SUPPLEMENTARY INFORMATION:

A. Purpose

If it is in the best interest of the Government, the contracting officer may authorize cost-reimbursement contractors to obtain, for official purposes only, interagency fleet management system (IFMS) vehicles and related services. Federal Acquisition Regulation (FAR) 51.205 and the clause at FAR 52.251–2, Interagency Fleet Management System (IFMS) Vehicles and Related Services, are to be used in solicitations and contracts when a cost reimbursement contract is contemplated and the contracting officer may authorize the contractor to use IFMS vehicles and related services.

Before a contracting officer may authorize cost-reimbursement contractors to obtain IFMS vehicles and related services, the contracting officer must have, among other requirements:

- A written statement that the contractor will assume, without the right of reimbursement from the Government, the cost or expense of any use of the IFMS vehicles and services not related to the performance of the contract;

- Evidence that the contractor has obtained motor vehicle liability insurance covering bodily injury and property damage, with limits of liability as required or approved by the agency, protecting the contractor and the Government against third-party claims arising from the ownership, maintenance, or use of an IFMS vehicle; and

- Considered any recommendations of the contractor. The information is used by the Government to determine whether it is in the Government's best interest to authorize a cost-reimbursement contractor, for official purposes only, to use IFMS vehicles and related services.

Authorized contractors shall submit requests for IFMS vehicles and related services in writing to the appropriate GSA point of contact in accordance with the FAR. Contractors' requests for vehicles or related services must include:

- Two copies of the agency authorization;
- The number of vehicles and related services required and period of use;
- A list of employees who are authorized to request the vehicles or related services;
- A listing of equipment authorized to be serviced; and
- Billing instructions and address.

SUPPLEMENTARY INFORMATION:

A. Purpose

In December 2015, the Fixing America's Surface Transportation (FAST) Act outlined a set of fundamental requirements designed to change the way federal government agencies carry out their permitting and environmental review responsibilities for major infrastructure projects. Section 41003(a)(1)(A) of the FAST Act states that a "project sponsor of a covered project shall submit to the Executive Director and the facilitating agency notice of the initiation of a proposed covered project." The statute goes on to describe the required information to be contained in this notice of initiation.

In order to accommodate this statutory requirement, the Federal Permitting Improvement Steering Council (FPISC) has developed the Notice of Initiation form. The information collected via the Notice of Initiation form will be reviewed by the facilitating agency, as identified for the particular type of project under consideration, as well as the Executive Director of the FPISC in order to verify that the project in question qualifies to be considered a "covered project." If the project outlined in the Notice of Initiation is accepted as a covered project, the project will be added to the online Permitting Dashboard and a series of steps will be taken by the facilitating agency and the Executive Director as outlined in Title XLI of the FAST Act.
