C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 31, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action.

This action pertaining to the regulations and requirements for the control of emissions from various processes and fuel-burning equipment from Kraft pulp mills, may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: August 12, 2016.

Shawn M. Garvin,
Regional Administrator, Region III.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Kentucky; Source Specific Revision for Louisville Gas and Electric

AGENCY: Environmental Protection Agency (EPA).

ACTIONS: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Kentucky through its Energy and Environment Cabinet, Department of Environmental Protection, Division for Air Quality (KY DAQ) on February 13, 2013, for the purpose of establishing emission requirements for the changeover from coal-fired units U4, U5
and U6 to a new natural gas-fired combined cycle (NGCC) generating unit U15 and auxiliary boiler U16 at the Louisville Gas and Electric Company, Cane Run Generating Station (LG & E Cane Run Facility).

DATES: This rule will be effective September 29, 2016.

ADDRESS: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR– 2015–0675. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information may not be publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute.

Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jane Spann of the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. Ms. Spann may be reached by telephone at (404) 562–9029 or via electronic mail at spann.jane@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Ozone is created when chemical reactions between volatile organic compounds (VOC) and nitrogen oxides (NOx) occur in the presence of sunlight. Ozone is reduced by reducing VOC and NOx emissions. The Louisville Metro Air Pollution Control District (LMAPCD) adopted regulation 6.42 Reasonably Available Control Technology Requirements for Major Volatile Organic Compound and Nitrogen Oxides Emitting Facilities on February 2, 1994. LMAPCD’s regulation 6.42 was submitted to EPA, through the Commonwealth of Kentucky, on May 21, 1999. On October 23, 2001, EPA approved LMAPCD’s regulation 6.42, section 4.4 of which requires LMAPCD to submit each source-specific reasonably available control technology (RACT) determination to EPA for approval into the Kentucky SIP. See 66 FR 53658. On the same date, EPA approved the NOx RACT plan for LG & E’s Cane Run Facility into the SIP. See 66 FR 53684.

On June 13, 2011, LG & E submitted to the Air Pollution Control Board of Jefferson County (Board) an application for a permit to construct a new NGCC generating unit U15 and auxiliary boiler U16 and retire coal-fired units U4, U5 and U6 at LG & E’s Cane Run Facility to comply with other federal requirements, including the Mercury & Air Toxics Standards and the Cross-State Air Pollution Rule. In response, on July 18, 2012, the Board adopted Amendment 2 establishing NOx emission rates for the new units. On February 13, 2013, KY DAQ, on behalf of LMAPCD, submitted a SIP revision for EPA to approve the LG & E Cane Run Generating Station NOx RACT Plan Amendment 2 into the Kentucky SIP. The LG & E Cane Run Generating Station NOx RACT Plan Amendment 2 includes two parts: Part 1, the existing NOx RACT Plan for the coal-fired units, which will remain in effect until those units are retired; and Part 2, the plan that will become effective upon the start of operation of the NGCC facility and the shut-down of the coal-fired units.

In a notice of proposed rulemaking (NPRM) published on June 15, 2016 (81 FR 39002), EPA proposed to approve Kentucky’s February 13, 2013, submission, for the purpose of establishing emission requirements for the changeover from coal-fired units to natural gas-fired combined cycle EGUs and associated equipment.

II. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of KY DAQ source-specific provision entitled “Air Pollution...”

\* Amendment 2 of the February 13, 2013, submittal includes a Dew Point Heater (U17). In 2014, LG&E notified LMAPCD that LG&E is not installing U17 after all.

\* 62 FR 27966 (May 22, 1997).
affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4); • does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999); • is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997); • is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); • is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and • does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 31, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: August 17, 2016.

Heather McTeer Toney,
Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

§ 52.920 Identification of plan.

(a) * * *

Subpart S—Kentucky

2. Section 52.920(d) is amended by adding a new entry “LG & E Cane Run Generating Station NOxRACT Plan Amendment 2” at the end of the table to read as follows:

§ 52.920 Identification of plan.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve a State Implementation Plan (SIP) revision submitted by the State of Nevada. On July 3, 2008, the EPA redesignated the Truckee Meadows area, consisting largely of the cities of Reno and Sparks in Washoe County, Nevada, from nonattainment to attainment for the carbon monoxide (CO) National Ambient Air Quality Standards (NAAQS) and approved the State’s plan addressing the area’s maintenance of the NAAQS for ten years. On November 7, 2014, the State of Nevada submitted to the EPA a second maintenance plan for the Truckee Meadows area that addressed maintenance of the NAAQS through 2030. The EPA is now approving this second maintenance plan. The EPA is also finding adequate and approving transportation conformity motor vehicle emissions budgets (MVEBs) for the years 2015, 2020, 2025 and 2030. We are taking these actions under the Clean Air Act (CAA or “the Act”).

DATES: This rule is effective on October 31, 2016 without further notice, unless the EPA receives adverse comments by September 29, 2016. If we receive such comments, we will publish a timely withdrawal in the Federal Register to notify the public that this direct final rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–
