

technological collection techniques or other forms of information technology.

Proposed Collection: Title: A National Survey of Nurse Coaches, 0925—NEW, National Institutes of Health Clinical Center (CC), National Institutes of Health (NIH).

Need and Use of Information

Collection: The purpose of this survey is to describe the role of Certified Nurse Coaches in order to gain insight into their clinical practice including: The settings in which they work, the types

of clients/health conditions they see, the types of client records maintained and outcomes followed, as well as the personal benefits experienced by nurse coaches as a result of becoming a nurse coach. It provides information regarding two areas of interest to the CC Department of Nursing Research and Translational Science: The collection of patient-reported outcomes in novel clinical practice areas and the physical and psychosocial benefits of an intervention in nurses, a professional

caregiver population. This study will provide preliminary data and guidance in: 1. Developing recommendations for collecting outcomes to longitudinally assess the effectiveness nurse coaching, and 2. developing an intervention to improve patient care targeting the nursing staff at the NIH Clinical Center.

OMB approval is requested for 1 year. There are no costs to respondents other than their time. The total estimated annualized burden hours are 104.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Number of respondents	Number of responses per respondent	Average time per response (in hours)	Total annual burden hour
Certified nurse coaches	250	1	25/60	104
Total	250	250	104

Dated: August 15, 2016.

Laura M. Lee,

Project Clearance Liaison, NIH Clinical Center, National Institutes of Health.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the

Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Pretesting of Substance Abuse Prevention and Treatment and Mental Health Services Communication Messages—(OMB No. 0930-0196)—Extension

As the Federal agency responsible for developing and disseminating authoritative knowledge about substance abuse prevention, addiction treatment, and mental health services and for mobilizing consumer support and increasing public understanding to overcome the stigma attached to addiction and mental illness, the Substance Abuse and Mental Health Services Administration (SAMHSA) is responsible for development and

dissemination of a wide range of education and information materials for both the general public and the professional communities. This submission is for generic approval and will provide for formative and qualitative evaluation activities to (1) assess audience knowledge, attitudes, behavior and other characteristics for the planning and development of messages, communication strategies and public information programs; and (2) test these messages, strategies and program components in developmental form to assess audience comprehension, reactions and perceptions. Information obtained from testing can then be used to improve materials and strategies while revisions are still affordable and possible. The annual burden associated with these activities is summarized below.

Activity	Number of respondents	Responses/ respondent	Hours per response	Total hours
Individual In-depth Interviews:				
General Public	400	1	.75	300
Service Providers	200	1	.75	150
Focus Group Interviews:				
General Public	3,000	1	1.5	4,500
Service Providers	1,500	1	1.5	2,250
Telephone Interviews:				
General Public	335	1	.08	27
Service Providers	165	1	.08	13
Self-Administered Questionnaires:				
General Public	2,680	1	.25	670
Service Providers	1,320	1	.25	330
Gatekeeper Reviews:				
General Public	1,200	1	.50	600
Service Providers	900	1	.50	450
Total	11,700			9,290

Written comments and recommendations concerning the proposed information collection should be sent by September 21, 2016 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: *OIRA_Submission@omb.eop.gov*. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Summer King,
Statistician.

Project: Addiction Technology Transfer Centers (ATTC) Network Program Monitoring (OMB No. 0930-0216)—Extension

The Substance Abuse and Mental Health Administration's (SAMHSA) Center for Substance Abuse Treatment (CSAT) will continue to monitor program performance of its Addiction Technology Transfer Centers (ATTCs). The ATTCs disseminate current health services research from the National Institute on Drug Abuse, National Institute on Alcohol Abuse and Alcoholism, National Institute of Mental Health, Agency for Health Care Policy and Research, National Institute of Justice, and other sources, as well as other SAMHSA programs. To accomplish this, the ATTCs develop

and update state-of-the-art, research-based curricula and professional development training.

CSAT monitors the performance of ATTC events. The ATTCs hold three types of events: Technical assistance events, meetings, and trainings. An ATTC technical assistance event is defined as a jointly planned consultation generally involving a series of contacts between the ATTC and an outside organization/institution during which the ATTC provides expertise and gives direction toward resolving a problem or improving conditions. An ATTC meeting is defined as an ATTC sponsored or co-sponsored event in which a group of people representing one or more agencies other than the ATTC work cooperatively on a project, problem, and/or a policy. An ATTC training is defined as an ATTC sponsored or co-sponsored event of at least three hours that focuses on the enhancement of knowledge and/or skills. Higher education classes are included in this definition with each course considered as one training event.

CSAT currently uses seven (7) instruments to monitor the performance and improve the quality of ATTC events. Two (2) of these forms, the Meeting Follow-up Form and the Technical Assistance Follow-up Form, are currently approved by the Office of Management and Budget (OMB) through approval for CSAT Government Performance and Results Act (GPRA) Customer Satisfaction instruments (OMB No. 0930-0197). CSAT is not seeking any action related to these two forms at this time. They are merely referenced here to provide clarity and context to the description of the forms CSAT uses to monitor the performance of the ATTCs.

The remaining five (5) instruments for program monitoring and quality improvement of ATTC events are currently approved by the OMB (OMB No. 0930-0216) for use through April 30, 2013. These five forms are as follows: Event Description Form; Training Post Event Form; Training Follow-up Form; Meeting Post Event Form; and Technical Assistance Post Event Form. Sixty percent of the forms are administered in person to participants at educational and training events, who complete the forms by paper and pencil. Ten percent of the training courses are online, and thus, those forms are administered online. The remaining thirty percent is made up of 30-day follow-up forms that are distributed to consenting participants via electronic mail using an online survey tool. At this time, CSAT is requesting approval to extend the use of

these five forms as is, with no revisions. A description of each of these forms follows.

(1) Event Description Form (EDF). The EDF collects descriptive information about each of the events of the ATTC Network. This instrument asks approximately 10 questions of ATTC faculty/staff relating to the event focus and format, as well as publications to be used during the event. It allows the ATTC Network and CSAT to track the number and types of events held. There are no revisions to the form. CSAT is proposing to continue to use the form as is.

(2) Training Post Event Form. This form is distributed to training participants at the end of the training activity, and collected from them before they leave. For training events which take place over an extended period of time, this form is completed after the final session of training. The form asks approximately 30 questions of each individual that participated in the training. Training participants are asked to report demographic information, education, profession, field of study, status of certification or licensure, workplace role, employment setting, satisfaction with the quality of the training and training materials, and to assess their level of skills in the topic area. There are no revisions to the form. CSAT is proposing to continue to use the form as is.

(3) Training Follow-up Form. The Training Follow-up form, which is administered 30-days after the event to 25% of consenting participants, asks about 25 questions. The form asks participants to report demographic information, satisfaction with the quality of the training and training materials, and to assess their level of skills in the topic area. No revisions are being made to the form. CSAT is proposing to continue to use the form as is.

(4) Meeting Post Event Form. This form is distributed to meeting participants at the end of the meeting, and collected from them before they leave. This form asks approximately 30 questions of each individual that participated in the meeting. Meeting participants are asked to report demographic information, education, profession, field of study, status of certification or licensure, workplace role, employment setting, and satisfaction with the quality of the event and event materials, and to assess their level of skills in the topic area. No revisions are being made to the form. CSAT is proposing to continue to use the form as is.
