

- a. The average monthly caseload of patients received buprenorphine-based MAT, per year
- b. Percentage of active buprenorphine patients (patients in treatment as of reporting date) that received psychosocial or case management services (either by direct provision or by referral) in the past year due to:
 1. Treatment initiation
 2. Change in clinical status
- c. Percentage of patients who had a prescription drug monitoring program query in the past month
- d. Number of patients at the end of the reporting year who:
 1. Have completed an appropriate course of treatment with buprenorphine in order for the patient to achieve and sustain recovery
 2. Are not being seen by the provider due to referral by the provider to a more or less intensive level of care
 3. No longer desire to continue use of buprenorphine
 4. Are no longer receiving buprenorphine for reasons other than 1–3.

HHS received a large number of comments on these proposed reporting requirements. Some commenters expressed concerns that these requirements were too cumbersome and would serve as a disincentive to providers who are considering increasing their patient limit, while other commenters felt that the reporting requirements were not stringent enough. Because of the large number of comments and the wide variability in their scope, HHS issued a supplemental NPRM, titled, “Medication Assisted Treatment for Opioid Use Disorders Reporting Requirements” to solicit additional public comments about the proposed reporting requirements.

In addition to seeking general comments on the proposed reporting requirements, HHS seeks comment on the following questions:

- a. Are there different or additional elements that should be reported in order to assist HHS in ensuring compliance with the final rule?
- b. Are there ways in which some elements can be combined that will lessen the burden for reporting practitioners while maintaining the important function of collecting information that ensure compliance with the final rule?
- c. Are there other ways that HHS can collect the necessary information to ensure compliance with the final rule?
- d. Would it be less burdensome to

report on the number of patients in treatment for each month of the reporting period that:

- (i) Were provided counseling services at the same location as the practitioner, and how frequently those patients utilized the counseling services;
- (ii) The practitioner referred for counseling services at a different location?
- e. Would it be less burdensome to report on the number of patients at the end of the reporting year who had terminated utilization of covered medications?
- f. Are there other suggested changes that would be less burdensome while maintaining the important function of collecting information that ensure compliance with the final rule?

SAMHSA will hold a public listening session to provide all interested parties the opportunity to share their views on the proposed reporting requirements and the additional questions. Members of the public are invited to attend and view the proceedings, with space available on a first-come, first-served basis (based on registration).

Draft Agenda for the August 2, 2016 Public Listening Session

- Welcome and introductions
- Proposed reporting requirements
- Open comment period
- Additional questions

Section 102 of the Maritime Transportation Security Act (MTSA) of 2002 (Pub. L. 107–295) added section 70112 to Title 46 of the U.S. Code, and authorized the Secretary of the Department in which the Coast Guard is operating to establish Area Maritime Security Advisory Committees for any port area of the United States. (See 33 U.S.C. 1226; 46 U.S.C.; 33 CFR 1.05–1, 6.01; Department of Homeland Security Delegation No. 0170.1). Such matters may include, but are not limited to: Identifying critical port infrastructure and operations; identifying risks (threats, vulnerabilities, and consequences); determining mitigation strategies and implementation methods; developing and describing the process to continually evaluate overall port security by considering consequences and vulnerabilities, how they may

change over time, and what additional mitigation strategies can be applied; and providing advice to, and assisting the Captain of the Port in developing and maintaining the Area Maritime Security Plan.

The Department of Homeland Security (DHS) does not discriminate in employment on the basis of race, color, religion, sex, national origin, political affiliation, sexual orientation, gender identity, marital status, disability and genetic information, age, membership in an employee organization, or other non-merit factor. DHS strives to achieve a widely diverse candidate pool for all of its recruitment actions.

Request for Applications

Those seeking membership are not required to submit formal applications to the local Captain of the Port, however, because we do have an obligation to ensure that a specific number of members have the prerequisite maritime security experience, we encourage the submission of resumes highlighting experience in the maritime and security industries.
