DEPARTMENT OF ENERGY

10 CFR Part 430

[Docket Number EERE–2012–BT–STD–0027]

RIN 1904–AC81

Energy Conservation Program: Energy Conservation Standards for Residential Dehumidifiers

ACTION: Publication of determination.

SUMMARY: The Energy Policy and Conservation Act of 1975 (EPCA), as amended, prescribes that the U.S. Department of Energy (DOE) make a determination on the impact, if any, on the lessening of competition likely to result from a U.S. Department of Energy (DOE) proposed rule for energy conservation standards and that DOE publish the determination in the Federal Register. DOE published its final rule for energy conservation standards for dehumidifiers on June 13, 2016, and is publishing DOJ’s August 5, 2015 determination on the proposed rule.

DATES: Date of DOJ determination—August 5, 2015.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: On June 13, 2016, DOE published a final rule amending energy conservation standards for dehumidifiers (81 FR 38338). Those amended standards were determined by DOE to be technologically feasible and economically justified and would result in the significant conservation of energy. The Energy Conservation and Policy Act of 1975 (42 U.S.C. 6291, et seq.; “EPCA”), as amended, requires that the Attorney General make a determination and analysis of the impact, if any, of any lessening of competition likely to result from a proposed standard, within 60 days of publication. (42 U.S.C. 6295(o)(2)(B)(ii)) EPCA also requires that DOE publish the determination and analysis in the Federal Register.

DOE received the determination in response to the June 3, 2015 NOPR (80 FR 31645) from the Attorney General and the U.S. Department of Justice (DOJ) on August 5, 2015. DOE is publishing the text of DOJ’s August 5, 2015 determination.

Issued in Washington, DC, on August 11, 2016.

Kathleen B. Hogan,
Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

U.S. DEPARTMENT OF JUSTICE

Antitrust Division

WILLIAM J. BAER
Assistant Attorney General

We have reviewed the proposed standards contained in the Notice of Proposed Rulemaking (80 FR 31646, June 3, 2015) and the related Technical Support Documents. We have also reviewed information presented at the public meeting held on the proposed standards on July 7, 2015. Based on this review, our conclusion is that the proposed energy conservation standards for residential dehumidifiers are unlikely to have a significant adverse impact on competition.

Sincerely,
William J. Baer
