Maryland: Final Authorization of State

Program Revisions

Maryland has applied to the
United States Environmental Protection Agency (EPA) for final authorization of revisions to its hazardous waste program under the Resource
Conservation and Recovery Act (RCRA). EPA proposes to grant final
authorization to Maryland. In the Rules
and Regulations section of this Federal
Register, EPA is authorizing the
revisions by a direct final rule. We have
explained the reasons for this
authorization in the preamble to the
direct final rule. Unless EPA receives
written comments that oppose this
authorization during the comment
period, the direct final rule will become
effective on the date it establishes, and
EPA will not take further action on this
proposal.

September 29, 2016.

SUPPLEMENTARY INFORMATION: In the
Rules and Regulations section of the
EPA is authorizing the
revisions by a direct final rule. EPA did
not make a proposal prior to the direct
final rule because we believe this action
is not controversial and do not expect
comments that oppose it. We have
explained the reasons for this
authorization in the preamble of the
direct final rule. Unless EPA receives
adverse written comments that oppose
this authorization during the comment
period, the direct final rule will become
effective on the date it establishes, and
EPA will not take further action on this
proposal. If EPA receives comments that
oppose this action, we will withdraw
the Direct Final Rule, and it will not
take effect. EPA will then respond to
public comments in a later final rule
based on this proposal and after
consideration of all comments. You may
not have another opportunity for
comment. If you want to comment on
this action, you must do so at this time.
For additional information, please see
the direct final rule published in the
Rules and Regulations section of this
Federal Register.

Dated: August 12, 2016.

Regional Administrator, EPA Region III.
