I. Background

The Fixing America’s Surface Transportation Act (FAST Act; Pub. L. 114–94, Sec. 6002(a)(5); December 4, 2015) authorizes \$72.5 million for Federal fiscal year 2016 (FY 2016), \$75 million for fiscal years 2017 (FY 2017) and 2018 (FY 2018), and \$77.5 million for fiscal years 2019 (FY 2019) and 2020 (FY 2020) for up to 35 competitive grants for UTCs. The FY 2016 through FY 2020 funds are subject to appropriations and to an annual obligation limitation. The amount of budget authority available in a given year may be less than the amount authorized for that fiscal year.

The FAST Act authorizes the Secretary of Transportation to make grants to eligible nonprofit institutions of higher education to establish and operate UTCs. Nonprofit institutions of higher education may include qualifying two-year institutions (20 U.S.C. 1001(a)). OST–R will manage the UTC Program for the Department. The

Department will solicit competitive grant applications for National University Transportation Centers, Regional University Transportation Centers and Tier 1 University Transportation Centers as set forth in the FAST Act. UTCs will be selected by the Secretary, in consultation as appropriate with the Assistant Secretary for Research and Technology, and the Administrator of the Federal Highway Administration and other modal administrators as appropriate. (49 U.S.C. 5505(b)(4)(B) as amended by Pub. L. 114–94, Sec. 6016).

The Department plans to competitively select five National UTCs with annual awards for five years of between \$2 and \$4 million each, ten Regional UTCs with annual awards of between \$1.5 and \$3 million each, and up to 20 Tier 1 UTCs with annual awards of between \$1 and \$2 million each.

The role of each UTC is to advance transportation expertise and technology in the varied disciplines that comprise the field of transportation through education, research, and technology transfer activities; to provide for a critical transportation knowledge base outside of the Department of Transportation; and to address critical workforce needs and educate the next generation of transportation leaders.

II. Eligibility

A UTC must be located in the United States or territories. A change in the UTC Program from prior authorizations is that each UTC must be a consortium of two or more nonprofit institutions of higher learning (49 U.S.C. 5505(b)(1) as amended by Pub. L. 114–94, § 6016).

A Regional UTC must be located in the region for which the grant is sought. (49 U.S.C. 5505(c)(3)(B)(ii) as amended by Pub. L. 114–94, § 6016). All members of a Regional UTC consortium must be located in the region for which the grant is sought.

Institutions may collaborate with state and local departments of transportation, Metropolitan Planning Organizations, the private sector, and non-governmental organizations; however, these organizations or others that are not U.S. nonprofit institutions of higher learning may not be considered members of a consortium. A change from previous UTC Program competitions is that two-year institutions may be members of a consortium if they meet the definition of “institution of higher learning” in 20 U.S.C. 1001(a). The grantee institution (lead institution of a consortium of institutions) will be the direct and primary recipient of UTC program
