RIN 3072-AC34

**Update of Existing and Addition of New User Fees**

**AGENCY:** Federal Maritime Commission.  
**ACTION:** Final rule.

**SUMMARY:** The Federal Maritime Commission (Commission) is amending its user fees to more accurately align fees with the costs associated with each service provided by the Commission. Specifically, the Commission is increasing fees for: Filing complaints and certain petitions; records searches, document copying, and admissions to practice; paper filing of ocean transportation intermediary (OTI) applications; filing applications for special permission; and filing agreements.

The Commission is also lowering fees for: Reviewing Freedom of Information Act (FOIA) requests; revising clerical errors on service contracts; revising clerical errors on non-vessel-operating common carrier (NVOCC) service arrangements; and Commission services to passenger vessel operators (PVOs).

In addition, the Commission is repealing four existing fees for: Adding interested parties to a specific docket mailing list; the Regulated Persons Index database; database reports on Effective Carrier Agreements; and filing petitions for rulemaking, and adding a new fee for requests for expedited review of an agreement filing.

**DATES:** Effective October 1, 2016.

**FOR FURTHER INFORMATION CONTACT:** Karen V. Gregory, Secretary, Federal Maritime Commission, 800 North Capitol Street NW., Washington, DC 20573-0001. *Phone:* (202) 523-5725. *Email:* [secretary@fmc.gov](mailto:secretary@fmc.gov).

**SUPPLEMENTARY INFORMATION:** The Commission's current user fees are based on an assessment of fiscal year 2004 costs and have not been updated since 2005.<sup>1</sup> Consequently, many of the

current user fees no longer represent the Commission's actual costs for providing services. The Commission is adjusting its user fees based on fiscal year 2015 costs assessed through a new methodology for calculating costs for services provided by the Commission.

The Independent Offices Appropriation Act of 1952 (IOAA), 31 U.S.C. 9701, authorizes agencies to establish charges (user fees) for services and benefits that it provides to specific recipients. Under the IOAA, charges must be fair and based on the costs to the Government, the value of the service or thing to the recipient, the public policy or interest served, and other relevant facts. The IOAA also provides that regulations implementing user fees are subject to policies prescribed by the President, which are currently set forth in OMB Circular A-25, *User Charges* (revised July 8, 1993).

OMB Circular A-25 requires agencies to conduct a periodic reassessment of costs and, if necessary, adjust or establish new fees. Under OMB Circular A-25, fees should be established for Government-provided services that confer benefits on identifiable recipients over and above those benefits received by the general public. OMB Circular A-25 also provides that agencies should

<sup>1</sup> The Commission established the fee for filing or updating OTI license applications electronically in 2007.

determine or estimate costs based on the best available records in the agency, and that cost computations must cover the direct and indirect costs to the agency providing the activity.

On March 21, 2016, the Commission issued an Advanced Notice of Proposed Rulemaking (ANPRM), 81 FR 15002, seeking public comment and did not receive any comments. The Commission again sought public comment by issuing a Notice of Proposed Rulemaking (NPRM), 81 FR 33637, on May 27, 2016. The Commission received two comments in response to the NPRM, one from an individual and one from the World Shipping Council.

The individual commenter requested that the Commission eliminate 46 CFR 503.50(c)(1)(ii) and (c)(3)(iii) to avoid ambiguity, improve clarity, and conform to typical federal agency practice. The commenter claims that the wording is ambiguous because the proposed language states that the minimum charge for a records search is \$27, but the Commission does not charge a fee for two hours of search for noncommercial requesters. The Commission provides an exception to the minimum search fee for educational and noncommercial scientific institution requesters and for representatives of the news media requesters because the Freedom of Information Act (FOIA), 5 U.S.C. 552(a)(4)(A)(ii), precludes agencies from imposing a search fee when the requester is not seeking documents for a commercial use. The commenter also argues that there is ambiguity in the proposed language because there are existing provisions where the Commission does not charge a fee at all if the processing of the fee were likely to equal or exceed the fee itself. The Commission provides this de minimus exception, in accordance with 5 U.S.C. 552(a)(A)(iv)(I). While the Commission does not consider § 503.50(c)(1)(ii) and (c)(3)(iii) as proposed in the NPRM to be confusing, we are adding the phrase “Unless an exception provided in § 503.50(b)(2) applies” to make the rule unequivocally clear.

The individual commenter requested that the Commission not adopt certain portions of proposed § 503.50(c)(3)(i) and (ii) because they do not reflect OMB FOIA Fee Guidelines. Similarly, the commenter requested that § 503.69(b)(1) not be modified because the Commission did not provide a rationale for the change in duplication fees and there is no evidence that there has been any examination of the actual per page direct cost of xerographic duplication.

The individual also commented that the basis for the rule change in

§ 503.69(b)(1) is unclear and that it is unclear where the Regulated Persons Index is located on the Commission’s Web site.

The World Shipping Council requests that the Commission provide detailed cost information for each service it provides and requests an additional 45-day comment period. The Commission believes transparency and public participation is essential in amending user fees and has afforded stakeholders two opportunities to comment on the proposed changes. Furthermore, the Commission provided a summary of the fee assessment methodology in both the ANPRM and NPRM. In addition, the Commission provided a detailed description of the methodology in the docket to this rulemaking, as well as a detailed fee index. In the interest of transparency, the Commission will place the cost analysis for each service in the docket. The Commission, however, believes that ample time and information has been provided for public comment and, therefore, will not go forward with a third comment period.

#### Fee Adjustments

The adjustments will allow some user fees to remain unchanged; increase, reduce, or delete other fees; and add one new fee. The Commission is increasing fees to reflect increases in salary and indirect (overhead) costs. For some services, an increase in processing or review time may account for all or part of the increase in the amount of the fees. For other services, fees are lower than current fees due to an overall reduced cost to provide those services.

The Commission assesses nominal processing fees for services related to the filing of complaints and certain petitions; various public information services, such as records searches, document copying, and admissions to practice; and filing applications for special permission. Due to an increase in the processing cost of these services, the Commission is adjusting upward these administrative fees based on an assessment of fiscal year 2015 costs. Similarly, the Commission is adjusting upward the user fees associated with agreements filed under 46 CFR part 535 because of the increase in reviewing and analyzing the agreement filings.

With respect to OTI license applications, the fees for electronic filing of license applications through the Commission’s FMC–18 automated filing system are lower than the fees to file paper applications. The Commission first adopted lower fees in 2007 to promote the use of the electronic filing option by the public and to facilitate the

transfer of OTI records from a paper-based format to a more convenient and accessible digital format.<sup>2</sup> As intended, the majority of OTI applicants are using the automated system and paying the reduced fees. In fiscal year 2015, the total number of OTI applicants using the automated filing system at the reduced fees was 619, and the total number of OTI applicants filing their applications in paper format at the higher fees was 44. This program has been successful and the Commission is continuing to offer the lower fees for electronic filing at the current fee amounts.<sup>3</sup>

The Commission is decreasing fees for the Commission’s services to passenger vessel operators (PVOs) under 46 CFR part 540. These services include reviewing and processing the application for certification on performance; the supplemental application on performance for the addition or substitution of a vessel; the application for certification on casualty, and the supplemental application on casualty for the addition or substitution of a vessel.

For reviews of requests filed under FOIA, the Commission is lowering the fees due to the change in grade level of the professional staff that review FOIA requests. For revisions of clerical errors on service contracts, the Commission is lowering the fee due to the reduction in processing time.

The Commission is repealing the user fee for obtaining a copy of the Regulated Persons Index given that it is currently available on the Commission’s Web site. (<http://www2.fmc.gov/oti/>) The Commission also proposes repealing the current fee assessed for adding an interested party to a specific docket mailing list under § 503.50(d), and the fee assessed under § 535.401(h) for obtaining a Commission agreement database report.

In addition, the Commission is repealing the user fee for filing petitions for rulemaking found in § 503.51(a). This aligns the Commission with the practice of other agencies, the vast majority of which do not impose a fee to file petitions for rulemaking. Repealing this user fee would also enhance access to the rulemaking

<sup>2</sup> FMC Docket No. 07–08, *Optional Method of Filing Form FMC–18, Application for a License as an Ocean Transportation Intermediary*, 72 FR 44976, 44977 (Aug. 10, 2007).

<sup>3</sup> While the automated filing system allows users to file their applications electronically, the automated system for processing the applications is still under development. The fees for the electronic filing of OTI applications will be addressed by the Commission when the entire FMC–18 automated system is complete and operational, and the costs of the system and its impact on the review of OTI applications can be quantified.

process, thereby making it fairer and more open.

The Commission is also adding a new fee for processing requests for expedited review of an agreement under § 535.605, which allows filing parties to request that the 45-day waiting period be shortened to meet an operational urgency. The Commission believes that a fee for processing such requests is necessary to recoup the cost of publishing a separate **Federal Register** notice for expedited review. This new fee will be assessed in addition to the underlying agreement filing fee required by § 535.401(g).

### Regulatory Analysis and Notices

#### Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601 *et. seq.*, requires an agency to review final rules to assess their impact on small entities and prepare a final regulatory flexibility analysis (FRFA), unless the agency head determines that the regulatory action will not have a significant impact on a substantial number of small entities. The Chairman certified, in the NPRM, that the proposed rule would not have a significant economic impact on a substantial number of small entities. The adjusted user fees reflect the costs of specific Commission services for identifiable recipients. The economic impact of user fees on a small entity results from the entity requesting a particular service that requires payment of a fee for that service. The dollar amount of each user fee proposed in this rule is not substantial enough to have a significant economic impact on any entity subject to the user fee. On average, as weighted by the volume of fee assessments for fiscal year 2015, the total increase in user fees is below the rise in inflation and employment costs from the last assessment in fiscal year 2004. Furthermore, the Commission's regulations provide for a waiver or reduction of any fee in extraordinary situations. 46 CFR 503.42. The Chairman of the Commission, therefore, certifies that the final rule, will not have a significant economic impact on a substantial number of small entities.<sup>4</sup>

#### Paperwork Reduction Act

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521) requires an agency to seek and receive approval from the Office of Management and

Budget (OMB) before making most requests for information if the agency is requesting information from more than ten persons. 44 U.S.C. 3507. This final rule does not contain any collections of information, as defined by 44 U.S.C. 3502(3) and 5 CFR 1320.3(c).

#### Regulation Identifier Number

The Commission assigns a regulation identifier number (RIN) to each regulatory action listed in the Unified Agenda of Federal Regulatory and Deregulatory Actions (Unified Agenda). The Regulatory Information Service Center publishes the Unified Agenda in April and October of each year. You may use the RIN contained in the heading at the beginning of this document to find this action in the Unified Agenda, available at <http://www.reginfo.gov/public/do/eAgendaMain>.
