Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Filings Instituting Proceedings

Filed Date: 6/16/16.
Accession Number: 20160616–5109.
Comments Due: 5 p.m. ET 7/15/16.
Docket Numbers: RP16–1082–000. Applicants: Columbia Gas Transmission, LLC. Description: Petition for Approval of Settlement of Columbia Gas Transmission, LLC.

Filed Date: 6/30/16.
Accession Number: 20160630–5425.
Comments Due: 5 p.m. ET 7/12/16.
Docket Numbers: RP16–1083–000. Applicants: MIGC LLC. Description: Annual Fuel Retention Percentage Tracker of MIGC LLC.

Filed Date: 7/1/16.
Accession Number: 20160701–5344.
Comments Due: 5 p.m. ET 7/13/16.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission’s Regulations (18 CFR 385.211 and § 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

Filings in Existing Proceedings

Filed Date: 6/1/16.
Accession Number: 20160601–5395.
Comments Due: 5 p.m. ET 6/18/16.

Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission’s Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date. The filings are accessible in the Commission’s eLibrary system by clicking on the links or querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: http://www.ferc.gov/docs-filing/efiling/filing-req.pdf. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

[Docket No. RD16–4–000]

Proposed Agency Information Collection

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice and request for comments.

The Commission received no comments and is making this notation in the submittals to OMB.

DATES: Comments regarding the proposed information collections must be received on or before August 17, 2016.

ADDRESSES: Comments filed with OMB, identified by the OMB Control No. 1902–0263, should be sent via email to the Office of Information and Regulatory Affairs at: oira_submission@omb.gov.

A copy of the comments should also be sent to the Commission, in Docket No. RD16–4–000, by either of the following methods:

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: http://www.ferc.gov/help/submission-guide.asp. For user assistance, contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3678 (toll-free), or (202) 502–8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/download comments and issuances in this docket may do so at http://www.ferc.gov/docs-filing/docs-filing.asp.

FOR FURTHER INFORMATION CONTACT: Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502–8663, and fax at (202) 273–0873.

SUPPLEMENTARY INFORMATION: The Commission will submit the reporting and recordkeeping requirements of proposed Reliability Standard FAC–003–4 (Transmission Vegetation Management) to OMB for review. Proposed Reliability Standard FAC–003–4 replaces the requirements from the previous version of the Reliability Standard (FAC–003–3), which is approved under FERC–725M (Mandatory Reliability Standards: Generator Requirements at the Transmission Interface, OMB Control No. 1902–0263).

Type of Request: Three-year approval of the revised FERC–725M information collection requirements with the stated changes to the current reporting and record retention requirements.

Abstract: The Commission requires the information collected by the FERC–725M to implement the statutory provisions of section 215 of the Federal Power Act (FPA). On August 8, 2005, Congress enacted into law the Electricity Modernization Act of 2005, which is title XII, subtitle A, of the Energy Policy Act of 2005 (EPAct 2005). EPAct 2005 added a new section 215 to the FPA, which requires a Commission-certified Electric Reliability Organization (ERO) to develop mandatory and enforceable Reliability Standards, which are subject to Commission review and approval. Once approved, the Reliability Standards may be enforced by the ERO subject to Commission oversight, or the Commission can independently enforce Reliability Standards.5

On February 3, 2006, the Commission issued Order No. 672, implementing section 215 of the FPA.6 Pursuant to Order No. 672, the Commission certified one organization, the North American Electric Reliability Corporation (NERC), as the ERO.7 The Reliability Standards developed by the ERO and approved by the Commission apply to users, owners and operators of the Bulk-Power System as set forth in each Reliability Standard.

On March 14, 2016, NERC filed a petition for Commission approval of proposed Reliability Standard FAC–003–4 (Transmission Vegetation Management). NERC states in its petition that proposed Reliability Standard FAC–003–4 reflects revisions to the current Minimum Vegetation Clearance Distances (MVCDs) in Reliability Standard FAC–003–3 based on additional testing regarding the appropriate gap factor to be used to calculate clearance distances for vegetation. NERC explains that in response to the Commission’s directive as part of its approval of an earlier version of the Reliability Standard, FAC–003–2. NERC contracted with the Electric Power Research Institute (EPRI) to conduct this testing.8 As NERC notes, when the Commission approved Reliability Standard FAC–003–2, the Commission stated that “it is important that NERC develop empirical evidence that either confirms assumptions used in calculating the MVCD values based on the Gallet equation, or gives reason to revisit the Reliability Standard.” 9 NERC states in its petition that preliminary testing conducted by EPRI indicated that the gap factor used to calculate MVCDs should be adjusted. NERC further explains that proposed Reliability Standard FAC–003–4 proposes higher and more conservative MVCD values, and therefore maintains that these revisions will “enhance reliability and provide additional confidence by applying a more conservative approach to determining vegetation clearance distances.” 10

Type of Respondents: Transmission Owner (TO) and Generator Owner (GO)

Estimate of Annual Burden:11 The burden and cost estimates below are based on the number of transmission owners and generator owners as reflected in NERC’s registry (i.e., updated since the Commission’s approval of earlier versions of FAC–003). Transmission owners and applicable generator owners have a one-time burden to review and modify existing documentation, plans and procedures, as well as an ongoing burden to retain records. Our estimate of the number of respondents affected is based on the NERC Compliance Registry as of February 25, 2016. According to the Compliance Registry, NERC has registered 320 transmission owners and 940 generator owners within the United States, and we estimate that

1 The Reliability Standard was approved in a Delegated Order issued on 4/26/2016 (posted at http://elibrary-backup.ferc.gov/idmsw/common/openactpdf?fileId=E41218889). 2 Reliability Standard FAC–003–3 was approved in Order No. 785 in Docket No. RM12–16–000.
3 Revisions to Reliability Standard for Transmission Vegetation Management, Order No. 777, 142 FERC ¶ 61,208 (2013). The associated reporting and recordkeeping requirements in FAC–003–3 were approved by OMB on Dec. 17, 2013, under FERC–725M.
6 16 U.S.C. 824o(d)(3).
11 The Commission defines “burden” as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. For further information, refer to 5 CFR 1320.3.
approximately 10 percent (or 94) of the registered generator owners have interconnection facilities that meet the requirements for applicability under the new standard. The estimated annual burden and cost of the new standard follow.13

Wickiup Hydro Group, LLC; Notice of Schedule Change

On June 27, 2016, the Commission issued a “Notice of Teleconference to Discuss Endangered Species Act Consultation” for the Wickiup Dam Hydroelectric Project, FERC Project No. 12965. This teleconference has been rescheduled due to unforeseen scheduling conflicts to August 1, 2016 at 1:00 p.m. Pacific Daylight Time (4:00 p.m. Eastern Daylight Time). Please email Karen Sughrue at karen.sughrue@ferc.gov to RSVP.

### DEPARTMENT OF ENERGY

#### Federal Energy Regulatory Commission

[Docket Nos. CP16–3–000 and CP16–3–001]

Texas Eastern Transmission, LP; Notice of Schedule for Environmental Review of the Access South, Adair Southwest, and Lebanon Extension Projects

On October 8, 2015, Texas Eastern Transmission, LP (Texas Eastern) filed an application requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct, operate, and maintain pipeline loops, install additional compression, and allow for reverse flow capabilities. The proposed projects, known as Access South, Adair Southwest, and the Lebanon Extension Projects would enable Texas Eastern to transport up to an additional 622,000 dekatherms per day of natural gas on its mainline system from Uniontown, Pennsylvania to points in Ohio, Kentucky, and Mississippi.

On October 22, 2015, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the projects. Among

---

13 The estimates for cost per hour (for salary plus benefits) are derived from the Bureau of Labor and Statistics’ figures for May 2015 (at http://www.bls.gov/oes/current/naics2_22.htm#11-0000 and benefits [updated March 10, 2016] at http://www.bls.gov/news.release/oes.nr0.htm). The one-time implementation cost plus ongoing record retention costs ([one-time]).

14 The Order in Docket No. RD16–4 does not modify the following requirements. However, due to normal fluctuations in industry, the number of respondents (TOS and GOs), in the submittal to OMB will be updated as follows.

- The Quarterly Reporting (Compliance 1.4) is required of 102 respondents (94 GOs and 8 Regional Entities), rather than 96 respondents.
- The requirements for Annual Vegetation Inspection Document (M6), annual vegetation work plan (M7), evidence of management of vegetation (M1 and M2), confirmed vegetation condition (M4), and corrective action (M5) are required of 94 respondents (rather than 88).

15 We estimate a total of 414 respondents (320 TOSs and 94 GOs) are affected.

16 This is the estimate for Year 1 (including one-time implementation cost plus ongoing record retention costs). In subsequent years, only the record retention costs ($13,148.64, annual total for all respondents) will continue. For the submittal to OMB (available in reginfo.gov), the one-time implementation burden and cost (which will be completed in Year 1) will be averaged over Years 1–3.
