The company plans to import opium, raw (9600) and poppy straw concentrate (9670) in order to bulk manufacture controlled substances in Active Pharmaceutical Ingredient (API) form. The company distributes the manufactured APIs in bulk to its customers. The company plans to import the other listed controlled substances for internal reference standards use only. The comparisons of foreign reference standards to the company’s domestically manufacture API will allow the company to export domestically manufacture API to foreign markets.

[FR Doc. 2016–041] 

SUMMARY: The National Archives and Records Administration (NARA) published notice in the Federal Register on June 8, 2016 (81 FR 36959) of a proposed new system of records subject to the Privacy Act of 1974, as amended (5 U.S.C. 552(a)) ("Privacy Act"). The new system was NARA 45, Insider Threat Program records. In addition, NARA updated Appendix B to add the SORN’s system manager to the list of system managers and their addresses. The system of records notice (SORN) included a comment period ending on July 8, 2016, and an automatic effective date of July 18, 2016. However, NARA is now withdrawing this SORN due to changes in the scope of the system and it will no longer be effective. We will reissue the SORN once we have revised it. 

DATES: This withdrawal notice is effective July 18, 2016.
