vessels, U.S. government vessels, small commercial vessels, recreational vessels and tug and barge traffic. The Coast Guard has carefully coordinated the restrictions with waterway users.

There will be limited opportunity for vessels to transit through the bridge in the closed position during this temporary deviation. Vessels able to pass through the bridge in the closed position may do so after receiving confirmation from the bridge tender that it is safe to transit through the bridge. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 28, 2016.

Hal R. Pitts, 
Bridge Program Manager, Fifth Coast Guard District.

For Further Information Contact: If you have questions on this rule, call or email Lieutenant Junior Grade Vanessa Taylor, Chief of Waterways Management, U.S. Coast Guard MSU Morgan City 800 David Dr., Morgan City, LA 70380; telephone (985) 380-5334, email Vanessa.R.Taylor@uscg.mil.

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ‘‘impracticable, unnecessary, or contrary to the public interest.’’ Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because repair work on the Boudreaux Canal Sector Flood Gates located on Bayou Petite Caillou needs to be completed before marine traffic increases during the extremely high traffic periods of the upcoming shrimping season. The Coast Guard received notice of the need for this repair December 16, 2015. Repair work pushed to any later date will unnecessarily create major traffic delays. It is impracticable to publish an NPRM because we must establish this safety zone by January 6, 2016.

We are issuing this rule, and under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the Federal Register. Delaying the effective date of this rule would be contrary to public interest because immediate action is needed to provide additional safety measure during the repair work so that it may be completed before the high traffic periods during the upcoming shrimping season.

III. Legal Authority and Need for Rule

The legal basis and authorities for this rule are found in 33 U.S.C. 1231.

The purpose of the rule is to establish the necessary temporary safety zone to provide protection for persons and property from the hazards associated with the repairs. This includes commercial and recreational vessels that may be in the area during the repair, removal and re-installation of the Boudreaux Canal Flood Gates.

IV. Discussion of the Rule

This rule establishes a safety zone from January 6, 2016 through January 15, 2016 and from February 18, 2016 through February 27, 2016. The safety zone will cover all navigable waters within a 750 foot radius around coordinate 29°23.117 N., 90°37.038 W., which is located in center of the Boudreaux Canal Flood Gates. This safety zone is intended to protect personnel, vessels, and the marine environment in these navigable waters while the inspection, repair, removal, and re-installation of flood gates occurs. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders (E.O.s) related to rulemaking. Below we summarize our analyses based on a number of these statutes and E.O.s, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

E.O.s 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has not been designated a “significant regulatory action,” under E.O. 12866. Accordingly,
it has not been reviewed by the Office of Management and Budget.

This regulatory action determination is based on the size, location, duration, and traffic during the time-of-year of the safety zone. The safety zone only impacts a small designated area of the Waterway in Chauvin, LA during two scheduled time periods. First, during 10 days from January 6, 2016 through January 15, 2016; and second during 9 days from February 18, 2016 through February 27, 2016. This is a time of year when vessel traffic is normally low. Additionally, vessel traffic will be allowed to transit from January 16, 2016 through February 17, 2016, mid-way through the repair timeline. Moreover, the Coast Guard will issue Broadcast Notice to Mariners via VHF–FM marine channel 16 informing waterway users of the safety zone and any changes in the schedule. Finally, the rule allows vessels to seek permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under E.O. 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in E.O. 13132.

Also, this rule does not have tribal implications under E.O. 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting less than 20 days that will prohibit entry within a 750 foot radius around coordinate 29°23.117 N., 90°37.038 W., which is located in the center of the Boudreaux Canal Flood Gates in Chauvin, LA. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under ADDRESSES. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (waters), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

2. Add § 165.T08–1121 to read as follows:

§ 165.T08–1121 Safety Zone; Bayou Petite Caillou, Boudreaux Canal Floodgate; Chauvin, LA.

(a) Location. The following area is a safety zone: All waters within a 750 foot radius around coordinate 29°23.117 N., 90°37.038 W., which is located in the center of the Boudreaux Canal Flood Gates in Chauvin, LA.
VerDate Sep<11>2014 14:51 Feb 04, 2016 Jkt 238001 PO 00000 Frm 00023 Fmt 4700 Sfmt 4700 E:\FR\FM\05FER1.SGM 05FER1

(b) Definitions. As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard Coxswain, petty officer, or other officers operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port (COTP) Morgan City in the enforcement of the safety zones.

(c) Regulations. (1) Under the general safety zone regulations in 33 CFR part 165, subpart C, you may not enter the safety zones described in paragraph (a) of this section unless authorized by the COTP or the COTP’s designated representative.

(2) To seek permission to enter, contact the COTP or the COTP’s representative via VHF–FM channel 16, or through Coast Guard Marine Safety Unit Morgan City at 985–380–5334. Those in the safety zones must comply with all lawful orders or directions given to them by the COTP or the COTP’s designated representative.

(d) Enforcement period. This rule will be enforced from January 5, 2016 through January 15, 2016, and from February 18, 2016 through February 27, 2016.

(e) Informational Broadcasts. The COTP or a designated representative will inform the public through broadcasts notice to mariners of the enforcement period for the emergency safety zones as well as any changes in the dates and times of enforcement.

Dated: January 5, 2016.

D.G. McClellan,
Captain, U.S. Coast Guard, Captain of the Port Morgan City, Louisiana.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165
[Docket Number USCG–2016–0028]

RIN 1625–AA00

Safety Zone; Hudson River, Anchorage Ground 19–W

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the waters of the Hudson River in the vicinity of Anchorage Ground 19–W. This zone is intended to restrict vessels from a portion of the Hudson River due to the presence of a dielectric oil leak from a submerged power cable, and the hazards associated with the cable repair vessels. This temporary safety zone is necessary to protect people and vessels from the hazards associated with this event. Entry of vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port New York.

DATES: This rule is effective without actual notice from February 5, 2016 through July 9, 2016. For the purposes of enforcement, actual notice will be used from January 12, 2016 through February 5, 2016.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov, type USCG–2016–0028 in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Petty Officer Kristina Pundt, Waterways Management Division, U.S. Coast Guard Sector New York; telephone 718–354–4352, email Kristina.H.Pundt@uscg.mil.

I. Table of Abbreviations

CFR Code of Federal Regulations
DHS Department of Homeland Security
E.O. Executive order
FR Federal Register
NPRM Notice of proposed rulemaking
Pub. L. Public Law
§ Section

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. The Coast Guard received notification of the dielectric oil release from a submerged power cable on January 2, 2016. Thus, waiting for a notice and comment period to run would inhibit the Coast Guard from protecting the public and vessels from the possible hazards associated with this dielectric oil leak and the hazards associated with the cable repairs.

We are issuing this rule, and under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making it effective less than 30 days after publication in the Federal Register. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable and contrary to the public interest.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231, 33 CFR 1.05–1 and 160.5, and Department of Homeland Security Delegation No. 0170.1. The Captain of the Port New York (COTP) has determined that a temporary safety zone is necessary to ensure the safety of vessels from the hazards associated with this dielectric oil leak and power cable repairs.

Establishing a safety zone to control vessel movements around the location of the dielectric oil leak will help ensure the safety of persons and property during assessment and response activities and help minimize the associated risks. Therefore, this rule will remain in effect for the time stated herein but will be cancelled if response activities are finished cease before July 9, 2016. The preliminary estimate for completion of the clean-up and cable repairs is February 11, 2016. This TFR provides for an extended enforcement period in case of unforeseen circumstances that prevent the contractors from completing the repairs within their initial estimated timeline.

IV. Discussion of the Rule

This rule establishes a safety zone from January 12, 2016 through July 9, 2016. The safety zone will cover all navigable waters of Anchorage Ground 19–W and the Hudson River within an area approximately 870–930 yards wide and 1,330–1,335 yards long near Edgewater, NJ.

Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the COTP or a designated representative. Vessel operators must contact the COTP or an on-scene representative to obtain permission to transit through this safety zone. The COTP or an on-scene representative may be contacted by VHF Channel 16.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and E.O.’s related to rulemaking. Below we summarize our analyses based on these
