

through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

#### Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on March 30, 2016, at Vol. 81, No. 61 FR 17686–17687. This comment period ended May 31, 2016. No public comments were received from this Notice.

*Description:* This is a new information collection request. This survey was developed to support NCCC performance measurement for use in program development, funding, and evaluation. The survey instrument will be completed by NCCC Members following the completion of their service term. In particular, this survey will be administered to NCCC Members who are exiting early or have already exited early from the AmeriCorps NCCC program. Completion of this information collection is not required for the completion of a service term with NCCC.

*Type of Review:* New.

*Agency:* Corporation for National and Community Service.

*Title:* NCCC Member Experience Survey.

*OMB Number:* TBD.

*Agency Number:* None.

*Affected Public:* The NCCC Member Experience Survey will be administered to former NCCC Members.

*Total Respondents:* Approximately 450.

*Frequency:* Each respondent will complete only one survey for their most recent service term.

*Average Time per Response:* 25 minutes.

*Estimated Total Burden Hours:* 187.5 hours.

*Total Burden Cost (capital/startup):* None.

*Total Burden Cost (operating/maintenance):* None.

Dated: August 11, 2016.

**Charles Davenport,**

*Acting Director, National Civilian Community Corps.*

## DEPARTMENT OF DEFENSE

### Department of the Army, Corps of Engineers

#### Intent To Prepare a Draft Environmental Impact Statement for the Proposed Flood Risk Management Project for the Souris River Basin, North Dakota

**AGENCY:** U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** The St. Paul District, Army Corps of Engineers, in partnership with the Souris River Joint Water Resources Board (SRJB), is conducting a flood risk management feasibility study for the Souris River Basin within the continental United States. The feasibility study will include an Environmental Impact Statement and consider opportunities to reduce flood risk within Bonneau, McHenry, Ward, and Renville counties, North Dakota. The study will evaluate several alternative measures, including, but not limited to: Levees and floodwalls, diversion channels, non-structural flood proofing, relocation of flood-prone structures, and flood storage.

#### FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and Environmental Impact Statement may be directed to: U.S. Army Corps of Engineers, St. Paul District, ATTN: Mr. Terry J. Birkenstock, Deputy Chief, Regional Planning & Environment Division North, 180 Fifth Street East, Suite 700, St. Paul, MN 55101–1678; telephone: (651) 290–5264; email [terry.birkenstock@usace.army.mil](mailto:terry.birkenstock@usace.army.mil).

**SUPPLEMENTARY INFORMATION:** The Souris River (alternatively known as the Mouse River) is approximately 435 miles long. The river begins in the southeastern portion of the Canadian province of Saskatchewan, flows south and east through Renville, Ward, McHenry, and Bottineau counties, North Dakota, and then turns north before returning to Canada in southwest Manitoba. The river flows through the cities of Burlington, Minot, Sawyer, and Velva, North Dakota. Key features associated with the river include the Lake Darling Dam, the Upper Souris National Wildlife Refuge, and the J. Clark Salyer National Wildlife Refuge. The Des Lacs River is a major tributary that joins the Souris River at Burlington, North Dakota.

The purpose of this study is to collect and evaluate pertinent engineering, economic, social, and environmental information in order to assess the potential for a federal flood risk

management project within the basin. The study objective is to define a feasible and implementable project to reduce flood risk which is relatively high within the basin. In June 2011, heavy rains in the upstream portions of the watershed exceeded the storage capacity of upstream reservoirs already full from the April snowmelt. Flows in excess of 26,900 cubic feet per second (cfs) overwhelmed the existing Federal flood risk management projects (designed to pass 5,000 cfs from Burlington to Minot) and emergency flood fighting efforts, causing over \$690 million in damages to more than 4,700 structures.

Following the 2011 flood, a non-Federal local flood risk management study was initiated by the North Dakota State Water Commission in response to a request for assistance from the SRJB. The scope of the non-Federal study, identified as the Mouse River Enhanced Flood Protection Plan (MREFPP), differs from the Federal study and is primarily focused on flood protection specifically for the city of Minot. Because of its influence on an existing federal flood project, this non-federal effort has requested permission from the Corps of Engineers to pursue actions under 33 U.S.C. 408 (frequently referred to as Section 408). A separate Notice of Intent was published (FR Doc. 2015–17670 Filed 7–16–15) for an EIS associated with the Corps of Engineers' decision on the Section 408 request. However, this Notice of Intent involves an EIS with broader consideration of flood risk across the basin. Additional details on the local, non-federal flood MREFPP can be found at [mouseriverplan.com](http://mouseriverplan.com).

This Souris River Basin Flood Risk Management Feasibility Study and its associated NEPA documentation will be prepared by the Corps. The Corps will act as the lead agency and coordinate with other agencies to discuss their participation in the NEPA process. The study will broadly evaluate several alternative measures including, but not limited to: levees and floodwalls along the river through towns, diversion channels, non-structural flood-proofing, relocation of flood-prone structures, and flood storage.

Significant resources and issues to be addressed in the draft Environmental Impact Statement will be determined through coordination with Federal agencies, State agencies, local governments, the general public, interested private organizations, and industry. Anyone who has an interest in participating in the development of the Draft Environmental Impact Statement is invited to contact the St. Paul District, Corps of Engineers.

To date, the following areas of discussion have been identified for inclusion in the DEIS:

1. Flood damage reduction.
2. Effects to Fish and wildlife.
3. Land-use Effects (effects on agricultural land).
4. Effects to Archaeological, cultural, and historic resources.
5. Social Effects.
6. Effects to Groundwater.

Additional areas of interest may be identified through the scoping process, which will include public and agency meetings. A notice of those meetings will be provided to interested parties and to local news media.

The Corps anticipates holding a series of scoping meetings sometime in October, 2016 in the City of Minot and surrounding communities. In general, the meetings will begin with an open house and be followed by a presentation and question and answer session.

An environmental review will be conducted under the NEPA of 1969 and other applicable laws and regulations. It is anticipated that the DEIS will be available for public review in the fall of 2017.

Dated: August 11, 2016.

**Terry J. Birkenstock,**

*Deputy Chief, Regional Planning and Environment Division North.*

## DEPARTMENT OF ENERGY

### Electricity Advisory Committee

**AGENCY:** Office of Electricity Delivery and Energy Reliability, Department of Energy.

**ACTION:** Notice of renewal.

**SUMMARY:** Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act, and in accordance with Title 41 of the Code of Federal Regulations, section 102-3.65(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Electricity Advisory Committee's (EAC) charter has been renewed for a two-year period beginning on August 8, 2014.

The Committee will provide advice and recommendations to the Assistant Secretary for Electricity Delivery and Energy Reliability on programs to modernize the Nation's electric power system.

Additionally, the renewal of the EAC has been determined to be essential to conduct Department of Energy business and to be in the public interest in

connection with the performance of duties imposed upon the Department of Energy by law and agreement. The Committee will continue to operate in accordance with the provisions of the Federal Advisory Committee Act, adhering to the rules and regulations in implementation of that Act.

**FOR FURTHER INFORMATION CONTACT:** Matt Rosenbaum, Designated Federal Officer at (202) 586-1060.

Issued in Washington, DC, on August 8, 2016.

**Amy Bodette,**

*Committee Management Officer.*

## DEPARTMENT OF ENERGY

### Environmental Management Site-Specific Advisory Board, Oak Ridge Reservation

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge Reservation. The Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

**DATES:** Wednesday, September 14, 2016, 6:00 p.m.

**ADDRESSES:** Olive Garden Meeting Room, 7206 Kingston Pike, Knoxville, Tennessee 37919.

**FOR FURTHER INFORMATION CONTACT:** Melyssa P. Noe, Alternate Deputy Designated Federal Officer, U.S. Department of Energy, Oak Ridge Office of Environmental Management, P.O. Box 2001, EM-942, Oak Ridge, TN 37831. Phone (865) 241-3315; Fax (865) 241-6932; E-Mail: [Melyssa.Noel@orem.doe.gov](mailto:Melyssa.Noel@orem.doe.gov). Or visit the Web site at [www.energy.gov/orssab](http://www.energy.gov/orssab).

**SUPPLEMENTARY INFORMATION:** Purpose of the Board: The purpose of the Board is to make recommendations to DOE-EM and site management in the areas of environmental restoration, waste management, and related activities.

*Tentative Agenda:*

- Welcome and Announcements
- Comments from the Deputy Designated Federal Officer (DDFO)
- Comments from the DOE, Tennessee Department of Environment and Conservation, and Environmental Protection Agency Liaisons
- Public Comment Period

- Discussion: Vision 2020—Planning for the Future of East Tennessee Technology Park, including Reuse, Historic Preservation and Stewardship
- Additions/Approval of Agenda
- Motions/Approval of June 8, 2016 Meeting Minutes
- Status of Recommendations with DOE
- Committee Reports
- Alternate DDFO Report
- Adjourn

**Public Participation:** The EM SSAB, Oak Ridge, welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Melyssa P. Noe at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda item should contact Melyssa P. Noe at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

**Minutes:** Minutes will be available by writing or calling Melyssa P. Noe at the address and phone number listed above. Minutes will also be available at the following Web site: [www.energy.gov/orssab](http://www.energy.gov/orssab).

Issued at Washington, DC, on August 12, 2016.

**LaTanya R. Butler,**

*Deputy Committee Management Officer.*
