**SUPPLEMENTARY INFORMATION:**

**I. General Information**

* A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

* B. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 4 CFR part 2.

2. Tips for preparing your comments. When preparing and submitting your comments, see the commenting tips at [http://www.epa.gov/dockets/comments.html](http://www.epa.gov/dockets/comments.html).

**II. Registration Applications**

EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.

1. **EPA Registration Numbers:** 264–1049, 264–1050, 264–1051, 264–1065. **Docket ID Number:** EPA–HQ–OPP–2016–0255. ** Applicant:** Bayer CropScience, P.O. Box 12014, Research Triangle Park, North Carolina 27709. **Active ingredient:** Spirotetramat. **Product type:** Insecticide. **Proposed use:** Carrot. **Contact:** RD.

2. **EPA Registration Numbers:** 264–1049, 264–1050, 264–1051, 264–1065. **Docket ID Number:** EPA–HQ–OPP–2016–0255. ** Applicant:** Bayer CropScience, P.O. ### ENVIRONMENTAL PROTECTION AGENCY

**[FRL–9950–23–Region 4]**

**Notice of Draft National Pollutant Discharge Elimination System (NPDES) General Permit for the Eastern Portion of the Outer Continental Shelf (OCS) of the Gulf of Mexico (GEG460000): Availability of Draft Environmental Assessment**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of Proposed Reissuance of NPDES General Permit, Notice to States of Mississippi, Alabama and Florida for Consistency Review with approved Coastal Management Programs.

**SUMMARY:** The Regional Administrator of EPA Region 4 (the “Region”) is today proposing to reissue the National...
Pollutant Discharge Elimination System (NPDES) general permit for the Outer Continental Shelf (OCS) of the Gulf of Mexico (General Permit No. GEG460000) for discharges in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category. The draft permit pertains to discharges from exploration, development, and production facilities located in and discharging, to all Federal waters of the eastern portion of the Gulf of Mexico seaward of the outer boundary of the territorial seas, and covers existing and new source facilities with operations located on Federal leases occurring in water depths seaward of 200 meters, occurring offshore the coasts of Alabama and Florida. The western boundary of the coverage area is demarcated by and Volisa Knoll lease blocks located seaward of the outer boundary of the territorial seas from the coasts of Mississippi and Alabama. Individual permits will be issued for operating facilities on lease blocks traversed by and shoreward of the 200 meter water depth.

As proposed, this Draft NPDES general permit includes, best conventional pollutant control technology (BCT), and best available technology economically achievable (BAT) limitations for existing sources and new source performance standards (NSPS) limitations for new sources as promulgated in the effluent guidelines for the offshore subcategory. The draft permit also includes the following changes to the expired permit: (1) New electronic reporting requirements; (2) new well effluent toxicity testing sampling and reporting requirements for well treatment, completion, and workover fluids not discharged with produced wastewaters; (3) requirements to submit additional information pertaining to the chemicals and additives used in well treatment, completion and workover operations; and (4) clarification regarding types of operators. Region 4 is also making available a Draft Environmental Assessment (EA) for review during the 30 day public comment period for this general permit. The Draft EA addresses potential impacts from proposed changes to the general permit, and it considers recent technical studies.

DATES: Comments must be received by September 17, 2016.

ADDRESSES: The Draft NPDES general permit, permit fact sheet, Draft EA and other relevant documents may be obtained by writing the U.S. EPA-Region 4, Water Protection Division (WPD), NPDES Section, Sam Nunn Atlanta Federal Center, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960, Attention: Ms. Bridget Staples, or by calling (404) 562–9783. Alternatively, copies of the Draft NPDES general permit, fact sheet, Draft EA, Essential Fish Habitat Determination and preliminary Ocean Discharge Criteria Evaluation may be downloaded at: http://www.epa.gov/aboutepa/about-epa-region-4-southeast. Submit comments to the WPD, U.S. EPA-Region 4, NPDES Permitting Section, Sam Nunn Atlanta Federal Center, 61 Forsyth Street SW., Atlanta, GA 30303–8960, Attention: Ms. Bridget Staples.

FOR FURTHER INFORMATION CONTACT: Ms. Bridget Staples, EPA Region 4, WPD, NPDES Section, by mail at the Atlanta address given above, by telephone at (404) 562–9783 or by email at Staples.Bridget@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Procedures for Reaching a Final Permit Decision

Pursuant to 40 CFR 124.13, any person who believes any condition of the permit is inappropriate must raise all reasonably ascertainable issues and submit all reasonably available arguments in full, supporting their position, by the close of the comment period. All comments on the Draft NPDES general permit and the Draft EA received within the 30-day comment period will be considered in the formulation of final determination regarding the National Environmental Policy Act (NEPA) review and the permit reissuance. After consideration of all written comments and the requirements and policies in the CWA and appropriate regulations, the EPA Regional Administrator will make a determination regarding the Final EA, Finding of No Significant Impact, and permit reissuance. If the determination results in a permit that is substantially unchanged from the draft permit announced by this notice, the Regional Administrator will so notify all persons submitting written comments. If the determination results in a permit that is substantially changed, the Regional Administrator will issue a public notice indicating the revised determination.

A formal hearing is available to challenge any NPDES permit issued according to the regulations at 40 CFR 124.15 and 124.19, except for a general permit, as provided at 40 CFR 124.19(o). Persons affected by a general permit may not challenge the conditions of a general permit as a right in further Agency proceedings. They may instead either challenge the general permit in court, or apply for an individual permit as authorized at 40 CFR 122.28, in accordance with the application requirements set forth at 40 CFR 122.21, and then request a formal hearing on the issuance or denial of an individual permit. Additional information regarding these procedures is available by contacting Mr. Paul Schwartz, Associate Regional Counsel, Office of Regional Counsel, at (404) 542–9576.

II. Procedures for Obtaining General Permit Coverage

Notice of Intent requirements for obtaining coverage for operating facilities are stated in Part I Section A.4 of the general permit. Coverage under the reissued general permit is effective upon receipt of notification of coverage with an assignment of an NPDES general permit number from the EPA-Region 4, Director of the Water Protection Division. EPA will act on the Notice of Intent (NOI) within a reasonable period of time.

III. Exclusion of Non-Operational Leases

This permit does not apply to non-operational leases, i.e., those on which no discharge has taken place in the two (2) years prior to the effective date of the reissued general permit. EPA will not initially accept NOIs for such leases, and the general permit will not cover such leases, except as set forth below. Non-operational leases will lose coverage under the previous general permit on the effective date of the reissued general permit. No subsequent exploration, development or production activities may take place on these leases until and unless the lessee has obtained coverage under the new general permit or an individual permit. EPA will not accept an NOI or individual permit application for non-operational or new acquired leases until such time as an Exploration Plan Document or an Exploration Operations Coordination Document has been prepared and submitted to Bureau of Energy Management.

IV. State Water Quality Certification

Because state waters are not included in the area covered by the OCS general permit, its effluent limitations and monitoring requirements are not subject to state water quality certification under CWA Section 401. However, the states of Alabama, Florida and Mississippi have been provided a copy of this draft
general permit. Draft EA to review and submit comments. Copies of these documents have also been provided to EPA Headquarters for their review.

V. State Consistency Determination

This Notice will also serve as Region 4’s requirement under the Coastal Zone Management Act (CZMA) to provide all necessary information for the States of Mississippi, Alabama and Florida to review this action for consistency with their approved Coastal Zone Management Programs. A copy of the consistency determination on the proposed activities is being sent to each affected State, along with a letter including this FR notice, which provides the EPA Web site where electronic copies can be obtained of the Draft NPDES general permit, permit fact sheet, preliminary Ocean Discharge Criteria Evaluation, and Draft EA. Other relevant information for their review is available upon request from each State. Comments regarding State Consistency are invited in writing within 30 days of this notice to the WPD, U.S. EPA-Region 4, NPDES Section, Sam Nunn Atlanta Federal Center, 61 Forsyth Street SW., Atlanta, GA 30303–8960, Attention: Ms. Bridget Staples.

VI. Public Comment Period and Public Hearings

The public comment period for the Draft NPDES permit, Draft EA will begin on the date of publication of this notice in the Federal Register and end 30 calendar days later.

VII. Administrative Record

The Draft NPDES general permit, permit fact sheet, Draft EA and other relevant documents are on file and may be inspected any time between 8:15 a.m. and 4:30 p.m., Monday through Friday at the address shown below. Copies of the Draft NPDES general permit, permit fact sheet, Draft EA and other relevant documents may be obtained by writing the U.S. EPA-Region 4, WPD, NPDES Permitting Section, Sam Nunn Atlanta Federal Center, 61 Forsyth Street SW., Atlanta, GA 30303–8960, Attention: Ms. Bridget Staples, or by calling (404) 562–9783. Alternatively, copies of the Draft NPDES general permit, permit fact sheet, Draft EA, Essential Fish Habitat Determination and preliminary Ocean Discharge Criteria Evaluation may be downloaded at: http://www.epa.gov/aboutepa/about-epa-region-4-southeast.

VIII. Executive Order 12866

Under Executive Order 12866 (58 FR 51735 (October 4, 1993)) the Agency must determine whether the regulatory action is “significant” and therefore subject to Office of Management and Budget (OMB) review and the requirements of the Executive Order. The Order defines “significant regulatory action” as one that is likely to result in a rule that may: (1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health, or safety, or State, local, or Tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles set forth in the Executive Order. OMB has exempted review of NPDES general permits under the terms of Executive Order 12866.

IX. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rule making requirements under the Administrative Procedures Act (APA) or any other statute, unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

Issuance of an NPDES general permit is not subject to rule making requirements, including the requirement for a general notice of proposed rule making, under APA Section 533 or any other law, and is thus not subject to the RFA requirements.

The APA defines two broad, mutually exclusive categories of agency action—“rules” and “orders.” APA Section 551(4) defines rules as “an agency statement of general or particular applicability and future effect designed to implement, interpret or prescribe law or policy or describing the organization, procedure, or practice or requirements of an agency . . . .” APA Section 551(6) defines orders as “a final disposition . . . . of an agency in a matter other than rule making but including licensing.” APA Section 551(8) defines “license” to “include . . . . an agency permit . . . .” The APA thus categorizes a permit as an order, which by the APA’s definition is not a rule. Section 553 of the APA establishes “permit making” requirements. APA Section 551(5) defines “rule making” as “the agency process for formulating, amending, or repealing a rule.” By its terms, Section 553 applies only to rules and not to orders, exempting by definition permits.

X. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104–4, establishes requirements for Federal agencies to assess the effects of their “regulatory actions” to refer to regulations. (See, e.g., UMRA Section 401. “Each agency shall . . . assess the effects of Federal regulatory actions . . . (other than to the extent that such regulations incorporate requirements specifically set forth in law).”) UMRA Section 102 defines “regulation” by reference to 2 U.S.C. 658 which in turn defines “regulation” and “rule” by reference to Section 601(2) of the RFA. That section of the RFA defines “rule” as “any rule for which the agency publishes a notice of proposed rule making pursuant to Section 553(b) of the APA, or any other law . . . .” As discussed in the RFA section of this notice, NPDES general permits are not “rules” by definition under the APA and thus not subject to the APA requirement to publish a notice of proposed rule making. NPDES general permits are also not subject to such a requirement under the CWA. While EPA publishes a notice to solicit public comment on draft general permits, it does so pursuant to the CWA Section 402(a) requirement to provide an opportunity for a hearing. Therefore, NPDES general permits are not “rules” for RFA or UMRA purposes.

XI. Paperwork Reduction Act

The information collection required by this permit has been approved by OMB under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 et seq., in submission made for the NPDES permit program and assigned OMB control numbers 2040–0086 (NPDES permit application) and 2040–0004 [(NPDES Discharge Monitoring Reports (DMRs)].

Because this permit is very similar in reporting and application requirements and in discharges which are required to be monitored as the previous Eastern Gulf of Mexico OCS general permit (GEG460000), the paperwork burdens are expected to be nearly identical. When it issued the previous OCS general permit, EPA estimated it would take an affected facility three hours to prepare the request for coverage and DMRs. It is estimated that the time required to prepare the request for coverage and DMRs for the reissued permit will be approximately the same.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0936]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 19, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESS: Direct all PRA comments to Cathy Williams, FCC, via email: Cathy.Williams@fcc.gov and to James D. Giattina, Director, Water Protection Division, via email: Nicholas_A_Fraser@omb.eop.gov.

FCC and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the SUPPLEMENTARY INFORMATION section below.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0936.
Title: Sections 95.1215, 95.1217, 95.1223 and 95.1225, Medical Device Radiocommunication Services (MedRadio).
Form No.: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit and not-for-profit institutions.
Number of Respondents: 3,120 respondents.
Estimated Time per Response: 1–3 hours.
Frequency of Response: On occasion reporting requirement, third party disclosure requirement and recordkeeping requirement.
Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151 and 303 of the Communications Act of 1934, as amended.
Total Annual Burden: 9,120 hours.
Total Annual Cost: No cost.
Privacy Act Impact Assessment: No impact(s).
Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.
Needs and Uses: The Federal Communications Commission is requesting that the Office of Management and Budget (OMB) approve for a period of three years an extension for the information collection requirements contained in this collection.

The information collection requirements that are approved under this information collection are contained in 47 CFR 95.1225(b) and (c), 95.1217(a)(3) and (c), 95.1223 and 95.1225 which relate to the Medical Device Radiocommunication Service (MedRadio).

The information is necessary to allow the coordinator and parties using the database to contact other users to verify information and resolve potential conflicts. Each user is responsible for determining in advance whether new devices are likely to cause or be susceptible to interference from devices already registered in the coordination database.

Secretary, Office of the Secretary.

SUMMARY: In this document, the International Bureau of the Federal Communications Commission (Commission) declares the international Section 214 authorization granted to JuBe Communications, LLC (JuBe) terminated given JuBe’s inability to comply with the express condition for holding the authorization. It also concludes that JuBe failed to comply with those requirements of the Communications Act of 1934, as amended (the Act) and the Commission’s rules that ensure that the Commission can contact and communicate with the authorization holder and verify JuBe is still providing service, which failures have prevented any way of addressing JuBe’s inability to comply with the condition of its authorization.

FOR FURTHER INFORMATION CONTACT: Cara Grayer, Telecommunications and Analysis Division, International Bureau at (202) 418–2960 or Cara.Grayer@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s Order, DA 16–720, adopted and released July 1, 2016.

Background

Section 214(a) of the Act prohibits any carrier from constructing, extending, acquiring, or operating any line, and from engaging in transmission through any such line, without first obtaining a certificate of authorization from the Commission. Under Section 214(c) of the Act, the Commission “may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require.” On July 27, 2007, the International Bureau granted JuBe an international Section 214 authorization to provide global or limited global facility-based service and global or limited global resale service in
