

any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed change would align Exchange rules with rules of other options exchanges and would therefore promote consistency in minor rule violations and respective SRO reporting obligations, resulting in less burdensome and more efficient regulatory compliance and facilitating performance of regulatory functions.¹⁴ The proposed rule change is not intended to address competitive issues, but rather it is designed to provide notice to, and fair procedures for the disciplining of, ATP Holders and persons associated with ATP Holders for violations of trade-throughs.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁵ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁶

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹⁷ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay so that the proposed rule change will become operative on filing. The Exchange stated that the proposed rule change would allow the Exchange to align its rules with those of competing options exchanges, without delay, and would also strengthen the Exchange's

ability to carry out its oversight responsibilities as a self-regulatory organization and reinforce its enforcement functions. The Exchange also stated that waiver of the operative delay would promote regulatory clarity and consistency, thereby reducing burdens on the marketplace and facilitating investor protection. For these reasons, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission designates the proposed rule change to be operative upon filing.¹⁸

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.
