NR rule and similar to many of the federally enforceable minor NR programs in surrounding states and around the country; (4) South Dakota contains areas of Indian country that are subject to the permitting thresholds in the tribal NR rule; and (5) The last 5 years of monitoring data for criteria pollutants (see docket) show that all pollutants are below NAAQS levels.

Removal of 40 CFR 52.21(b)(49)(v) From 74:36:09 (PSD)

We are approving the removal of 40 CFR 52.21(b)(49)(v) from 74:36:09 to reflect the Coalition Amended Judgement, which only specifically ordered that the EPA regulations under review (including 40 CFR 51.166(b)(48)(v) and 52.21(b)(49)(v)) be vacated. The EPA’s final rulemaking titled “Prevention of Significant Deterioration and Title V Permitting for Greenhouse Gases: Removal of Certain Vacated Element,” which was published on August 19, 2015 (80 FR 50199) removed 40 CFR 52.21(b)(49)(v) from the CFR.

Proposed Correction to IBR Material in Previous Rulemaking

In our final rule published in the Federal Register on February 16, 2016 (81 FR 7706) we inadvertently used an incorrect approval date in the updates to the South Dakota regulatory table. The EPA is proposing to correct this error with today’s action. The IBR material for our February 16, 2016 action is contained within this docket.

IV. What action is the EPA taking?

For the reasons described in section III of this proposed rulemaking, the EPA is proposing to approve South Dakota’s October 23, 2015 submittal, with the exceptions noted in section III. Our action is based on an evaluation of South Dakota’s revisions against the requirements of CAA section 110(a)(2)(c) and regulatory requirements under 40 CFR 51.160–164 and 40 CFR 51.166. The EPA is also proposing to approve a correction to our final rule published in the Federal Register on February 16, 2016 (81 FR 7706).

IV. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the Administrative Rules of South Dakota pertaining to section 74.36 as outlined in this preamble. The EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see the ADDRESSES section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);

- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.;

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- does not have federalism implications as specified in Executive Order 13132 (66 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

SUPPLEMENTARY INFORMATION:

I. General Information

Section 610 of the Regulatory Flexibility Act requires that an agency review, within 10 years of promulgation, each rule that has or will have a significant economic impact on a substantial number of small entities (SISNOSE). The EPA undertakes section 610 reviews to decide whether the agency should continue a rule unchanged, amend it, or withdraw it. We encourage small entities to provide comments on the need to change these rules, and in particular, how the rules could be made clearer, more effective, or if there is need to remove conflicting or overlapping requirements with other Federal or State regulations.

The EPA has exercised its discretion to include changes made to the 2008 RRP rule as well as solicit comments on lead-test kits in this review.

II. Extension of Comment Period for the Section 610 Review of the 2008 RRP Rule

The EPA is extending the deadline for submitting comments on the section 610 review of the RRP Rule to September 7, 2016. The original deadline for comments, based on a 60-day comment period, was August 8, 2016. The EPA’s decision responds to a request to extend the comment deadline. The EPA believes that this 30-day extension will assist in providing an adequate amount of additional time for the public to review the action and to provide written comments.

William Nickerson, Acting Director, Office of Regulatory Policy and Management.
