**SUPPLEMENTARY INFORMATION:** The JIV Reservation is located in the unincorporated portion of southwestern San Diego County approximately one mile south of the community of Jamul on approximately six-acres of land held in federal trust. State Route 94 (SR-94) provides regional access to the JIV from downtown San Diego, which is located approximately 20 miles to the west where it intersects with Highway 5. Local access to the JIV is provided directly from SR-94 via Daisy Drive. From the JIV, SR-94 travels briefly north and then west to Downtown San Diego, passing through the unincorporated communities of Jamul, Casa de Oro, Spring Valley and Lemon Grove.

In 2000, JIV proposed a fee-to-trust land acquisition, construction and operation of a gaming complex and approval of a gaming development and management agreement for operation of the JIV Gaming Facility. The proposal was evaluated in a Final EIS prepared in 2003. Since that time, several major items have been removed from JIV's overall development program and the Gaming Facility has been redesigned to fit entirely within the existing JIV Reservation. All environmental effects of the Gaming Facility redesign have been evaluated through preparation of a Final Tribal Environmental Evaluation, which was prepared in accordance with the 1999 Tribal/State Compact. No action is before the BIA due to no fee-to-trust component of the JIV proposal. An action from the NIGC is required; specifically, approval or disapproval of the GMA. That approval or disapproval is the Proposed Action evaluated in the Final SEIS.

In addition to the Proposed Action, the Final SEIS addresses the No Action Alternative, which assumes no approval of the GMA between JIV and SDGV. Under the No Action scenario, JIV would assume operation and management responsibilities of the Jamul Gaming Facility. The NIGC may, in its Record of Decision, select the No Action Alternative rather than the Proposed Action.

This Final SEIS updates environmental conditions in the affected area given the amount of time that has passed since the 2003 Final EIS. Environmental issues addressed within

the Final SEIS include land resources, water resources, air quality, biological resources, cultural/paleontological resources, socioeconomic conditions, transportation, land use, public services, hazardous materials, noise, and visual resources. The Final SEIS examines the direct, indirect, and cumulative effects of each alternative on these resources. The NIGC published a Notice of Intent (NOI) in the **Federal Register** on April 10, 2013, describing the Proposed Action, announcing the NIGC's intent to prepare a Draft SEIS for the Proposed Action, and inviting comments.

The Draft EIS Notice of Availability (NOA) was published in the **Federal Register** by the U.S. Environmental Protection Agency (EPA) on April 8, 2016 and the Draft SEIS was made available to federal, Tribal, state, and local agencies and other interested parties for review and comment. The comment period was open for 45 days after the date of publication in the **Federal Register** and closed on May 23, 2016. A total of nine comment letters were received. All comments received by the NIGC were considered and addressed in the Final SEIS, however, no substantive changes were made.

The EPA published the NOA of the Final SEIS in the **Federal Register** on July 8, 2016. The Chairman of the NIGC will prepare and sign the record of decision (ROD) to announce his final decision on the GMA between the JIV and SDGV following the August 8, 2016 conclusion of the 30 day public comment and review period. Availability of the ROD will be announced to the media and the project mailing list, and the ROD itself will be made available online.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Federal Historic Preservation Tax Incentives Program encourages private sector investment in the rehabilitation and re-use of historic buildings. Through this program, underutilized or vacant schools, warehouses, factories, retail stores, apartments, hotels, houses, offices, and other buildings throughout the country, of every period, size, style and type, have been returned to useful life in a manner that maintains their historic character. To be eligible for the tax incentives for historic buildings, the building must be listed individually on the National Register of Historic Places (NRHP); or located in a registered historic district and certified by the NPS as contributing to the historic significance of that district. A registered historic district is any district listed on the NRHP; or a state or local district if the district and the enabling statute have also been certified by the NPS. The NRHP is the official list of the Nation's historic places worthy of preservation.

Section 47 of the Internal Revenue Code requires that the Secretary of the Interior certify to the Secretary of the Treasury upon application by owners of historic properties for Federal tax benefits: (a) The historic character of the property, and (b) that the rehabilitation work is consistent with that historic character. We administer the program with the Internal Revenue Service in partnership with the State Historic Preservation Offices (SHPOs). Owners of historic buildings use the Historic Preservation Certification Application (Forms 10-168, 10-168a, 10-168b, and 10-168c) to evaluate the condition and historic significance of buildings undergoing rehabilitation for continued use, and to evaluate whether or not the rehabilitation work meets the Secretary of the Interior's Standards for Rehabilitation.

Regulations at 36 CFR part 67 contain a requirement for completion of an application form. We need the information required on the application form to allow the authorized officer to determine if the applicant is qualified to obtain historic preservation certifications from the Secretary of the Interior. These certifications are necessary for an applicant to receive substantial Federal tax incentives authorized by section 47 of the Internal Revenue Code. These incentives include a 20% Federal income tax credit for the rehabilitation of historic buildings and an income tax deduction for the donation of easements on historic properties. The Internal Revenue Code also provides a 10% Federal income tax credit for the rehabilitation of nonhistoric buildings built before 1936,

and an owner of a nonhistoric building in a historic district must also use the application to obtain a certification from the Secretary of the Interior that his or her building does not contribute to the significance of the historic district before claiming this lesser tax credit for rehabilitation.

State Historic Preservation Offices (SHPOs) are the first point of contact for property owners wishing to use the rehabilitation tax credit. They help applicants determine if an historic building is eligible for Federal or State historic preservation tax incentives, provide guidance on an application before or after the project begins, and provide advice on appropriate preservation work. SHPOs use Forms 10-168d and 10-168e to make recommendations to NPS.

In accordance with 36 CFR part 67, we also collect information for: (1) Certifications of State and local statutes (§ 67.8), (2) certifications of State or local historic districts (§ 67.9), and (3) appeals (§ 67.10).
