

accordance with Section 63.18(e)(1) and 63.18(e)(2) of the Commission's rules. The International Bureau granted the application on the express condition that JuBe abide by the commitments and undertakings contained in its Letter of Assurance (LOA) to the Department of Justice (DOJ), the Federal Bureau of Investigation, and the U.S. Department of Homeland Security (collectively, the Executive Branch Agencies) dated July 12, 2007. The LOA outlines a number of commitments made by JuBe to address national security, law enforcement, and public safety concerns.

On December 23, 2015, the Executive Branch Agencies notified the Commission of JuBe's non-compliance with the conditions of its authorization and requested that the Commission terminate, and declare null and void and no longer in effect, the international Section 214 authorization issued to JuBe. The Executive Branch Agencies believe that JuBe is no longer in existence. Specifically, according to the Texas state corporate Web site, JuBe voluntarily dissolved as a corporate entity and became inactive on October 14, 2010. Further, on October 19, 2015, Mr. Thomas Lynch, JuBe's designated point of contact during the application process, advised the Executive Branch Agencies that he had been unable to reach JuBe after multiple attempts through all his contacts except U.S. postal service. He noted that he presumed JuBe to be out of business. Based on this, the Executive Branch Agencies state that "JuBe is neither providing services pursuant to authorization file number ITC-214-20070607-00218 nor still in existence."

The Commission has made significant efforts to communicate with JuBe, but has also been unable to do so. On January 19, 2016, the International Bureau sent JuBe a letter to the last addresses of record requesting that JuBe respond to the December 23, 2015 Executive Branch letter within 30 days of the letter, by February 18, 2016. JuBe did not respond. Since that time, the International Bureau has provided JuBe with additional opportunities to respond to these allegations. The International Bureau stated that failure to respond would result in termination of JuBe's international Section 214 authorization for failure to comply with conditions of its authorization. In JuBe's 2007 application, JuBe stated it was incorporated in Texas, and according to the Texas Secretary of State Web site, no records exist for JuBe Communications, LLC. To date, JuBe has not responded to any of the International Bureau or the Executive Branch Agencies' multiple requests to resolve this matter.

## Discussion

We determine that JuBe's international Section 214 authorization to provide international services issued under File No. ITC-214-20070607-00218 has terminated for inability to comply with an express condition for holding the international Section 214 authorization. The International Bureau has provided JuBe with notice and opportunity to respond to the allegations in the December 23, 2015 Executive Branch letter concerning JuBe's non-compliance with the condition of the grant. JuBe has not responded to any of our multiple requests or requests from the Executive Branch Agencies. We find that JuBe's failure to respond to our multiple requests demonstrates that it is unable to satisfy the LOA conditions, upon which the Executive Branch Agencies gave their non-objection to the grant of the authorization to JuBe, and which are a condition of the grant of its international Section 214 authorization.

Furthermore, after having received an international Section 214 authorization, a carrier "is responsible for the continuing accuracy of the certifications made in its application" and must promptly correct information no longer accurate, "and in any event, within thirty (30) days." JuBe has failed to inform the Commission of any changes in its business status of providing international telecommunications services, as required by the rules. In addition, there is no indication that JuBe is currently providing service pursuant to its international Section 214 authorization. If JuBe has discontinued service, it is also in violation of the Commission's rules requiring prior notification for such a discontinuance. Nor is there any record of JuBe having complied with Section 413 of the Act and the Commission's rules requiring it to designate an agent for service after receiving its authorization on July 27, 2007. Finally, as part of its authorization, JuBe "must file annual international telecommunications traffic and revenue as required by § 43.62." Section 43.62(b) of the Commission's rule states that "[n]ot later than July 31 of each year, each person or entity that holds an authorization pursuant to section 214 to provide international telecommunications service shall report whether it provided international telecommunications services during the preceding calendar year." Commission records indicate that JuBe failed to file an annual international telecommunications traffic and revenue report indicating whether or not JuBe provided services in 2015, as required

by Section 43.62(b). In these circumstances, and in light of JuBe's failure to respond to the Commission's rules designed to ensure its ability to communicate with the holder of the authorization, termination also is warranted wholly apart from demonstrating JuBe's inability to satisfy the LOA conditions of its authorization.

*Needs and Uses:* The Federal Communications Commission seeks emergency processing under the Paperwork Reduction Act (PRA), 5 CFR 1320.13. The Commission is requesting OMB approval for this revised information collection. In November 2011, the Commission adopted an order reforming its high-cost universal service support mechanisms. Connect America Fund; A National Broadband Plan for Our Future; Establish Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing a Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform—Mobility Fund, WC Docket Nos. 10-90, 07-135, 05-337, 03-109; GN Docket No. 09-51; CC Docket Nos. 01-92, 96-45; WT Docket No. 10-208, Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*); and the Commission and Wireline Competition Bureau have since adopted a number of orders that implement the *USF/ICC Transformation Order*; see also Connect America Fund et al., WC Docket No. 10-90 et al., Third Order on Reconsideration, 27 FCC Rcd 5622 (2012); Connect America Fund et al., WC Docket No. 10-90 et al., Order,

Bur. 2013); Connect America Fund, WC Docket No. 10-90, Report and Order, 28 FCC Rcd 10488 (Wireline Comp. Bur. 2013); Connect America Fund et al., WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, 29 FCC Rcd 8769 (2014); Connect America Fund et al., WC Docket No. 10-90 et al., Report and Order, 29 FCC Rcd 15644 (2014); Modernizing the E-rate Program for Schools and Libraries et al., WC Docket No. 13-184 et al., Second Report and Order and Order on Reconsideration, 29 FCC Rcd 15538 (2014). The Commission has received OMB approval for most of the information collections required by these orders. At a later date the Commission plans to submit additional revisions for OMB review to address other reforms adopted in the orders (e.g., 47 CFR 54.313(a)(11)).

In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order, Order and Order on Reconsideration and Further Notice of Proposed Rulemaking, 31 FCC Rcd 3087 (2016). The *Rate-of-Return Reform Order* replaces the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF-BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops.

Here, we propose to revise this information collection, specifically FCC Form 507, FCC Form 508, and FCC Form 509, to include additional line count, forecasted cost and revenue, and actual cost and revenue data associated with consumer broadband-only loops necessary for the calculation of CAF-BLS. This revision is a narrow expansion of similar information related to common line loops, costs, and

revenues collected pursuant to the existing approval.
