It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. GULF COAST ECOSYSTEM RESTORATION COUNCIL
[Docket No.: 108302016–1111–06]
Amendment to Initial Funded Priorities List
AGENCY: Gulf Coast Ecosystem Restoration Council.

ACTION: Notice of amendment to initial funded priorities list.

SUMMARY: On August 24, 2016, the Gulf Coast Ecosystem Restoration Council (Council) amended its Initial Funded Priorities List (FPL) to approve implementation funding for the Apalachicola Bay Oyster Restoration project (Project) in Florida. The Council approved $3,978,000 in implementation funding for this Project. The Council also approved reallocating $702,000 from project planning to project implementation, after any remaining planning expenses have been met. The total amount available for implementation of the Project is therefore $4,680,000. These funds will be used to restore approximately 251 acres of oyster beds, which is an increase from the 219 acres originally proposed in the FPL.

To comply with the National Environmental Policy Act (NEPA), the Council has adopted an existing Environmental Assessment (EA) that addresses the activities in the Project. In so doing, the Council is expediting project implementation, reducing planning costs and increasing the ecological benefits of this Project by using the savings in planning funds to expand the Project by approximately 32 acres.

FOR FURTHER INFORMATION CONTACT: Please send questions by email to john.ettinger@restorethegulf.gov or contact John Ettinger at (504) 444–3522.

SUPPLEMENTARY INFORMATION:

I. Background
The Deepwater Horizon oil spill led to passage of the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act (RESTORE Act), which dedicates 80 percent of all Clean Water Act administrative and civil penalties related to the oil spill to the Gulf Coast Restoration Trust Fund (Trust Fund). The RESTORE Act also created the Council, an independent Federal entity comprised of the five Gulf Coast states and six Federal agencies. Among other responsibilities, the Council administers a portion of the Trust Fund known as the Council-Selected Restoration Component in order to “undertake projects and programs, using the best available science, which would restore and protect the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, and economy of the Gulf Coast.” Additional information on the Council can be found here: https://www.restorethegulf.gov.

On December 9, 2015, the Council approved the FPL, which includes projects and programs approved for funding under the Council-Selected Restoration Component, along with activities that the Council identified as priorities for potential future funding. Activities approved for funding in the FPL are included in “Category 1.” The priorities for potential future funding are in “Category 2.” The Council approved approximately $156.6 million in FPL Category 1 restoration and planning activities, and prioritized twelve FPL Category 2 activities for possible funding in the future, subject to environmental compliance and further Council and public review. The Council included planning activities for the Apalachicola Project in Category 1 and implementation activities for the Project in Category 2 of the FPL.

The Council reserved approximately $28.6 million for implementing priority activities in the future. These reserved funds may be used to support some, all or none of the activities included in
