

assess the impact of the program on: (1) The preservation and improvement of former public housing units, in particular their physical and financial condition, (2) the amount of external capital leveraged as a result of such conversions, and (3) the residents living in properties at the time of conversion.

To comply with this statutory requirement and examine whether the program's objectives are being achieved, HUD will be collecting and analyzing quantitative and qualitative data from primary and secondary sources related to the following: (1) The physical and financial condition of 24 RAD properties selected for the study and 48 non-RAD properties selected for comparison; (2) the implementation of the program, including the capital needs and amount of external funding leveraged; and (3) the experience with, and effect on, residents.

The first phase of the evaluation has been completed, and relied on information collected in accordance with OMB control number 2528-0304. Under Phase 1, HUD surveyed PHAs about their experiences with RAD and began enrolling public housing residents to track them for Phase 2 of the study. That information collection effort occurred early in the RAD implementation process; while it provided useful information about how PHAs were approaching RAD, further information collection is necessary to understand the results of RAD. The second phase of the evaluation is now under way to answer questions about effects of RAD three to four years after its launch. This notice announces HUD's intent to collect the following additional information: 1) a survey of residents of RAD properties and 2) follow-up interviews with PHA staff.

This information will inform HUD, Congress, and other interested parties about how PHAs and residents are experiencing RAD now that projects have been converted, and whether or not it is achieving its intended objectives.

Respondents (i.e. affected public): This information collection will affect approximately 400 households that have been enrolled in the RAD tenant study (enrollment was approved under OMB control number 2528-0304) and approximately 100 PHA staff, including Executive Directors and other high-level staff at PHAs participating in RAD. The tenant survey is expected to take 1 hour and will be conducted once for each household. The PHA interviews are expected to take 1 hour and will be conducted one time.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Survey of RAD tenants	400	One time	1	1	400	\$7.25	\$2,900
Interviews with PHA staff.	100	One time	1	1	100	40	4,000
Total	500				500		6,900
