AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E en route airspace around the Iron Mountain VHF omnidirectional range/distance measuring equipment, Iron Mountain, MI. This action would add additional airspace to facilitate the vectoring of Instrument Flight Rules (IFR) aircraft under control of the Minneapolis Air Route Traffic Control Center (ARTCC) in the Great Lakes area located north and northwest of the Iron Mountain, MI, VHF Omnidirectional Range/Distance Measuring Equipment (VOR/DME) navigation aid. This proposed action would enhance the safety and management of aircraft operations within the National Airspace System (NAS).

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish Class E airspace in the Iron Mountain, MI area.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions

presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-6271/Airspace Docket No. 16-AGL-15." The postcard will be date/time stamped and returned to the commenter.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document would amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists

Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) Part 71 by amending Class E en route airspace in the Iron Mountain, MI, area, for the Iron Mountain VOR/DME. The FAA is proposing to add additional controlled airspace to the southern and northern boundaries of the Iron Mountain en route airspace area, and remove exclusionary information from the regulatory text. This proposed action would provide controlled airspace enabling Minneapolis ARTCC greater latitude to use radar vectors and altitude changes within the entire area north and northwest of the Iron Mountain, MI, VOR/DME and remove unnecessary exclusion language for clarity.

The FAA also would amend Class E airspace extending upward from 700 feet above the surface at Iron Mountain, MI, to reflect the name change of the navigation aid from Iron Mountain VORTAC to Iron Mountain VOR/DME.

Class E airspace areas are published in Sections 6005 and 6006, respectively, of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance

with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
