

Collection Coordinator, at (301) 851-2727.

#### List of Subjects in 7 CFR Part 319

Coffee, Cotton, Fruits, Imports, Logs, Nursery stock, Plant diseases and pests, Quarantine, Reporting and recordkeeping requirements, Rice, Vegetables.

Accordingly, we propose to amend 7 CFR part 319 as follows:

#### PART 319—FOREIGN QUARANTINE NOTICES

■ 1. The authority citation for part 319 continues to read as follows:

**Authority:** 7 U.S.C. 450, 7701-7772, and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

■ 2. Section 319.56-76 is added to read as follows:

#### § 319.56-76 Persimmons From New Zealand.

Fresh persimmons (*Diospyros kaki* Thunb.) may be imported into the United States only under the conditions described in this section. These conditions are designed to prevent the introduction of the quarantine pests *Colletotrichum horii* B. Weir & P.R. Johnst., *Cnephasia jactatana* (Walker), *Cryptosporiopsis actinidiae* P.R. Johnst., M.A. Manning & X. Meier, *Ctenopseustis herana* (Felder and Rogenhofer), *Ctenopseustis obliquana* (Walker), *Epiphyas postvittana* (Walker), *Planotortrix excessana* (Walker), *Sperchia intractana* (Walker), and *Stathmopoda skelloni* (Butler).

(a) *Operational workplan.* The national plant protection organization (NPPO) of New Zealand must provide an operational workplan to APHIS that details the activities that the NPPO of New Zealand will, subject to APHIS' approval of the workplan, carry out to meet the requirements of this section. The operational workplan must include and describe the quarantine pest survey intervals and other specific requirements as set forth in this section.

(b) *Commercial consignments.* Persimmons from New Zealand may be imported in commercial consignments only.

(c)(1) *Place of production requirements.* All places of production that participate in the export program must be approved by and registered with the New Zealand NPPO in accordance with the requirements of the operational workplan.

(2) The NPPO of New Zealand or its approved designee must visit and inspect the places of production monthly beginning at blossom drop and continuing until the end of the shipping

season for quarantine pests. Appropriate pest controls must be applied in accordance with the operational workplan. If the NPPO of New Zealand finds that a place of production is not complying with the requirements of this section, no fruit from the place of production will be eligible for export to the United States until APHIS and the NPPO of New Zealand conduct an investigation and appropriate remedial actions have been implemented.

(d)(1) *Packinghouse requirements.* All packinghouses that participate in the export program must be approved by and registered with the New Zealand NPPO in accordance with the requirements of the operational workplan.

(2) During the time the packinghouse is in use for exporting persimmons to the United States, the packinghouse may only accept persimmons from registered approved places of production and the fruit must be segregated from fruit intended for other markets.

(3) All diseased or insect-infested fruit and fruit with surface pests must be culled either before or during packing and removed from the packinghouse. Culling must also include any damaged or deformed fruit.

(4) Each shipping container must be marked to identify the place of production and packinghouse from which the consignment of fruit originated.

(5) The NPPO of New Zealand must monitor packinghouse operations to verify that the packinghouses are complying with the requirements of the systems approach. If the NPPO of New Zealand finds that a packinghouse is not complying with the requirements of this section, no fruit from the packinghouse will be eligible for export to the United States until APHIS and the NPPO of New Zealand conduct an investigation and appropriate remedial actions have been implemented.

(e) *Sampling.* Inspectors from the NPPO of New Zealand must inspect a biometric sample of the fruit from each consignment at a rate jointly agreed upon by APHIS and the NPPO of New Zealand. The inspectors must visually inspect for quarantine pests listed in the operational workplan required by paragraph (a) of this section and must cut fruit to inspect for quarantine pests that are internal feeders. If quarantine pests are detected in this inspection, the consignment will be prohibited entry into the United States.

(f) *Treatment.* Each consignment of persimmons must be subjected to a post-harvest treatment by either:

(1) *Hot water treatment.* The persimmons are held for 20 minutes in hot water at 50 °C (122 °F); or

(2) *Modified atmosphere treatment.* The persimmons are packed in semi-permeable polymeric bags and stored at 0 °C for a minimum of 28 days.

(g) *Phytosanitary certificate.* Each consignment of persimmons must be accompanied by a phytosanitary certificate of inspection issued by the New Zealand NPPO with an additional declaration stating that the fruit in the consignment were grown, packed, and inspected and found to be free of quarantine pests in accordance with the requirements of the systems approach.

Done in Washington, DC, this 22nd day of August 2016.

#### Importation of Lemons From Chile Into the Continental United States

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Proposed rule; reopening of comment period.

**SUMMARY:** We are reopening the comment period for our proposed rule that would amend the fruits and vegetables regulations to list lemon (*Citrus limon* (L.) Burm. f.) from Chile as eligible for importation into the continental United States subject to a systems approach. This action will allow interested persons additional time to prepare and submit comments.

**DATES:** The comment period for the proposed rule published on April 4, 2016 (81 FR 19063) is reopened. We will consider all comments that we receive on or before September 26, 2016.

**ADDRESSES:** You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2015-0051>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2015-0051, Regulatory Analysis and Development, PPD, APHIS, Station

3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docket>

*Detail:*D=APHIS-2015-0051 or in our reading room, which is located in Room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

**FOR FURTHER INFORMATION CONTACT:** Mr. George Balady, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, Plant Health Programs, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737; (301) 851-2240.

**SUPPLEMENTARY INFORMATION:** On April 4, 2016, we published in the **Federal Register** (81 FR 19063, Docket No. APHIS-2015-0051) a proposal to the fruits and vegetables regulations to list lemon (*Citrus limon* (L.) Burm. f.) from Chile as eligible for importation into the continental United States subject to a systems approach.

Our review of the information supporting the safe importation into the United States of citrus from Chile under the listed phytosanitary measures is examined in a commodity import evaluation document (CIED) titled "Importation of Fresh Lemons (*Citrus limon* (L.) Burm. f.), from Chile into the Continental United States Using a Systems Approach." The CIED was based on a pathway-initiated risk assessment (PRA), titled "Importation of Fresh Lemons (*Citrus limon* (L.) Burm. f.) from Chile into the Continental United States." The draft PRA was made available for review and comment on the APHIS Web page in 2014. However, we did not make the PRA available with the proposed rule for further review and comment. A commenter on the proposed rule asked that we make the PRA available again. In response to this comment we are making the PRA available for review and reopening the comment period. Copies of the CIED and PRA may be obtained from the person listed under **FOR FURTHER INFORMATION CONTACT** or viewed on the *Regulations.gov* Web site or in our reading room (see **ADDRESSES** above for a link to *Regulations.gov* and information on the location and hours of the reading room).

Comments on the proposed rule were required to be received on or before June 3, 2016. We are reopening the comment period on Docket No. APHIS-2015-

0051 for an additional 30 days. We will also consider all comments received between June 4, 2016, and the date of this notice. This action will allow interested persons additional time to prepare and submit comments.

**Authority:** 7 U.S.C. 450, 7701-7772, and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 22nd day of August 2016.

**RIN 2120-AA64**

#### Airworthiness Directives; Bombardier, Inc. Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** We propose to adopt a new airworthiness directive (AD) for certain Bombardier, Inc. Model CL-600-2E25 (Regional Jet Series 1000) airplanes. This proposed AD was prompted by reports of two cases where the main landing gear (MLG) failed to fully extend; it was determined that interference between the MLG door and the MLG fairing seal prevented the MLG door from opening fully. This proposed AD would require repetitive detailed inspections of the MLG fairing, fairing seal, door, and adjacent structures; and replacement or repair of affected parts and fasteners, or removal of the door, if necessary. This proposed AD would also require installation of a safety guide in the MLG fairing and an increase of the spacing between the MLG door and the fairing, which would terminate the repetitive inspections. We are proposing this AD to detect and correct interference between the MLG door and the MLG fairing seal. Such interference could result in a MLG failing to fully extend, which could cause an unsafe asymmetric landing configuration.

**DATES:** We must receive comments on this proposed AD by October 11, 2016.

**ADDRESSES:** You may send comments, using the procedures found in 14 CFR

11.43 and 11.45, by any of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.

- **Fax:** 202-493-2251.

- **Mail:** U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.

- **Hand Delivery:** Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this NPRM, contact Bombardier, Inc., 400 Côte Vertu Road West, Dorval, Québec H4S 1Y9, Canada; telephone 514-855-5000; fax 514 855-7401; email [thd.crj@aero.bombardier.com](mailto:thd.crj@aero.bombardier.com); Internet <http://www.bombardier.com>. You may view this referenced service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425-227-1221.

#### Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2016-8847; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the regulatory evaluation, any comments received, and other information. The street address for the Docket Operations office (telephone 800-647-5527) is in the **ADDRESSES** section. Comments will be available in the AD docket shortly after receipt.

**FOR FURTHER INFORMATION CONTACT:** Fabio Buttitta, Aerospace Engineer, Airframe and Mechanical Systems Branch, ANE-171, FAA, New York Aircraft Certification Office (ACO), 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516-228-7303; fax 516-794-5531.

#### SUPPLEMENTARY INFORMATION:

##### Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposed AD. Send your comments to an address listed under the **ADDRESSES** section. Include "Docket No. FAA-2016-8847; Directorate Identifier 2016-NM-020 -AD" at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will
