

SUPPLEMENTARY INFORMATION:**Species Covered in This Notice**

The following listed species are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): threatened Central Valley spring-run (CVSR); endangered Sacramento River winter-run (SRWR).

Steelhead (*O. mykiss*): threatened California Central Valley (CCV).

North American green sturgeon (*Acipenser medirostris*): threatened southern distinct population segment (SDPS).

Authority

Scientific research and enhancement permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR parts 222–227). NMFS issues permits based on findings that such permits: (1) Are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of Section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Permits Issued*Permit 14808–2M*

A notice of the receipt of an application for the modification of scientific research and enhancement Permit 14808 was published in the **Federal Register** on August 20, 2015 (80 FR 161). Permit 14808–2M was issued to CDFW on December 9, 2015 and expires on December 31, 2020. Permit 14808–2M authorizes take of CVSR Chinook salmon, SRWR Chinook salmon, CCV steelhead, and SDPS green sturgeon associated with scientific research and monitoring activities in Sacramento River and San Joaquin River basins. The permit modification was requested in order to refine sampling methods, increase take levels and address changes to the proposed procedures. Additionally, CDFW requested that all ongoing research and monitoring be consolidated into a single section 10(a)(1)(A) Permit to improve efficiencies associated with reporting. In addition to the juvenile emigration

monitoring at Knights Landing, which aims to compile information on timing, composition (species/run), and relative abundance of juvenile Chinook salmon and steelhead emigrating from the Upper Sacramento River system into the Sacramento-San Joaquin Delta, CDFW requested that the following research and monitoring efforts be included under Permit 14808–2M: (1) The Central Valley Steelhead Monitoring Program, that includes studies targeting CCV steelhead throughout the Sacramento River and San Joaquin River basins in order to examine the distribution, abundance, and population trends of CCV steelhead and provide the data necessary to help assess progress towards restoration and recovery goals; and (2) the Upper Sacramento River Restoration Site Monitoring, which will establish baseline use at proposed restoration sites to help determine the success once restoration projects are implemented through juvenile presence/absence surveys at various sites within the Upper Sacramento River.

Permit 18181–2M

A notice of the receipt of an application for the modification of enhancement Permit 18181 was published in the **Federal Register** on August 20, 2015 (80 FR 161). Permit 18181–2M was issued to CDFW on December 9, 2015 and expires on December 31, 2020. Permit 18181–2M authorizes take of CVSR Chinook salmon, SRWR Chinook salmon, CCV steelhead, and SDPS green sturgeon associated with enhancement activities in the Upper Sacramento River and associated tributaries in Shasta and Tehama counties, the Colusa Basin Drainage Canal (CBDC), Wallace and Fremont weirs in the Yolo Bypass, and Tisdale Weir in the Sutter Bypass. Permit 18181–2M includes additional rescue and monitoring efforts that routinely occur throughout California's Central Valley. Further, after conducting capture and relocation activities within the CBDC and at Wallace Weir, the project description, sampling methodologies and take estimates have been refined to better reflect the current rescue and enhancement operations. The primary purpose of this monitoring is to assess entrainment of ESA-listed salmonids and SDPS green sturgeon resulting from extreme environmental conditions and complex water operations within California's Central Valley. CDFW will assess the conditions leading to entrainment and determine whether rescue and relocation activities are warranted. The rescue and relocation efforts authorized under

Permit 18181–2M are: (1) The CBDC Trapping and Relocation Operation, which aims to trap and relocate adult Chinook salmon and other species of management concern before they enter and become entrained within the CBDC; (2) Monitoring of Sacramento River Flood Control Project Weirs and Flood Relief Structures, where bypasses are surveyed after high flow events to determine the level of entrainment and if warranted rescues will be conducted, with a specific focus on Tisdale and Fremont weirs in the Sacramento River basin; and (3) Upper Sacramento River Redd Dewatering Surveys and Rescue of Stranded Juvenile Winter-run Chinook Salmon, which allows CDFW biologists to predict the flow at which redds will be dewatered on a redd-by-redd basis and conduct rescues if necessary.

Dated: August 15, 2016.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Proposed Information Collection; Comment Request; Licensing of Private Remote-Sensing Space Systems**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before October 21, 2016.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Tahara Dawkins,

tahara.dawkins@noaa.gov or (301) 713-3385.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a current information collection.

NOAA has established requirements for the licensing of private operators of remote-sensing space systems. The information in applications and subsequent reports is needed to ensure compliance with the Land Remote-Sensing Policy Act of 1992 and with the national security and international obligations of the United States. The requirements are contained in 15 CFR part 960.

II. Method of Collection

Information is submitted via email.

III. Data

OMB Control Number: 0648-0174.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 18.

Estimated Time per Response: 40 hours for the submission of a license application; 10 hours for the submission of a data protection plan; 5 hours for the submission of a plan describing how the licensee will comply with data collection restrictions; 3 hours for the submission of an operations plan for restricting collection or dissemination of imagery of Israeli territory; 3 hours for submission of a data flow diagram; 2 hours for the submission of satellite sub-systems drawings; 3 hours for the submission of a final imaging system specifications document; 2 hours for the submission of a public summary for a licensed system; 2 hours for the submission of a preliminary design review; 2 hours for the submission of a critical design review; 1 hour for notification of a binding launch services contract; 1 hour for notification of completion of pre-ship review; 10 hours for the submission of a license amendment; 2 hours for the submission of a foreign agreement notification; 2 hours for the submission of spacecraft operational information submitted when a spacecraft becomes operational; 2 hours for notification of deviation in orbit or spacecraft disposition; 2 hours for notification of any operational deviation; 2 hours for notification of planned purges of information to the National Satellite Land Remote Sensing Data Archive; 3 hours for the submission of an operational quarterly

report; 8 hours for an annual compliance audit; 10 hours for an annual operational audit; and 2 hours for notification of the demise of a system or a decision to discontinue system operations.

Estimated Total Annual Burden Hours: 552.

Estimated Total Annual Cost to Public: \$1,000 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 17, 2016.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-HR-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management will hold a public meeting to solicit comments on the performance evaluation of the Guam Coastal Management Program.

DATES: *Guam Coastal Management Program Evaluation*: The public meeting will be held on September 28, 2016, and written comments must be received on or before October 5, 2016.

For specific dates, times, and locations of the public meetings, see SUPPLEMENTARY INFORMATION.

ADDRESSES: You may submit comments on the program or reserve NOAA intends to evaluate by any of the following methods:

Public Meeting and Oral Comments:

A public meeting will be held in Sinajana, Guam. For the specific location, see SUPPLEMENTARY INFORMATION.

Written Comments: Please direct written comments to Ralph Cantral, Senior Advisor, Policy, Planning, and Communications Division, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or email comments Ralph.Cantral@noaa.gov.

FOR FURTHER INFORMATION CONTACT:

Ralph Cantral, Senior Advisor, Policy, Planning and Communications Division, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or Ralph.Cantral@noaa.gov. Copies of the previous evaluation findings and related material (including past performance reports and notices prepared by NOAA's Office for Coastal Management) may be obtained upon written request by contacting the person identified under FOR FURTHER INFORMATION CONTACT. Copies of the most recent evaluation findings and most recent progress report may also be downloaded or viewed on the Internet at <http://coast.noaa.gov/czm/evaluations>.

SUPPLEMENTARY INFORMATION: Section 312 of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved state and territorial coastal programs. The process includes one or more public meetings, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. During the evaluation, NOAA will consider the extent to which the state has met the national objectives, adhered to the management program approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the CZMA. When the evaluation is completed, NOAA's Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

Specific information on the periodic evaluation of the state and territorial coastal program that is the subject of this notice is detailed below as follows:
