SUPPLEMENTARY INFORMATION: The Postal Service continues to seek opportunities to work with mailers to improve products and services. Therefore, we have established a method for commercial customers to pay for and manage their services online using a single account.

The U.S. Postal Service is upgrading its payment architecture for business customers. The new Enterprise Payment System (EPS) will replace the current product-centric payment system with a centralized account management system enabling commercial customers to pay for and manage their services online using a single account.

EPS has been designed to be part of USPS products and services offered through the existing Business Customer Gateway (BCG) portal. Commercial customers who want to use EPS will need to be a registered BCG user,

request access to EPS and open an Enterprise Payment Account (EPA) to pay for their products and services. EPA requires that the customers fund the account via Electronic Funds Transfer—either Automated Clearing House (ACH) Debit or ACH Credit.

The first feature of EPS will allow business customers to open, close, and pay for their P.O. Boxes and Caller Service numbers (including reserved numbers) online using the new Enterprise P.O. Boxes Online (EPOBOL). EPS customers are required to have an EPA to pay for EPOBOL service. Future phases of EPS will provide commercial customers functionality to pay for additional services.
