

of interest to the Tribes. A monitoring strategy will be developed to support learning and sharing lessons learned through time. Input from interested parties and the most current, applicable science will be used to guide the learning strategy.

Connected actions that would be analyzed as a part of the EIS include hazard tree removal, snag creation, down wood creation, soil remediation (subsoiling, scarification), invasive plant treatment, native seeding of disturbed sites, system road reconstruction, road maintenance, re-closure of roads opened to implement treatments, water source development, material source development, installation of erosion control features, culvert replacement for haul support, activity fuel preparation and treatment, hand line construction, temporary fencing, stump treatment for annosus root rot, and reforestation. A suite of Best Management Practices (BMPs) and Project Design Criteria (PDC) will be integrated into the design of alternatives and the analysis of effects to ensure that relevant natural resources, tribal treaty resources, and social values are managed and protected in a manner consistent with policy, law, and regulation. BMPs and PDCs will also serve to ensure that implementation of the actions described in the ROD are properly executed.

The purpose and need for action is consistent with the Ochoco, Umatilla, and Wallowa-Whitman National Forest Land and Resource Management Plans (LRMP), as amended and applicable. Other key guiding policies include, but are not limited to, the Endangered Species Act, National Forest Management Act, National Cohesive Wildland Fire Management Strategy, and all laws and executive orders and Forest Service policies guiding Tribal consultation.

Go to <http://www.fs.usda.gov/goto/forestresiliencyproject> for more detailed information and maps of the project area and proposed treatments.

#### Forest Plan Amendments

If necessary to meet the purpose and need of the FRP, the Forest Service may need to amend one or more Forest Plans for activities such as cutting large trees (>21" in diameter), restoring or conserving old forest characteristics, restoring forest structure in elk habitat, or maintaining current road densities.

#### Responsible Official

The responsible officials for decisions on the Ochoco, Umatilla, and Wallowa-Whitman National Forests are their respective Forest Supervisors.

#### Nature of Decision To Be Made

This proposed action is a proposal and not a decision. The Forest Supervisors of the Ochoco, Umatilla, and Wallowa-Whitman National Forests will decide, for their respective Forests, whether to implement the action as proposed, whether to take no action at this time, or whether to implement any alternatives that are analyzed. The Forest Supervisors will also decide whether to amend their respective Land and Resource Management Plan, if necessary to implement the decision.

#### Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. Issues that are raised with the proposal may lead to alternative ways to meet the purpose and need of the project. Scoping will also be used to determine site specific concerns that are relevant to forest treatment locations.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment periods and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered.

Several public engagement sessions will be held in Blue Mountains communities in March 2016 before completion of the scoping period. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the emergency provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* International Trade Administration (ITA).

*Title:* Interim Procedures for Considering Requests from the Public under the Textile and Apparel Safeguard Provision of the United States-Korea Free Trade Agreement.

*OMB Control Number:* 0625-0269.

*Type of Request:* Regular submission.

*Burden Hours:* 56.

*Number of Respondents:* 14.

*Average Hours per Response:* 4 hours for a Textile and Apparel Safeguard Request; and 4 hours for a Comment.

*Needs and Uses:* Title III, Subtitle C, Section 331 through Section 338 of the United States-Korea Free Trade Agreement Implementation Act (the "Act") implements the textile and apparel safeguard provisions, provided for in Article 4.1 of the United States-Korea Free Trade Agreement (the "Agreement"), which entered into force on March 15, 2012. This safeguard mechanism applies when, as a result of the reduction or elimination of a customs duty under the Agreement, a Korean textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In these circumstances, Article 4.1.1(b) permits the United States to (a) suspend any further reduction in the rate of duty provided for under Annex 2-B of the Agreement in the duty imposed on the article; or (b) increase duties on the imported article from

Korea to a level that does not exceed the lesser of the prevailing U.S. normal trade relations (“NTR”)/most-favored-nation (“MFN”) duty rate for the article or the U.S. NTR/MFN duty rate in effect on the day before the Agreement enters into force.

The Statement of Administrative Action accompanying the Act provides that the Committee for the Implementation of Textile Agreements (CITA) will issue procedures for requesting such safeguard measures, for making its determinations under Section 332(a) of the Act, and for providing relief under Section 332(b) of the Act. CITA was unable to publish these procedures earlier and is requesting an emergency review of the information collection and procedures from the Office of Management and Budget.

CITA must collect information in order to determine whether a domestic textile or apparel industry is being adversely impacted by imports of these products from Korea, thereby allowing CITA to take corrective action to protect the viability of the domestic textile or apparel industry, subject to section 332(b) of the Act.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* On occasion.

*Respondent's Obligation:* Voluntary.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 or via email at [Jjessup@doc.gov](mailto:Jjessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Wendy Liberante, OMB Desk Officer, Fax number (202) 395-5167 or via the Internet at [Wendy\\_L\\_Liberante@omb.gov](mailto:Wendy_L_Liberante@omb.gov).

### Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the emergency

provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* International Trade Administration (ITA).

*Title:* Interim Procedures for Considering Requests under the Commercial Availability Provision of the United States-Korea Free Trade Agreement.

*OMB Control Number:* 0625-0270.

*Type of Request:* Emergency submission (new information collection).

*Burden Hours:* 89.

*Number of Respondents:* 16.

*Average Hours per Response:* 8 hours for Request for Commercial Availability Determination; 2 hours for Response to a Request; and 1 hour for Rebuttal.

*Needs and Uses:* The United States and Korea negotiated the U.S.-Korea Free Trade Agreement (the “Agreement”), which entered into force on March 15, 2012. Subject to the rules of origin in Annex 4-A of the Agreement, pursuant to the provisions of the Agreement, textile and apparel articles must contain fiber, yarn, and fabric produced in Korea or the United States to receive duty-free tariff treatment. Appendix 4-B-1 of the Agreement will contain a list of specific fiber, yarn, or fabric that either importing Party determined, based on information supplied by interested entities, that the fiber, yarn, or fabric is not available in commercial quantities in a timely manner in its territory, or if no interested entity objects to the request. Textile and apparel articles containing these fibers, yarns, or fabrics would also be entitled to duty-free or preferential duty treatment despite not being produced in Korea or the United States.

The list of commercially unavailable fibers, yarns, and fabrics may be changed pursuant to the commercial availability provision in Chapter 4, Annex 4-B, Paragraphs 1-13 of the Agreement. Under this provision, interested entities from the United States or Korea have the right to request that a specific fiber, yarn, or fabric be added to, or removed from, the list of commercially unavailable fibers, yarns, and fabrics in Appendix 4-B-1.

Section 202(o)(3) of the Act provides that the President may modify the list of fibers, yarns and fabrics in Appendix 4-B-1 by determining whether additional fibers, yarns, or fabrics are not available in commercial quantities in a timely manner in the United States, and that the President will issue procedures governing the submission of requests and providing an opportunity for interested entities to submit comments. The President delegated the

responsibility for publishing the procedures and administering commercial availability requests to the Committee for the Implementation of Textile Agreements (CITA), which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel (OTEXA). OTEXA was unable to publish these procedures earlier and is requesting an emergency review of the information collection and procedures from the Office of Management and Budget.

CITA must collect information about fiber, yarn or fabric technical specifications and the production capabilities of U.S. textile producers to determine whether certain fibers, yarns, or fabrics are available in commercial quantities in a timely manner in the United States, subject to Section 202(o)(3) of the U.S.-Korea Free Trade Agreement Implementation Act.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* On occasion.

*Respondent's Obligation:* Voluntary.
