

Facilities Relocation Project (Initial Study) October 2013.

Since the Initial Study, the transmission alignment has been altered to run closer to the east boundary on the Sacramento Job Corps property. The changes to the alignment of the Transmission Line are not substantial, and, with the mitigation specified in the re-evaluation materials, the changes will not cause significant environmental impacts that were not previously evaluated.

The Sacramento Regional Transit District has prepared a Modification to the Sacramento Regional Transit District's South Sacramento Corridor Phase 2 Light Rail Project—69 kW Transmission Line Relocation which included a Wetlands Assessment for Proposed SMUD 69-kv Relocation (October 15, 2015) to evaluate and propose mitigation actions regarding environmental impacts.

The previously evaluated environmental impacts are:

Removal of 12 eucalyptus trees: Removal of the trees may disturb nesting Swainson's hawks which are a California State threatened species. The proposed mitigation is that tree removal work will be completed outside of nesting season which runs from February 1 to September 15th in accordance with California Department of Fish and Wildlife guidelines.

Threatened vernal pool fairy shrimp and endangered vernal pool tadpole shrimp may be present in vernal pool habitat. The proposed mitigation is to provide a 200 ft buffer between vernal pools and the transmission poles and service roadway.

The Department of Labor is a Cooperating Agency with the U.S. Federal Transit Authority on this project. The Federal Transit Administration letter of May 17, 2016 from Leslie T Rogers, Regional Administrator Region IX, FTA, to Michael R Wiley, General Manager/CEO, Sacramento Regional Transit District stated that the project was previously the subject of a Record of Decision that was issued by FTA in December, 2008 and no further Environmental Impact Statement or Environmental Assessment are necessary. The Office of Job Corps concurs that neither the preparation of a Supplemental Environmental Impact Statement nor an Environmental Assessment are necessary.

Implementation of the selected alternative will not have significant impacts on the human environment. The determination is sustained by the analysis in the Initial Study, agency consultation, and the capability of mitigations to reduce or avoid impacts. Any adverse environmental impacts that

could occur are no more than minor in intensity, duration and context and less-than-significant. There are no previous, planned, or implemented actions, which in combination with the selected alternative would have significant effects on the human environment. Requirements of NEPA have been satisfied and preparation of an Environmental Impact Statement is not required. A public comment period was initiated with a notice in the Sacramento Bee on July 31, 2016. The comment period is for 30 days, ending on August 30, 2016.

Signed at Washington, DC, this 29th day of July, 2016.

Portia Wu,

Assistant Secretary for Employment and Training, Labor.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2016-045]

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when agencies no longer need them for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives of the United States and to destroy, after a specified period, records lacking administrative, legal, research, or other value. NARA publishes notice in the **Federal Register** for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: NARA must receive requests for copies in writing by September 15, 2016. Once NARA finishes appraising the records, we will send you a copy of the schedule you requested. We usually prepare appraisal memoranda that

contain additional information concerning the records covered by a proposed schedule. You may also request these. If you do, we will also provide them once we have completed the appraisal. You have 30 days after we send to you these requested documents in which to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting Records Appraisal and Agency Assistance (ACRA) using one of the following means:

Mail: NARA (ACRA); 8601 Adelphi Road; College Park, MD 20740-6001.

Email: request.schedule@nara.gov.

FAX: 301-837-3698.

You must cite the control number, which appears in parentheses after the name of the agency that submitted the schedule, and a mailing address. If you would like an appraisal report, please include that in your request.

FOR FURTHER INFORMATION CONTACT:

Margaret Hawkins, Director, by mail at Records Appraisal and Agency Assistance (ACRA); National Archives and Records Administration; 8601 Adelphi Road; College Park, MD 20740-6001, by phone at 301-837-1799, or by email at request.schedule@nara.gov.

SUPPLEMENTARY INFORMATION: Each year, Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing records retention periods and submit these schedules for NARA's approval. These schedules provide for timely transfer into the National Archives of historically valuable records and authorize the agency to dispose of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless otherwise specified. An item in a schedule is media neutral when an agency may apply the disposition instructions to records regardless of the medium in which it creates or maintains the records. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is expressly limited to a specific medium. (See 36 CFR 1225.12(e).)

Agencies may not destroy Federal records without Archivist of the United States' approval. The Archivist approves destruction only after thoroughly considering the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value.

In addition to identifying the Federal agencies and any subdivisions requesting disposition authority, this notice lists the organizational unit(s) accumulating the records (or notes that the schedule has agency-wide applicability when schedules cover records that may be accumulated throughout an agency); provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction); and includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it also includes information about the records. You may request additional information about the disposition process at the addresses above.
