ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R03–OAR–2015–0642; FRL–9950–90–Region 3]

Approval and Promulgation of Air Quality Implementation Plans; Virginia; Minor New Source Review Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to approve the state implementation plan (SIP) revision submitted by the Commonwealth of Virginia on July 15, 2013 pertaining to preconstruction permitting requirements under Virginia’s minor New Source Review (NSR) program. In the Rules and Regulations section of this **Federal Register**, EPA is approving the State’s SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. Additionally, a more detailed description of the state submittal and EPA’s evaluation is included in a technical support document (TSD) prepared in support of this rulemaking action. A copy of the TSD is available, upon request, from the EPA Regional Office listed in the **ADDRESSES** section of this document or is also available

electronically within the Docket for this rulemaking action at www.regulations.gov. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by September 21, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R03–OAR–2015–0642 at <http://www.regulations.gov>, or via email to campbell.dave@epa.gov. For comments submitted at [Regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from

Regulations.gov. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: David Talley, (215) 814-2117, or by email at talley.david@epa.gov.

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final action, with the same title, that is located in the Rules and Regulations section of this **Federal Register** publication.

Dated: August 9, 2016.

Shawn M. Garvin,

Regional Administrator, Region III.

Air Plan Approval; New Hampshire; Rules for Reducing Particulate Emissions

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve State Implementation Plan (SIP) revisions submitted by the State of New Hampshire on March 31, 2011 and on July 23, 2013. These SIP revisions establish particulate matter (PM) and visible emissions (VE) standards for the following sources: foundries, smelters,

and investment casting operations; hot mix asphalt plants; and sand and gravel sources, non-metallic mineral processing plants, and cement and concrete sources. In addition, EPA is proposing to approve a part of a SIP revision submitted by New Hampshire on March 12, 2003 that establishes procedures for testing opacity of emissions (*i.e.*, VE). This action is being taken under the Clean Air Act.

DATES: Written comments must be received on or before September 21, 2016.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R01-OAR-2016-0285 at <http://www.regulations.gov>, or via email to Arnold.Anne@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. For either manner of submission, the EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Alison C. Simcox, Air Quality Planning Unit, Air Programs Branch (Mail Code OEP05-02), U.S. Environmental Protection Agency, Region 1, 5 Post Office Square, Suite 100, Boston, Massachusetts 02109-3912; (617) 918-1684; simcox.alison@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

Organization of this document. The following outline is provided to aid in locating information in this preamble.

- I. Background and Purpose
- II. EPA’s Evaluation of New Hampshire’s SIP Revisions

III. Proposed Action

IV. Incorporation by Reference

V. Statutory and Executive Order Reviews

I. Background and Purpose

On March 31, 2011, New Hampshire Department of Environmental Services (NH DES) submitted a State Implementation Plan (SIP) revision, which included a regulation entitled “Sand and Gravel Sources; Non-Metallic Mineral Processing Plants; Cement and Concrete Sources” (New Hampshire Code of Administrative Rules Chapter (Env-A 2800)).

On July 23, 2013, NH DES submitted SIP revisions which included the following three regulations: “Particulate Matter and Visible Emissions Standards” (Env-A 2100); “Ferrous and Non-Ferrous Foundries, Smelters, and Investment Casting Operations” (Env-A 2400); and “Hot Mix Asphalt Plants” (Env-A 2700).

The four submitted regulations (Env-A 2100, 2400, 2700, and 2800) state that opacity shall be determined in accordance with test methods established in Env-A 807. On March 12, 2003, the NH DES submitted Env-A 800, “Testing and Monitoring Procedures,” which included Part Env-A 807. On November 5, 2012, EPA approved Env-A 800 as submitted in March 2003 and revised on July 9, 2007. Although the March 2003 submittal included Env-A 807, the July 2007 submittal did not. The November 2012 approval did not take action with regard to Env-A 807. See 77 FR 66388. Therefore, Env-A 807 submitted on March 12, 2003 is still pending before EPA.

Two of the submitted regulations (Env-A 2100 and 2400) included affirmative defense provisions for malfunction, which is defined as a sudden and unavoidable breakdown of process or control equipment. The New Hampshire regulations were submitted to EPA after EPA issued a start-up, shut-down, and malfunction (SSM) SIP Call proposal in February 2013 (78 FR 12460), which would have allowed narrowly drawn affirmative defense provisions in SIPs for malfunction. However, following issuance of our SIP Call proposal, a federal court ruled that the Clean Air Act precludes authority of the EPA to create affirmative defense provisions. EPA, therefore, believes that it cannot approve affirmative defense provisions in SIP submissions, even narrowly tailored ones for periods of malfunction (*See NRDC v EPA*, 749 F.3d 1055 (D.C. Circuit 2014)). As a result of the court decision, we issued a supplemental notice of proposed rulemaking (SNPR) on September 17, 2014 (79 FR 55920) that rescinded our
