II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request OMB’s approval for the information collection summarized below.

2. OMB approval number: OMB approval number 3150–0028.

3. Type of submission: Extension.

4. The form number, if applicable: NRC Form 314, “Certificate of Disposition of Materials.”

5. How often the collection is required or requested: NRC Form 314 is submitted by a materials licensee who wishes to terminate its license. The form provides information needed by the NRC to determine whether the licensee has radioactive materials on hand which must be transferred or otherwise disposed of prior to expiration or termination of the license.

6. Who will be required or asked to respond: Respondents are firms, institutions, and individuals holding NRC licenses to possess and use radioactive materials who do not wish to renew those licenses.

7. The estimated number of annual responses: 136 responses.

8. The estimated number of annual respondents: 136 respondents.

9. The estimated number of hours needed annually to comply with the information collection requirement or request: Each form requires, on average, approximately 0.5 hours to prepare. 136 × 0.5 hour = a total annual burden for all respondents of 68 hours.

10. Abstract: The NRC Form 314 furnishes information to the NRC regarding transfer or other disposition of radioactive material by licensees who wish to terminate their licenses. The information is used by the NRC as part of the basis for its determination that the facility has been cleared of radioactive material before the facility is released for unrestricted use.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 13th day of July 2016.

For the Nuclear Regulatory Commission.

the regulation specifies which initial determinations are subject to reconsideration. Subpart C prescribes rules on who may request reconsideration, when to make such a request, where to submit it, form and content of reconsideration requests, and other matters relating to reconsiderations.

Any person aggrieved by an initial determination of PBGC under § 4003.1(b)(1) (determinations that a plan is covered by section 4021 of ERISA), § 4003.1(b)(2) (determinations concerning premiums, interest, and late payment penalties under section 4007 of ERISA), § 4003.1(b)(3) (determinations concerning voluntary terminations), § 4003.1(b)(4) (determinations concerning allocation of assets under section 4044 of ERISA), or § 4003.1(b)(5) (determinations with respect to penalties under section 4071 of ERISA) may request reconsideration of the initial determination. Requests for reconsideration must be in writing, be clearly designated as requests for reconsideration, contain a statement of the grounds for reconsideration and the relief sought, and contain or reference all pertinent information.

OMB has approved the reconsiderations collection of information under control number 1212–0063 through July 31, 2016. PBGC is requesting that OMB extend approval without change of this collection of information for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that an average of about 226 appellants per year will respond to this collection of information. PBGC further estimates that the average annual burden of this collection of information is about one-half hour and about $626 per person, with an average total annual burden of about 112 hours and about $141,400.
