

at this time, we are removing the requirement that competitive and incumbent LECs make a one-time intrastate tariff filing to establish Voice over Internet Protocol rates at intrastate levels, as this requirement has been met.

Sections 201, 202, and 203 of the Communications Act of 1934, as amended (the Act) require common carriers to establish just and reasonable charges, practices, and regulations for their interstate telecommunications services provided. For services that are still covered under Section 203, tariff schedules containing charges, rates, rules, and regulations must be filed with the Commission. Part 61 of the Commission's Rules, 47 CFR part 61, prescribes the framework for the establishment of and subsequent revisions to tariffs. Certain local exchange carriers are required to submit a biennial or annual Tariff Review Plan (TRP) in partial fulfillment of cost support material required by Part 61. The Commission developed the TRP to minimize reporting burdens on reporting incumbent local exchange carriers (ILECs). TRPs set forth the summary material ILECs file to support revisions to the rates in their interstate access service tariffs. For those services still requiring cost support, TRPs assist the Commission in determining whether ILEC access charges are just and reasonable as required under the Act.
