

Council address: North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252; telephone: (907) 271-2809.

FOR FURTHER INFORMATION CONTACT: Jim Armstrong, Council staff; telephone: (907) 271-2809.

SUPPLEMENTARY INFORMATION:

Agenda

Wednesday, February 17, 2016

The agenda includes updating the status of the Statewide Scallop Stocks and Stock Assessment and Fishery Evaluation (SAFE) report-catch specifications, update on Alaska Pacific University's Fisheries, Aquatic Science and Technology lab projects, update on new scallop assessment programs and a review of research priorities. The Agenda is subject to change, and the latest version will be posted at <http://www.npfmc.org/>.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Shannon Gleason at (907) 271-2809 at least 7 working days prior to the meeting date.

Dated: January 25, 2016.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9941-00-OW]

National Coastal Condition Assessment 2010

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of the final National Coastal Condition Assessment (NCCA) 2010. The NCCA describes the results of a nationwide coastal probabilistic survey that was conducted in the summer of 2010 by the Environmental Protection Agency (EPA) and its state, tribal, and federal partners. Results include estimates of coastal area with good, fair, and poor biological quality, water quality, sediment quality, and ecological fish tissue quality. Results are presented nationally and regionally for the Northeast, Southeast, Gulf of Mexico, West, and Great Lakes coasts. The

NCCA 2010 also includes information on how the survey was implemented, and future actions and challenges.

FOR FURTHER INFORMATION CONTACT: Hugh Sullivan, Office of Wetlands, Oceans and Watersheds, Office of Water, Washington DC Phone: 202-564-1763; email: sullivan.hugh@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

To better answer questions about the condition of waters across the country, EPA and its state and tribal partners have embarked on a series of surveys under the National Aquatic Resource Surveys (NARS) program. The NCCA 2010 is the most recent in this series of surveys. The key goals of the NCCA 2010 are to describe the ecological condition of the nation's coastal and Great Lakes nearshore waters, how those conditions are changing, and the key stressors affecting those waters. An important component of the NCCA is collaboration with state, tribal, and federal partners in developing new monitoring tools and analytical approaches and in advancing the science of coastal monitoring. The survey uses a statistical design to sample 1,104 randomly-selected sites that represent the condition of the larger population of coastal waters in the conterminous United States. This is the first time the nearshore waters of the Great Lakes have been included in a national statistically-based survey.

The report finds that more than half of the nation's coastal and Great Lakes nearshore waters are rated in good condition for biological and sediment quality, while about one third are rated in good condition for water quality and less than one percent are rated in good condition based on the potential harm that fish tissue contaminants pose to predator fish, birds, and wildlife. Excessive phosphorus is the greatest contributor to the poor water quality rating. Selenium is the greatest contributor to the poor rating for potential harm to predator fish, birds and wildlife from fish tissue contaminants. The draft report has undergone peer, state and EPA review.

A. How can I get copies of the NCCA 2010 and other related information?

You may access the NCCA 2010 from EPA's Web site at <http://www.epa.gov/national-aquatic-resource-surveys/ncca>.

Dated: January 13, 2016.

Joel Beauvais,

Deputy Assistant Administrator, Office of Water.

ENVIRONMENTAL PROTECTION AGENCY

[Docket ID No. EPA-HQ-ORD-2013-0232; FRL-9941-74-ORD]

Integrated Science Assessment for Oxides of Nitrogen—Health Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of a final document titled, "Integrated Science Assessment for Oxides of Nitrogen—Health Criteria" (EPA/600/R-15/068). The document was prepared by the National Center for Environmental Assessment National Center for Environmental Assessment (NCEA) within the EPA's Office of Research and Development (ORD) as part of the review of the primary (health-based) National Ambient Air Quality Standards (NAAQS) for nitrogen dioxide (NO₂). The Integrated Science Assessment (ISA), in conjunction with additional technical and policy assessments, provides the scientific basis for decisions by the EPA on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The EPA is developing a separate ISA and conducting a separate review for the secondary (welfare-based) NAAQS for NO₂, in conjunction with a review of the secondary NAAQS for sulfur dioxide.

DATES: The document will be available on or around January 28, 2016.

ADDRESSES: The "Integrated Science Assessment for Oxides of Nitrogen—Health Criteria" will be available primarily via the Internet on the EPA's Integrated Science Assessment for Nitrogen Dioxide (Health Criteria) home page at <http://www.epa.gov/isa/integrated-science-assessment-isa-nitrogen-dioxide-health-criteria> or the public docket at <http://www.regulations.gov>, Docket ID: EPA-HQ-ORD-2013-0232. A limited number of CD-ROM copies will be available. Contact Ms. Marieka Boyd by phone: 919-541-0031; fax: 919-541-5078; or email: boyd.marieka@epa.gov to request a CD-ROM, and please provide your name, your mailing address, and the document title, "Integrated Science Assessment for Oxides of Nitrogen—Health Criteria" to facilitate processing of your request.

FOR FURTHER INFORMATION CONTACT: For technical information, contact Dr. Molini Patel, NCEA; telephone: 919-541-1492; fax: 919-541-1818; or email: patel.molini@epa.gov.

SUPPLEMENTARY INFORMATION:**Information About the Document**

Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants that, among other things, “cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare” and to issue air quality criteria for them. Further, section 108(a)(2) of the Act provides that these air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [the] pollutant in the ambient air” Under section 109 of the Act, the EPA is then to establish National Ambient Air Quality Standards (NAAQS) for each pollutant for which the EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. The EPA is also required to review and, if appropriate, revise the NAAQS, based on the revised air quality criteria (for more information on the NAAQS review process, see <http://www.epa.gov/ttn/naaqs/review.html>).

Oxides of nitrogen are one of six criteria pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an ISA (formerly called an Air Quality Criteria Document). The ISA, in conjunction with additional technical and policy assessments, provides the scientific basis for decisions by EPA on the adequacy of the current NAAQS and the appropriateness of possible alternative standards. The Clean Air Scientific Advisory Committee (CASAC), an independent science advisory committee with review and advisory functions mandated by section 109(d)(2) of the Clean Air Act, is charged with, among other things, independent scientific review of the EPA’s air quality criteria.

On February 10, 2012 (77 FR 7149), EPA formally initiated its current review of the air quality criteria for the health effects of oxides of nitrogen and the primary (health-based) nitrogen dioxide (NO₂) NAAQS, requesting the submission of recent scientific information on specified topics. EPA held a workshop on February 29 to March 1, 2012, to gather input from scientific experts, both internal and external to EPA, as well as from the public regarding key science and policy

issues that will frame the review of the health effects of the oxides of nitrogen and the primary NO₂ NAAQS (77 FR 7149).

The discussions at this workshop guided the development of the EPA’s “Draft Plan for Development of the Integrated Science Assessment for Nitrogen of Oxides—Health Criteria,” a draft “Integrated Review Plan for the Primary NAAQS for Nitrogen Dioxide” (EPA–452/R–14–003), and initial draft materials for the development of the ISA. The draft plan for the development of the ISA was made available for public comment on May 3, 2013 (78 FR 26026), and was discussed by the CASAC via a publicly accessible teleconference consultation on June 5, 2013 (78 FR 27234). On June 11, 2013, EPA held a workshop to discuss, with invited scientific experts, initial draft materials prepared for the development of the ISA (78 FR 27374). The draft Integrated Review Plan (IRP) was made available in February 2014 for comment by the public and review by the CASAC (79 FR 7184) and was reviewed by the CASAC at a public meeting on March 12, 2014 (79 FR 8701). The CASAC panel provided a consensus letter for their review of the draft IRP to the Administrator of the EPA on June 10, 2014 ([http://yosemite.epa.gov/sab/sabproduct.nsf/264cb1227d55e02c85257402007446a4/89989229944F36B085257CF300692E2A/\\$File/EPA-CASAC-14-001+unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/264cb1227d55e02c85257402007446a4/89989229944F36B085257CF300692E2A/$File/EPA-CASAC-14-001+unsigned.pdf)). The final IRP was released in June 2014 (79 FR 36801), and is available at: http://www.epa.gov/ttn/naaqs/standards/nox/s_nox_2012_pd.html.

Comments on the draft plan for the ISA and discussion at the June 11, 2013, workshop guided development of the “First External Review Draft Integrated Science Assessment for Oxides of Nitrogen—Health Criteria,” which was released on November 22, 2013 (78 FR 70040), and is available at: <http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=259167>. The CASAC review panel for the oxides of nitrogen met at a public meeting on March 12–13, 2014, to review the draft ISA along with the draft IRP (79 FR 8701). Subsequently, on June 10, 2014, the CASAC panel provided a consensus letter for their review to the Administrator of the EPA ([http://yosemite.epa.gov/sab/sabproduct.nsf/264cb1227d55e02c85257402007446a4/15E4619D3CD3409A85257CF30069387D/\\$File/EPA-CASAC-14-002+unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/264cb1227d55e02c85257402007446a4/15E4619D3CD3409A85257CF30069387D/$File/EPA-CASAC-14-002+unsigned.pdf)). The second external review draft ISA was developed with consideration of comments received from the CASAC and the public on the first external review draft ISA and evaluated

scientific studies published through August 2014. The CASAC panel met at a public meeting on June 2–3, 2015, to review the second draft ISA (79 FR 22993). Subsequently, on September 9, 2015, the CASAC provided a consensus letter for their review to the Administrator of the EPA ([http://yosemite.epa.gov/sab/sabproduct.nsf/6612DAF24438687B85257EBB0070369C/\\$File/EPA-CASAC-15-001+unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/6612DAF24438687B85257EBB0070369C/$File/EPA-CASAC-15-001+unsigned.pdf)). The letters from the CASAC, as well as public comments received on the ISA drafts, can be found in Docket ID No. EPA–HQ–ORD–2013–0232.

EPA has considered comments by the CASAC panel and by the public in preparing this final ISA.

Dated: January 15, 2016.

Vincent Cogliano,

Acting Deputy Director, National Center for Environmental Assessment.

BILLING CODE 6560–50–P

GOVERNMENT ACCOUNTABILITY OFFICE
Request for Medicare Payment Advisory Commission Nominations

AGENCY: Government Accountability Office (GAO).

ACTION: Request for letters of nomination and resumes.

SUMMARY: The Balanced Budget Act of 1997 established the Medicare Payment Advisory Commission (MedPAC) and gave the Comptroller General responsibility for appointing its members. For appointments to MedPAC that will be effective May 1, 2016, I am announcing the following: Letters of nomination and resumes will be accepted through March 9, 2016 to ensure adequate opportunity for review and consideration of nominees prior to appointment of new members. Acknowledgement of submissions will be provided within a week of submission. Please contact Mary Giffin at (202) 512–3710 if you do not receive an acknowledgment.

ADDRESSES: Email: MedPACappointments@qao.gov.

Mail: U.S. GAO, Attn: MedPAC Appointments, 441 G Street NW., Washington, DC 20548.

FOR FURTHER INFORMATION CONTACT: GAO: Office of Public Affairs, (202) 512–4800.
