### Endangered and Threatened Wildlife and Plants; 6-Month Extension of Final Determination for the Proposed Listing of the Headwater Chub and Distinct Population Segment of the Roundtail Chub as Threatened Species

**AGENCY:** Fish and Wildlife Service,  
Interior.

**ACTION:** Proposed rule; reopening of the  
comment period.

**SUMMARY:** We, the U.S. Fish and  
Wildlife Service (Service), announce a  
6-month extension of the determination  
of whether the headwater chub (*Gila  
nigra*) and a distinct population segment  
of the roundtail chub (*Gila robusta*) are  
threatened species, and we announce  
the reopening of the comment period on  
the proposed rules to add these species  
to the List of Endangered and  
Threatened Wildlife. We are taking this  
action based on our finding that there is  
substantial disagreement regarding the  
sufficiency or accuracy of the available  
data relevant to our proposed  
regulations to add these species to the  
List of Endangered and Threatened  
Wildlife, making it necessary to solicit  
additional information by reopening the  
comment period for 30 days.

**DATES:** The comment period end date is  
September 14, 2016. We request that  
comments be submitted by 11:59 p.m.  
Eastern Time on the closing date.

**ADDRESSES:** You may submit comments

and the roundtail chub distinct  
population segment. You may submit a

#### SUPPLEMENTARY INFORMATION:

##### Background

On October 7, 2015 (80 FR 60754), we  
published a proposed rule to determine  
that the headwater chub and the lower  
Colorado River basin distinct  
population segment (DPS) of the  
roundtail chub are threatened species  
under the Endangered Species Act of  
1973, as amended (Act) (16 U.S.C. 1531  
*et seq.*). For a description of previous  
Federal actions concerning these  
species, please refer to the proposed  
listing rule (October 7, 2015; 80 FR  
60754). We solicited and received  
independent scientific review of the  
information contained in the proposed  
rule from peer reviewers with expertise  
in these two chub species, in  
accordance with our July 1, 1994, peer  
review policy (59 FR 34270).

Section 4(b)(6) of the Act and its  
implementing regulations in title 50 of  
the Code of Federal Regulations at 50  
CFR 424.17(a) require that we issue one  
of four documents within 1 year of a  
proposed determination: (1) A final rule  
to implement such determination or  
revision, (2) a finding that such revision  
should not be made, (3) a withdrawal of  
the proposed rule upon a finding that  
available evidence does not justify the  
proposed action, or (4) a document  
extending such 1-year period by an  
additional period of not more than 6  
months because there is substantial  
disagreement among scientists  
knowledgeable about the species  
regarding the sufficiency or accuracy of  
the available data relevant to the  
proposed determination or revision.

During the public comment period,  
we received multiple comments on the  
proposed listing determinations from  
scientists with knowledge of the species  
regarding the sufficiency or accuracy of  
the available data used to support these  
proposed regulations, as well as the  
methodology used to develop the  
proposed rule. We also received
