III. Comments

On January 11, 2016, we published in the Federal Register (80 FR 1202) a Notice requesting public comment on this information collection. The comment period ended on March 11, 2016. We received five comments in response to this Notice, all of which concerned the new requirement of form 10–660A, CUA Monthly Reporting at Katmai National Park. Commenters stated that the additional reporting requirement would create excess burden on CUA holders during a very busy and short operating season. They also expressed concern that the requirement to report visitation numbers would result in duplicate reporting since most park visitors utilized the services of more than one CUA holder.

NPS Response/Action Taken: NPS must strictly manage some CUA activities by imposing restrictions such as daily visitor limits to protect sensitive natural and cultural resources. Parks may require the submission of the CUA Monthly Report to more closely track these CUA activities and associated visitor use to ensure that maximum daily limits and seasonal average limits are not exceeded. By closely monitoring this information, the parks can also ensure that commercial operators do not exceed the authorized use before the end of the season and create a gap when prospective visitors cannot be accommodated.

Additionally, in Katmai National Park only, CUA holders that provide transportation are required to submit the CUA Monthly report in addition to the CUA Annual Report. The vast majority of visitors access the park by plane or boat operated by authorized commercial service providers and there are no entrance stations to track the number of visitors. The CUA Monthly reports provide the only means of securing an accurate visitor count and are used to influence short-term resource management decisions. By requiring only those authorized transportation providers to submit the CUA Monthly report, duplicate reporting is eliminated. The decision to limit the requirement of monthly reporting to only those CUA holders providing transportation was reached after public meetings held with current and prospective CUA holders. The NPS did not make any changes to our information collection based on these comments.

We also received a comment from Jean Public. The commenter did not address the information collection requirements, but stated that the Government should charge CUA holders fees to operate on public lands. NPS is legally required to charge a fee for commercial operations [section 418, Pub. L. 105–391 (54 U.S.C. 101295)]. Parks, at a minimum, charge a fee to recover costs associated with the management and administration of CUA. We did not make any changes to our information collection based on this comment.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
Managers of Cape Lookout National Seashore (CALO) are interested in identifying ways to reduce the risk of damage to coastal buildings and sensitive species from storm surge, sea level rise, and shoreline erosion anticipated over the next 20 to 30 years. Of specific interest to managers are contemporary cultural resource values and perceptions of cultural resource vulnerability and feasible adaptation strategies to sustain its cultural resources for future generations. The National Park Service will conduct a survey with members of CALO’s partner organizations and cultural resource experts from federal and state agencies and nongovernmental organizations.

The collection will be used to understand the values these stakeholders place on cultural resources within the historic districts, and perceptions of strategies to adapt and respond to changes in cultural resource conditions from storms, flooding, and erosion. The information from this collection will provide NPS managers with information that can be used to prepare resource management planning documents.

II. Data

OMB Control Number: 1024—New.
Title: Cape Lookout National Seashore Cultural Resource Values and Vulnerabilities Assessment.
Affected Public: Federal, state and local government and nongovernmental, members of partner organizations and academic faculty with cultural resource expertise in historic preservation.
Respondent Obligation: Voluntary.
Frequency of Collection: One time.
Estimated Number of Responses: 260.
Estimated Annual Burden Hours: 65 hours. We estimate the public reporting burden for The Partner Survey to be 15 minutes per response and 45 minutes per response for the Expert Survey. This includes the time for reviewing instructions and completing the survey.
Estimated Annual Reporting and Recordkeeping “Non-Hour Cost”: None.

III. Request for Comments

A notice was published in the Federal Register (80 FR 29334) on May 21, 2015 stating that we intended to request OMB approval of our information collection associated with the Cape Lookout National Seashore Cultural Resource Values and Vulnerabilities Assessment project. In this notice, we solicited public comment for 60 days ending June 8, 2015. We did not receive any comments in response to that notice.

We again invite comments concerning this information collection on:

• Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful;
• The accuracy of the agency’s estimate of the burden of the proposed collection of information;
• Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
• Ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
