SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Geological Survey (USGS) manages eight Department of the Interior (DOI) Climate Science Centers (CSC). Each CSC involves a cooperative agreement with a host institution. The initial host institution agreements will be re-competed, requiring collection of information from potential host institutions. In addition, this information collection addresses quarterly and annual reporting required of host institutions.

II. Data

OMB Control Number: 1028-0096.

Form Number: NA.

Title: Department of the Interior Regional Climate Science Centers.

Type of Request: Revision of a currently approved information collection.

Respondent Obligation: Required to obtain or retain benefits.

Frequency of Collection: Information will be collected one time every five years (approximately) for each CSC, to enable re-competition of CSC hosting agreements. In addition, host institutions are required to fill four quarterly financial statements and one annual progress report.

Description of Respondents: Institutions that are expected to propose to serve as CSC host or partner institutions include State, local government, and tribal entities, including academic institutions. Existing host institutions are State academic institutions.

Estimated Total Number of Annual Responses: USGS expects to request

proposals for a maximum of three CSCs in any year, and to receive an average of five proposals per CSC-request, for a total of fifteen proposals in any single year. USGS expects to enter into hosting agreements with a minimum of eight CSC host institutions. Thus USGS would request quarterly financial statements and annual progress reports covering host agreements from eight institutions. In addition, USGS expects to have in place approximately forty cooperative agreements per year addressing specific research projects funded under these hosting agreements. Each of these 40 agreements requires quarterly financial statements and one annual progress report.

Estimated Time per Response: Each proposal for CSC hosting is expected to take 200 hours to complete. The time required to complete quarterly and annual reports for any specific host cooperative agreement or research project agreement is expected to total 2.5 hours per report.

Estimated Annual Burden Hours: A maximum of 3,000 hours in years when proposals are requested, and 1 hours in those years with only quarterly and annual reporting.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: There are no "non-hour cost" burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number. Until the OMB approves a collection of information, you are not obliged to respond.

Comments: On September 1, 2015, we published a **Federal Register** notice (80 FR 52786) announcing that we would submit this ICR to OMB for approval and soliciting comments. The comment period closed on November 2, 2015. We received no comments.

III. Request for Comments

We again invite comments concerning this ICR as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time. While you can ask us and the OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Douglas Beard,

Chief of National Climate Change and Wildlife Science Center.

BILLING CODE 4338-11-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-993]

Certain Overflow and Drain Assemblies for Bathtubs and Components Thereof; Notice of the Commission's Determination Not To Review an Initial Determination Terminating Better Enterprise Co. Ltd. From the Investigation; Issuance of Consent Order; Termination of the Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's ("ALJ") initial determination ("ID") (Order No. 6) terminating Better Enterprise Co. Ltd. ("BEC") based on a consent order stipulation and proposed consent order. The Commission terminates the investigation.

FOR FURTHER INFORMATION CONTACT:

Amanda Pitcher Fisherow, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2737. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at *http://www.usitc.gov*. The public record for this investigation

may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on May 9, 2016, based on a complaint and supplements filed on behalf of WCM Industries, Inc., ("complainant") of Colorado Springs, Colorado. 81 FR 28104 (May 9, 2016). The complaint as supplemented alleges violations of Section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the sale for importation, importation, or sale within the United States after importation of certain overflow and drain assemblies for bathtubs and components thereof by reason of infringement of certain claims of U.S. Patent No. 8,302,220; U.S. Patent No. 8,321,970; U.S. Patent No. 8,584,272; and U.S. Patent No. 9,200,436. The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337. The Notice of Investigation names Bridging Partners Corporation ("BPC") of Taipei, Taiwan; BEC of Taipei, Taiwan; and Everflow Industrial Supply Corporation ("EIS") of Changhua, Taiwan as respondents. BPC and EIS were previously terminated from the investigation based on consent order stipulations and consent orders. Order No. 3 (unreviewed).

On July 1, 2016, complainant filed a motion to terminate the investigation as to BEC based on a consent order stipulation and proposed consent order.

On July 11, 2016, the ALJ granted the motion. Order No. 6. The ALJ found that the consent order stipulation and the proposed consent order comply with the Commission's rules. The ALJ also found that there is no evidence that termination of the investigation as to BEC would be contrary to the public interest. *Id.* at 4. No petitions for review were filed.

The Commission has determined not to review the subject ID and has issued a consent order. Since BEC is the last remaining respondent in the investigation, this action terminates the investigation.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

William R. Bishop,
*Supervisory Hearings and Information
Officer.*

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1279 (Final)]

Hydrofluorocarbon Blends and Components From China; Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially injured by reason of imports of hydrofluorocarbon ("HFC") blends from China, provided for in subheading 3824.78.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce ("Commerce") to be sold in the United States at less than fair value ("LTFV").² The Commission further determines that a U.S. industry is not materially injured or threatened with material injury by reason of imports of HFC components from China.

Background

The Commission, pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)), instituted this investigation effective June 25, 2015, following receipt of a petition filed with the Commission and Commerce by the American HFC Coalition, and its members: Amtrol, Inc., West Warwick, Rhode Island; Arkema, Inc., King of Prussia, Pennsylvania; The Chemours Company FC, LLC, Wilmington, Delaware; Honeywell International Inc., Morristown, New Jersey; Hudson Technologies, Pearl River, New York; Mexichem Fluor Inc., St. Gabriel, Louisiana; Worthington Industries, Inc., Columbus, Ohio; and District Lodge 154 of the International Association of Machinists and Aerospace Workers.³ The Commission scheduled the final

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² The Commission also finds that imports subject to Commerce's affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the antidumping duty order on HFC blends from China.

³ The Commission did not grant Amtrol, Inc. and Worthington Industries, Inc. interested party status because neither qualifies as an interested party under 19 U.S.C. 1677(9). Neither firm produces or blends the subject products.

phase of the investigation following notification of a preliminary determination by Commerce that imports of hydrofluorocarbon blends and components from China were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 1, 2016 (81 FR 10662). The hearing was held in Washington, DC, on June 21, 2016, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made this determination pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determination in this investigation on August 5, 2016. The views of the Commission are contained in USITC Publication 4629 (August 2016), entitled *Hydrofluorocarbon Blends and Components from China: Investigation No. 731-TA-1279 (Final)*.

By order of the Commission.
