Paramedics (1055 Edwards Village Blvd., Edwards, CO 81632). The meeting will be held in the classroom. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency’s preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer’s concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

There will be an additional opportunity to comment when the Notice of Availability of the Draft EIS is published in the Federal Register. For objection eligibility, each individual or representative from each entity submitting written comments must either sign the comment or verify identity upon request. Individuals and organizations wishing to be eligible to object must meet the information requirements in 36 CFR 218.25(a)(3).

Preliminary Issues

Section 1323(a) of the ANILCA statute (incorporated into 36 CFR Subpart D) compels the agency to authorize access to non-Federal land within the boundaries of NFS lands [i.e. inholdings], to the extent that such access is adequate for providing reasonable use and enjoyment of that inholding consistent with other, similarly situated non-Federal lands. In addition to providing reasonable use and enjoyment, 36 CFR Subpart D requires that any authorized access route be located and constructed so as to minimize damage or disturbance to NFS lands and resources.

Consequently, a key issue for this project is to determine what route location(s) and level of construction are necessary in order to achieve “adequate access” for “reasonable use and enjoyment” of the applicant’s inholding property.

Permits or Licenses Required

This Proposed Action considers the issuance of a road easement from the Forest Service to Berlaimont under the authority of the Federal Land Policy and Management Act of 1976 (FLPMA).

Comment Requested

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the Federal Register.

The Forest Service believes, at this early state, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft Environmental Impact Statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's positions and contentions. Vermont Yankee Nuclear Power Corp. v. NRDC, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft Environmental Impact Statement stage but that are not raised until after completion the final Environmental Impact Statement may be waived or dismissed by the courts. City of Anagoon v. Hodel, 803 F.2d 1016, 1022 (9th Cir. 1986) and Wisconsin Heritages, Inc. v. Harris, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft Environmental Impact Statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft Environmental Impact Statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.
