## DEPARTMENT OF ENERGY

[OE Docket No. EA-422]

### Application To Export Electric Energy; Tidal Energy Marketing Inc.

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Tidal Energy Marketing, Inc. (Applicant or Tidal) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before August 11, 2016.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Electricity.Exports@hq.doe.gov](mailto:Electricity.Exports@hq.doe.gov), or by facsimile to 202-586-8008.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On June 8, 2016, DOE received an application from Tidal for authority to transmit electric energy from the United States to Canada as a power marketer for five years using existing international transmission facilities. Tidal is contemporaneously applying to make wholesale power sales at market-based rates from the Federal Energy Regulatory Commission (FERC).

In its application, Tidal states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that Tidal proposes to export to Canada would be

surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by Tidal have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

**Procedural Matters:** Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning Tidal's application to export electric energy to Canada should be clearly marked with OE Docket No. EA-422. An additional copy is to be provided directly to both Stacy Myers, Enbridge Energy Company, Inc., 1100 Louisiana, Suite 3300, Houston, TX 77002 and Kari Olesen, Tidal Energy Marketing Inc., 425 1st Street SW., Calgary, Alberta T2P 3L8.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [Angela.Troy@hq.doe.gov](mailto:Angela.Troy@hq.doe.gov).

Issued in Washington, DC, on July 5, 2016.

**Christopher Lawrence,**

*Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.*

## DEPARTMENT OF ENERGY

### National Nuclear Security Administration

#### Amended Record of Decision for the Continued Operation of the Y-12 National Security Complex

**AGENCY:** National Nuclear Security Administration, Department of Energy.

**ACTION:** Record of decision.

**SUMMARY:** The National Nuclear Security Administration (NNSA), a separately organized agency within the U.S. Department of Energy (DOE), is amending its July 20, 2011, Record of Decision for the Continued Operation of the Y-12 National Security Complex (2011 ROD) (76 FR 43319) to reflect its decision to implement a revised approach for meeting enriched uranium (EU) requirements, by upgrading existing EU processing buildings and constructing a new Uranium Processing Facility (UPF). Additionally, NNSA has decided to separate the single-structure UPF design concept into a new design consisting of multiple buildings, with each constructed to safety and security requirements appropriate to the building's function. This revised approach is a hybrid of two alternatives previously analyzed in the 2011 *Final Site-Wide Environmental Impact Statement for the Y-12 National Security Complex*, DOE/EIS-0387 (Y-12 SWEIS). The scope of this Amended ROD is limited to actions which have been found necessary to sustain Y-12's capability to conduct EU processing operations in a safe and secure environment. Those actions are also addressed in a Supplemental Analysis (SA) (DOE/EIS-0387-SA-01), issued by NNSA in April 2016. All other defense mission activities and non-defense mission activities conducted at Y-12 under the alternative selected for implementation in the 2011 ROD are outside the scope of this decision. As a result of preparing the SA, NNSA has determined that no further National Environmental Policy Act (NEPA) analysis is needed to support this Amended ROD.

**FOR FURTHER INFORMATION CONTACT:** For further information on this Amended ROD, the SA, or to receive a copy of the SA, contact: Ms. Pam Gorman, SA Document Manager, U.S. Department of Energy, National Nuclear Security Administration, UPF Project Office, P.O. Box 2050, Oak Ridge, TN 37831-8116; or [Pamela.Gorman@upo.doe.gov](mailto:Pamela.Gorman@upo.doe.gov); or (865) 576-9918. For information on the DOE NEPA process, contact: Ms. Carol M. Borgstrom, Director, Office of NEPA
