs. Information will be collected from individuals and entities under the authority of the Marine Mammal Protection Act and the Endangered Species Act. This record system is necessary to identify permit and authorization applicants and to evaluate the qualifications of the applicants.

DATES: To be considered, written comments must be submitted on or before August 8, 2016. Unless comments are received, the amended system of records will become effective as proposed on August 17, 2016. If comments are received, the Department will publish a subsequent notice in the Federal Register within 10 days after
the comment period closes, stating that the current system of records will remain in effect until publication of a final action in the Federal Register.

**ADDRESSES:** Comments may be mailed to Amy Sloan, Deputy Chief, Permits and Conservation Division, NOAA, National Marine Fisheries Service, Office of Protected Resources, 1315 East-West Highway, F/PRI Room 13824, Silver Spring, MD 20910.

**FOR FURTHER INFORMATION CONTACT:** Amy Sloan (Phone: 301–427–8401; Email: Amy.Sloan@noaa.gov).

**SUPPLEMENTARY INFORMATION:** NMFS is amending its system of applicant records for use with marine mammal and threatened and endangered species permit and authorization programs to make minor administrative updates including updating addresses where records are located and how records are stored. The Marine Mammal Protection Act, Fur Seal Act, and Endangered Species Act prohibit certain actions affecting marine mammals and endangered and threatened species, with limited exceptions. Permits involving marine mammals and endangered and threatened species can be obtained for scientific research, enhancing the survival or recovery of a species or stock, commercial and educational photography, and import and capture for public display. Authorizations can be obtained for scientific research that involves minimal disturbance. Also U.S. citizens may request and obtain, authorizations for the incidental taking of marine mammals for specified activities other than commercial fishing. Owners of a commercial vessel or non-vessel gear engaging in a Category I or II fishery must obtain a marine mammal authorization certificate from NOAA Fisheries, or a designated agent, to lawfully incidentally take a marine mammal in a commercial fishery. NMFS collects information from individuals in order to issue, amend, or renew permits or authorizations.
