

DATES: The OMB will consider all written comments that agency receives on or before September 12, 2016.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free of charge from the *RegInfo.gov* Web site at http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201605-1219-003 (this link will only become active on the day following publication of this notice) or by contacting Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Submit comments about this request by mail or courier to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL-MSHA, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503; by Fax: 202-395-5806 (this is not a toll-free number); or by email: OIRA_submission@omb.eop.gov. Commenters are encouraged, but not required, to send a courtesy copy of any comments by mail or courier to the U.S. Department of Labor—OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT: Contact Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Coal Mine Dust Sampling Devices information collection requirements codified in regulations 30 CFR 74.7, 74.8, 74.11, 74.13, and 74.16. Continuous Personal Dust Monitors (CPDMs) determine the concentration of respirable dust in coal mines. CPDMs must be designed and constructed for coal miners to wear and operate without impeding their ability to perform their work safely and effectively. CPDMs must also be durable to perform reliably in normal working conditions of coal mines. Paperwork requirements imposed on applicants are related to the application process and CPDM testing procedures. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a), 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0147.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2016. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 18, 2016 (81 FR 14895).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0147. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-MSHA.

Title of Collection: Coal Mine Dust Sampling Devices.

OMB Control Number: 1219-0147.

Affected Public: Private Sector—businesses or other for-profits.

Total Estimated Number of Respondents: 1.

Total Estimated Number of Responses: 1.

Total Estimated Annual Time Burden: 41 hours.

Total Estimated Annual Other Costs Burden: \$296,455.

Dated: August 8, 2016.

Michel Smyth,

Departmental Clearance Officer.

NATIONAL SCIENCE FOUNDATION

Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. The majority of these meetings will take place at NSF, 4201 Wilson Blvd., Arlington, Virginia 22230.

These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act. NSF will continue to review the agenda and merits of each meeting for overall compliance of the Federal Advisory Committee Act.

These closed proposal review meetings will not be announced on an individual basis in the **Federal Register**. NSF intends to publish a notice similar to this on a quarterly basis. For an advance listing of the closed proposal review meetings that include the names of the proposal review panel and the time, date, place, and any information on changes, corrections, or cancellations, please visit the NSF Web

site: <http://www.nsf.gov/events/>. This information may also be requested by telephoning, 703/292-8687.

Dated: August 5, 2016.

Crystal Robinson,

Committee Management Officer.

Dated: August 5, 2016.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[EA-16-016; NRC-2016-0163]

Confirmatory Order; In the Matter of AREVA, Inc.

AGENCY: Nuclear Regulatory Commission.

ACTION: Confirmatory order; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued a confirmatory order (Order) to AREVA, Inc. (AREVA), confirming the agreement reached in an Alternative Dispute Resolution mediation session held on June 13, 2016. This Order will resolve the issues that were identified during an NRC records review related to AREVA's export of nuclear components and equipment.

DATES: The confirmatory order was issued on August 4, 2016.

ADDRESSES: Please refer to Docket ID NRC-2016-0163 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2016-0163. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For questions about this Order, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each

document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Robert Fretz, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-001; telephone: 301-415-1980, email: Robert.Fretz@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the Order is attached.

Dated at Rockville, Maryland, this 4th day of August 2016.

For the Nuclear Regulatory Commission.

Patricia K. Holahan,

Director, Office of Enforcement.

United States of America

Nuclear Regulatory Commission

In the Matter of AREVA, Inc. EA-16-016

Confirmatory Order (Effective Upon Issuance)

I

AREVA, Inc. (AREVA) is a multinational corporation specializing in nuclear power and renewable energy services, including the export of reactor components under Part 110 of title 10 of the *Code of Federal Regulations* (10 CFR). AREVA's headquarters is located in Charlotte, North Carolina.

This Confirmatory Order (CO) is the result of an agreement reached during an Alternative Dispute Resolution (ADR) mediation session conducted on June 13, 2016.

II

On September 9, 2015, AREVA met with representatives from the NRC's Office of Nuclear Material Safety and Safeguards (NMSS) to discuss licensee responsibilities under the Protocol Additional to the Agreement between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America (hereinafter referred to as the Additional Protocol). During the meeting, AREVA officials informed NMSS representatives that AREVA may have exported reactor components to other countries without making the notifications required by the Additional Protocol and the NRC's regulations in 10 CFR 110.54(a)(1). Subsequently, AREVA conducted a review of its export activities, and later notified the NRC that it had exported zirconium tubes between June 1, 2009,

and March 18, 2015, some of which went to nuclear power plants located in Taiwan, and that it had exported a reactor coolant pump (RCP) to France on July 25, 2014. On October 29, 2015, AREVA provided the required export notifications to the U.S. Department of Commerce (DOC), and on November 3, 2015, this information was provided to the NRC (NRC's Agencywide Documents Access and Management System (ADAMS) Accession No. ML16056A349).

Section 110.54(a)(1) of 10 CFR states, in part, that reports of exports of nuclear facilities and equipment shipped during the previous quarter must be made by licensees making exports under the general license or specific license in 10 CFR part 110 by January 15, April 15, July 15, and October 15 of each year on DOC/NRC Forms AP-M or AP-13, and associated forms. In accordance with 10 CFR 110.54(a)(2), these required reports must be submitted to the DOC, Bureau of Industry and Security. The reports must contain information on all nuclear facilities, equipment, and non-nuclear materials listed in Annex II of the Additional Protocol.

Between June 2009 and March 2015, AREVA failed to report exports under the general license and specific license in 10 CFR part 110 of nuclear equipment shipped during the previous quarter. Specifically, AREVA exported nuclear reactor equipment and components from the United States including components described in paragraphs (4), (5), (6), and (7) of Appendix A to 10 CFR part 110 and failed to submit quarterly reports to the NRC and DOC as noted by the following examples:

1. On June 1, 2009, AREVA exported zircalloy boiling water reactor fuel channels to a nuclear power plant located in Taiwan.
2. On April 26, 2012, AREVA exported zirconium tubes designed and prepared for use as fuel cladding to CEZUS in France.
3. On December 3, 2013, AREVA exported inert zircalloy fuel rods designed and prepared for use as fuel cladding to a nuclear power plant located in Taiwan.
4. On February 20, 2014, AREVA exported zirconium fuel assembly guide tubes to CEZUS in France.
5. On March 18, 2015, AREVA exported zirconium tubes designed and prepared for use as fuel cladding to GDE-SA (a fuel recycler) in France.
6. On July 25, 2014, AREVA exported an RCP (without motor), especially designed and prepared for circulation of the primary coolant
