Title: Air Bag Deactivation.

Type of Review: Renewal of a previously approved information collection.

Abstract: If a private individual or lessee wants to install an air bag on-off switch to turn-off either or both frontal air bags, they must complete Form OMB 2127–0588 to certify certain statements regarding use of the switch. The dealer or business must, in turn, submit the completed forms to NHTSA within seven days. The submission of the completed forms by the dealers and repair business to NHTSA, as required, will serve the agency several purposes. They will aid the agency in monitoring the number of authorization requests submitted and the pattern in claims of risk group membership. The completed forms will enable the agency to determine whether the dealers and repair business are complying with the terms of the exemption, which include a requirement that the dealers and repair businesses accept only fully completed forms. Finally, submission of the completed forms to the agency will promote honesty and accuracy in the filling out of the forms by vehicle owners. The air bag on-off switches are installed only in vehicles in which the risk of harm needs to be minimized on a case-by-case basis.

Affected Public: Private individuals, fleet owners and lessees, motor vehicle dealers, and repair business.
