

(10) A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange.

(11) The Fund intends to enter into repurchase agreements only with financial institutions and dealers believed by the Adviser to present minimal credit risks in accordance with criteria approved by the Board of Trustees of the Trust. The Adviser will review and monitor the creditworthiness of such institutions and will monitor the value of the collateral at the time the transaction is entered into and at all times during the term of the repurchase agreement.

(12) The Fund may only invest in commercial paper rated A-1 or higher by S&P Ratings, Prime-1 or higher by Moody's, or F1 or higher by Fitch.

(13) While the Fund may invest in inverse ETFs, the Fund will not invest in leveraged or inverse leveraged (*e.g.*, 2X or -3X) ETFs.

The Commission notes that the Fund and the Shares must comply with the initial and continued listing criteria in Nasdaq Rule 5735 for the Shares to be listed and traded on the Exchange. In addition, the Exchange represents that all statements and representations made in this filing regarding (a) the description of the portfolio, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Shares on the Exchange. In addition, the issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to comply with the continued listing requirements, and, pursuant to its obligations under section 19(g)(1) of the Act, the Exchange will monitor for compliance with the continued listing requirements.<sup>34</sup> If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under the Nasdaq 5800 Series. This approval order is based on all of the Exchange's representations, including those set forth above and in

<sup>34</sup> The Commission notes that certain other proposals for the listing and trading of Managed Fund Shares include a representation that the exchange will "surveil" for compliance with the continued listing requirements. *See, e.g.*, Securities Exchange Act Release No. 78005 (Jun. 7, 2016), 81 FR 38247 (Jun. 13, 2016) (SR-BATS-2015-100). In the context of this representation, it is the Commission's view that "monitor" and "surveil" both mean ongoing oversight of a fund's compliance with the continued listing requirements. Therefore, the Commission does not view "monitor" as a more or less stringent obligation than "surveil" with respect to the continued listing requirements.

the Notice, as modified by Amendment No. 1 to the proposed rule change.

For the foregoing reasons, the Commission finds that the proposed rule change, as modified by Amendment No. 1 thereto, is consistent with section 6(b)(5) of the Act,<sup>35</sup> Section 11A(a)(1)(C)(iii) of the Act,<sup>36</sup> and the rules and regulations thereunder applicable to a national securities exchange.

#### IV. Conclusion

IT IS THEREFORE ORDERED, pursuant to section 19(b)(2) of the Exchange Act,<sup>37</sup> that the proposed rule change (SR-NASDAQ-2016-072), as modified by Amendment No. 1 thereto, be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>38</sup>

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend Rule 13.8 to adopt a new market data product known as EDGX Summary Depth.

The text of the proposed rule change is available at the Exchange's Web site at [www.batstrading.com](http://www.batstrading.com), at the principal office of the Exchange, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend Rule 13.8 to adopt a new market data product known as EDGX Summary Depth. EDGX Summary Depth would be a data feed that offers aggregated two-sided quotations for all displayed orders entered into the System<sup>5</sup> for up to five (5) price levels for securities traded on the Exchange and for which the Exchange reports quotes under the Consolidated Tape Association ("CTA") Plan or the Nasdaq/UTP Plan. EDGX Summary Depth also contains the individual last sale information, Market Status, Trading Status, and Trade Break messages. The individual last sale information will include the price, size, and time of execution. The last sale message will also include the cumulative number of shares executed on the Exchange for that trading day. The Exchange will disseminate the aggregate Best Bid and Offer ("BBO") and last sale information through EDGX

<sup>5</sup> "System" is defined as the "the electronic communications and trading facility designated by the Board through which securities orders of Users Are consolidated for ranking, execution and, when applicable, routing away." *See* Exchange Rule 1.5(aa).

Summary Depth no earlier than it provides its BBO and last sale information to the processors under the CTA Plan or the Nasdaq/UTP Plan.

The Market Status message will reflect a change in the status of the Exchange. For example, the Market Status message would indicate whether the Exchange is experiencing a systems issue or disruption resulting in quotation or trade information not currently being disseminated as part of the aggregated BBO. The Market Status message will also indicate when Exchange has resolved a systems issue or disruption and is properly reflecting the status of the aggregated BBO. The Trade Break message will indicate when an execution is broken in accordance with Exchange rules.<sup>6</sup> The Trading Status message will indicate the current trading status of a security on the Exchange. For example, a Trading Status message will be sent when a short sale price restriction is in effect pursuant to Rule 201 of Regulation SHO (“Short Sale Circuit Breaker”),<sup>7</sup> or when the security is subject to a trading halt, suspension or pause declared by the listing market. A Trading Status message will be sent whenever a security’s trading status changes.

The Exchange intends to offer EDGX Summary Depth as of January 3, 2017. Prior to January 3, 2017, the Exchange will file a separate rule change with the Commission proposing fees to be charged for EDGX Summary Depth.<sup>8</sup>

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act,<sup>9</sup> in general, and furthers the objectives of section 6(b)(5) of the Act,<sup>10</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest, and that it is not designed to permit unfair discrimination among customers, brokers, or dealers. This proposal is in keeping with those principles in that it

promotes increased transparency through the dissemination of EDGX Summary Depth. The Exchange also believes this proposal is consistent with section 6(b)(5) of the Act because it protects investors and the public interest and promotes just and equitable principles of trade by providing investors with an alternative for receiving market data as requested by market data vendors and purchasers that expressed an interest in exchange-only data for instances where consolidated data is no longer required to be purchased and displayed. The proposed rule change would benefit investors by facilitating their prompt access to real-time depth-of-book information contained in EDGX Summary Depth.

The Exchange also believes that the proposed rule change is consistent with section 11(A) of the Act<sup>11</sup> in that it supports (i) fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets and (ii) the availability of information with respect to quotations for and transactions in securities to brokers, dealers, and investors. Furthermore, the proposed rule change is consistent with Rule 603 of Regulation NMS,<sup>12</sup> which provides that any national securities exchange that distributes information with respect to quotations for or transactions in an NMS stock do so on terms that are not unreasonably discriminatory. EDGX Summary Depth would be accessed and subscribed to on a voluntary basis, in that neither the Exchange nor market data distributors are required by any rule or regulation to make this data available. Accordingly, distributors and subscribers can discontinue their use at any time and for any reason.

In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data to consumers of such data. It was believed that this authority would expand the amount of data available to users and consumers of such data and also spur innovation and competition for the provision of market data. The Exchange believes that the data products proposed herein are precisely the sort of market data products that the Commission envisioned when it adopted Regulation NMS. The Commission concluded that Regulation NMS—by lessening regulation of the market in proprietary data—would itself further the Act’s

goals of facilitating efficiency and competition:

[E]fficiency is promoted when broker-dealers who do not need the data beyond the prices, sizes, market center identifications of the NBBO and consolidated last sale information are not required to receive (and pay for) such data. The Commission also believes that efficiency is promoted when broker-dealers may choose to receive (and pay for) additional market data based on their own internal analysis of the need for such data.<sup>13</sup>

By removing “unnecessary regulatory restrictions” on the ability of exchanges to sell their own data, Regulation NMS advanced the goals of the Act and the principles reflected in its legislative history.

In addition, EDGX Summary Depth removes impediments to and perfects the mechanism of a free and open market and a national market system by providing investors with alternative market data and competing with similar market data products currently offered by the New York Stock Exchange, Inc. (“NYSE”) and the Nasdaq Stock Market LLC (“Nasdaq”).<sup>14</sup> The provision of new options for investors to receive market data was a primary goal of the market data amendments adopted by Regulation NMS.<sup>15</sup>

### *B. Self-Regulatory Organization’s Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.<sup>16</sup> The

<sup>14</sup> See Nasdaq Rule 7023(a)(1)(C) (describing Nasdaq TotalView as a depth-of-book data feed that includes all orders and quotes from all Nasdaq members displayed in the Nasdaq Market Center as well as the aggregate size of such orders and quotes at each price level in the execution functionality of the Nasdaq Market Center). <sup>15</sup> See Regulation NMS Adopting Release, *supra* note 13.

<sup>16</sup> The Bats One Feed is a data feed that disseminates, on a real-time basis, the aggregate BBO of all displayed orders for securities traded on each of the Bats Exchanges and for the Bats Exchanges report quotes under the CTA Plan or the Nasdaq/UTP Plan. The Bats One Feed also contains the individual last sale information for the Bats Exchanges (collectively with the aggregate BBO, the “Bats One Summary Feed”). In addition, the Bats One Feed contains optional functionality which

<sup>6</sup> See, e.g., Exchange Rule 11.15, Clearly Erroneous Executions.

<sup>7</sup> 17 CFR 242.200(g); 17 CFR 242.201.

<sup>8</sup> The Exchange understands that its affiliated exchanges intend to file identical proposed rule changes to adopt rules and fees for the Book Viewer data feed with the Commission. The Exchange’s affiliates are Bats EDGA Exchange, Inc., (“EDGA”), Bats EDGX Exchange, Inc. (“EDGX”), and Bats BZX Exchange, Inc. (“BZX”) (“collectively, the “Bats Exchanges”).

Exchange believes that the proposal will promote competition by enabling the Exchange to offer a market data product similar to that currently offered by the NYSE and Nasdaq.<sup>17</sup> Thus, the Exchange believes this proposed rule change is necessary to permit fair competition among national securities exchanges.

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange has neither solicited nor received written comments on the proposed rule change.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to section 19(b)(3)(A) of the Act<sup>18</sup> and Rule 19b-4(f)(6) thereunder.<sup>19</sup>

See also Securities Exchange Act Release No. 73918 (December 23, 2014), 79 FR 78920 (December 31, 2014) (File Nos. The Exchange uses the following data feeds to create the Bats One Feed, each of which are available to vendors: EDGX Depth, EDGA Depth, BYX PITCH Feed, and the BZX PITCH Feed. The Exchange notes that a vendor could utilize the proposed EDGX Summary Depth Feed, as well as the summarized depth feeds to be proposed by BYX, BZX, and EDGA to create a competing product to the Bats One Feed. *Supra* note 8. The Exchange represents that a competing vendor could obtain these data feeds from each Bats Exchange on the same latency basis as the system that performs the aggregation and consolidation of the Bats One Feed. See Bats One Approval Order. While the proposed EDGX Summary Depth Feed does not contain the symbol summary or consolidated volume data included in the Bats One Feed, a vendor could include this information in a competing product as this information is easily derivable from the proposed feeds or can be obtained from the securities information processors on the same terms as the Exchange.

<sup>18</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>19</sup> 17 CFR 240.19b-4(f)(6). As required under Rule 19b-4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and the text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.
