

Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

■ 2. Add § 100.T09–0797 to read as follows:

§ 100.T09–0797 Special Local Regulations; Tall Ships Duluth 2016 Parade of Sail, Duluth, MN.

(a) *Regulated Areas.* (1) Area Duluth Harbor: This Area includes all waters of Lake Superior and Duluth Harbor bounded by Rice's Point to the west and Duluth to the north, within the following boundaries: Beginning at position 46°49'11" N., 92°02'20" W., then due south to position 46°45'12" N., 92°02'20" W., and then west to position 46°45'12" N., 92°05'40" W. (Duluth Marine Terminal South Light (LLNR 15935)).

(2) Area Parade of Sail: This Area includes all waters of Lake Superior and Duluth Harbor bounded by Duluth to the north, within the following boundaries: Beginning at position 46°46'51.54" N., 92°05'17.03" W. (North Pier Light (LLNR 15855)), then northeast to position 46°47'18.96" N., 92°4'0.84" W., then south to position 46°47'11.04" N., 92°03'55.08" W., then southwest to position 46°46'48.46" N., 92°05'15.02" W. (South Breakwater Outer Light (LLNR 15845)), then to position 46°46'40.66" N., 92°05'36.59" W. near the Duluth Lift Bridge, then to position 46°46'34.04" N., 92°05'39.64" W. (Basin Buoy 1 (LLNR 15865)), and then west to position 46°46'36.42" N., 92°06'07.86" W.

(b) *Special Local Regulations.* (1) In accordance with the general regulations in § 100.35 of this part, entry into, transiting, or anchoring within the regulated areas is prohibited unless designated for vessels of that type or entry is authorized by the Captain of the Port (COTP) Duluth or on-scene representatives.

(2) All persons and vessels are authorized by the COTP Duluth to enter areas of these special local regulations in accordance with the following restrictions:

(i) Area Duluth Harbor: Vessels transiting this Area must do so at a speed of not more than six (6) knots or at no wake speed, whichever is less. Vessels proceeding under sail will not be allowed in this Area unless also propelled by machinery, due to limited maneuvering ability around numerous other spectator craft viewing the Tall Ships.

(ii) Area Parade of Sail: This Area will be closed to all vessel traffic, except those vessels designated as participants.

(3) The Coast Guard will provide notice of the regulated areas prior to the event through Local Notice to Mariners and Broadcast Notice to Mariners. Notice will also be provided by on-scene representatives.

(4) The "on-scene representative" of the Captain of the Port is any Coast Guard commissioned, warrant, or petty officer and any Federal, State, or local officer designated by the Captain of the Port to act on his behalf.

(5) Vessel operators desiring to enter or operate within the regulated areas shall contact the Captain of the Port Duluth by telephone at 218–725–3818, or on-scene representative via VHF radio on channel 16, to obtain permission to do so. Vessel operators given permission to enter, operate, transit through, anchor in, or remain within the regulated areas must comply with all instructions given by COTP Duluth or on-scene representatives.

Dated: August 12, 2016.

E.E. Williams,

Commander, U.S. Coast Guard, Captain of the Port Duluth.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2016–0778]

Drawbridge Operation Regulation; Rockaway Inlet, Queens, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Marine Parkway Bridge across the Rockaway Inlet, mile 3.0, at Queens, New York. This deviation is necessary to allow the bridge owner to replace mechanical and electrical components for the lift span operation.

DATES: This deviation is effective from 7 a.m. on November 15, 2016 to 5 p.m. on May 13, 2017.

ADDRESSES: The docket for this deviation, [USCG–2016–0778] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Judy Leung-Yee, Project Officer, First Coast Guard District, telephone (212) 514–4330, email judy.k.leung-ye@uscg.mil.

SUPPLEMENTARY INFORMATION:

The Marine Parkway Bridge, mile 3.0, across the Rockaway Inlet, has a vertical clearance in the closed position of 55 feet at mean high water and 59 feet at mean low water. The existing bridge operating regulations are found at 33 CFR 117.795(a).

The waterway is transited by commercial barge traffic of various sizes.

The bridge owner, MTA Bridges and Tunnels, requested a temporary deviation from the normal operating schedule to replace mechanical and electrical components for the lift span operation.

Under this temporary deviation, the Marine Parkway Bridge shall remain in the closed position from 7 a.m. on November 15, 2016 to 5 p.m. May 13, 2017.

Vessels able to pass under the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass.

The Coast Guard will inform the users of the waterways through our Local Notice and Broadcast to Mariners of the change in operating schedule for the bridge so that vessel operations can arrange their transits to minimize any impact caused by the temporary deviation. The Coast Guard notified various companies of the commercial oil and barge vessels and they have no objections to the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: August 11, 2016.

C.J. Bisignano,

Supervisory Bridge Management Specialist,
First Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R03-OAR-2016-0189; FRL-9950-69-Region 3]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Control of Volatile Organic Compound Emissions From Fiberglass Boat Manufacturing Materials

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a revision to the Pennsylvania state implementation plan (SIP) submitted by the Commonwealth of Pennsylvania. This SIP revision pertains to Pennsylvania’s regulation for fiberglass boat manufacturing materials found in section 129.74 of the Pennsylvania Code. This regulation meets the

requirement to adopt reasonably available control technology (RACT) for sources covered by EPA’s control techniques guidelines (CTG) standards for fiberglass boat manufacturing materials. EPA is, therefore, approving this revision to the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on September 16, 2016.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2016-0189. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <http://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Irene Shandruk, (215) 814-2166, or by email at shandruk.irene@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Section 172(c)(1) of the CAA provides that SIPs for nonattainment areas must include reasonably available control measures (RACM), including RACT, for sources of emissions. Section 182(b)(2)(A) provides that for certain nonattainment areas, states must revise their SIPs to include RACT for sources of volatile organic compound (VOC) emissions covered by a CTG document issued after November 15, 1990 and prior to the area’s date of attainment. Furthermore, pursuant to section 184(b)(1)(B) of the CAA, all areas in the Ozone Transport Region (OTR), such as Pennsylvania, must submit SIP

revisions that include implementation of RACT with respect to all sources of VOCs in the states covered by a CTG. EPA defines RACT as “the lowest emission limitation that a particular source is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility.” 44 FR 53761 (September 17, 1979).

CTGs are intended to provide state and local air pollution control authorities information that should assist them in determining RACT for VOCs from various sources. The CTG for fiberglass boat manufacturing materials (Publication No. EPA 453/R-08-004; September 2008) provides control recommendations for reducing VOC emissions from the use of gel coats, resins, and materials used to clean application equipment in fiberglass boat manufacturing operations. This CTG applies to facilities that manufacture hulls or decks of boats from fiberglass, or build molds to make fiberglass boat hulls or decks. EPA’s 2008 CTG recommends that the following operations should be covered: Open molding resin and gel coat operations (these include pigmented gel coat, clear gel coat, production resin, tooling gel coat, and tooling resin); resin and gel coat mixing operations; and resin and gel coat application equipment cleaning operations.

EPA’s 2008 CTG recommends the following VOC reduction measures: VOC emission limits for molding resins and gel coats; work practices for resin and gel coat mixing containers; and VOC content and vapor pressure limits for cleaning materials. Recommended VOC emission limits for open molding resin and gel coat operations are shown in Table 1. A more detailed explanation for determining the VOC emission limits for molding resin and gel coats can be found in the Technical Support Document (TSD) for this rulemaking under Docket ID Number EPA-R03-OAR-2016-0189 and available online at <http://www.regulations.gov>.

TABLE 1—MONOMER VOC CONTENT LIMITATIONS FOR OPEN MOLDING RESIN AND GEL COAT OPERATIONS

Materials	Application method	Individual monomer VOC content or weight average monomer VOC content limit (weight percent)
Production Resin	Atomized (spray)	28
Production Resin	Nonatomized	35
Pigmented Gel Coat	Any Method	33
Clear Gel Coat	Any Method	48
Tooling Resin	Atomized	30
Tooling Resin	Nonatomized	39
Tooling Gel Coat	Any Method	40
