

Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements.

Dated: August 31, 2016.

Ron Curry,

Regional Administrator, Region 6.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart SS—Texas

■ 2. In § 52.2270(e), the table titled “EPA Approved Nonregulatory

Provisions and Quasi-Regulatory Measures in the Texas SIP” is amended by adding entries at the end for “Infrastructure and Transport SIP Revisions for the 2010 Nitrogen Dioxide Standard” and “Infrastructure and Transport SIP Revisions for the 2008 Ozone Standard” to read as follows.

§ 52.2270 Identification of plan.

* * * * *
(e) * * *

EPA APPROVED NONREGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE TEXAS SIP

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Comments
* Infrastructure and Transport SIP Revisions for the 2010 Nitrogen Dioxide Standard.	* Statewide	* 12/7/2012	* 9/9/2016, [Insert Federal Register citation].	* Approval for 110(a)(2)(A), (B), (C), (D)(i) (portions pertaining to nonattainment and interference with maintenance), D(ii), (E), (F), (G), (H), (K), (L) and (M).
* Infrastructure and Transport SIP Revisions for the 2008 Ozone Standard.	* Statewide	* 12/13/2012	* 9/9/2016, [Insert Federal Register citation].	* Approval for 110(a)(2)(A), (B), (C), (D)(i) (portion pertaining to PSD), D(ii), (E), (F), (G), (H), (K), (L) and (M).

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R01–OAR–2015–0238; FRL–9951–94–Region 1]

Air Plan Approval; Connecticut; NO_x Emission Trading Orders as Single Source SIP Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the State of Connecticut. This revision continues to allow facilities to create and/or use emission credits using NO_x Emission Trading and Agreement Orders (TAOs) to comply with the NO_x emission limits required by Regulations of Connecticut State Agencies (RCSA) section 22a-174–22 (Control of Nitrogen Oxides). The intended effect of this action is to approve the individual trading orders to allow facilities to determine the most cost-effective way to comply with the state regulation. This action is being taken in accordance with the Clean Air Act (CAA).

DATES: This final rule is effective on October 11, 2016.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R01–OAR–2015–0238. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Donald Dahl, Air Permits, Toxics, and Indoor Programs Unit, Office of Ecosystem Protection, U.S. Environmental Protection Agency, EPA New England Regional Office, 5 Post Office Square, Suite 100, (OEP05–2), Boston, MA 02109–3912, phone number (617) 918–1657, fax number (617) 918–0657, email Dahl.Donald@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

Table of Contents

- I. Summary of SIP Revision
- II. Final Action
- III. Statutory and Executive Order Reviews

I. Summary of SIP Revision

On November 15, 2011, the Connecticut Department of Energy and

Environmental Protection (CT DEEP) submitted a formal revision to its State Implementation Plan (SIP). This SIP revision consists of eighty-nine source-specific Trading Agreement and Orders (TAOs) that allow twenty-four individual stationary sources of nitrogen oxide (NO_x) emissions to create and/or trade NO_x emission credits in order to ensure more effective compliance with EPA SIP-approved state regulations for reducing NO_x emissions. We previously approved source-specific TAOs of the same kind issued by CT DEEP under this program for these same sources on September 28, 1999 (64 FR 52233), March 23, 2001 (66 FR 16135), and September 9, 2013 (78 FR 54962). The November 15, 2011 SIP submittal also includes Consent Order 8029A issued to Hamilton Sundstrand which addresses Volatile Organic Compound (VOC) emissions.

On June 15, 2016 (81 FR 38999) EPA published a notice of proposed rulemaking (NPR) for the State of Connecticut’s 2011 SIP revision submittal, proposing approval of the TAOs, except for Consent Order 8029A. The NPR also proposed approval of the revised TAO 8110A issued to Yale University. This TAO was originally submitted as part of a July 1, 2004 SIP revision from Connecticut, and was modified by CT DEEP on May 29, 2015.

The rationale supporting EPA’s proposed rulemaking action is explained in the published NPR. The NPR is available in the docket for this

rulemaking at www.regulations.gov, Docket ID Number EPA-R01-OAR-2015-0238. EPA did not receive any public comments on the NPR.

II. Final Action

The EPA is approving into the Connecticut SIP the 89 TAOs contained in the State of Connecticut's 2011 SIP revision request as well as the revised TAO 8110A for Yale University.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as

appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804, however, exempts from section 801 the following types of rules: Rules of particular applicability; rules relating to agency management or personnel; and Rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. 5 U.S.C. 804(3). Because this is a rule of particular applicability, EPA is not required to submit a rule report regarding this action under section 801.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 8, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Reporting and recordkeeping requirements.

Dated: August 17, 2016.

H. Curtis Spalding,

Regional Administrator, EPA New England.

Part 52 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart H—Connecticut

- 2. Section 52.377 is amended by adding paragraph (m)(2) to read as follows:

§ 52.377 Control Strategy: Ozone.

* * * * *

(m) * * *

(2) Revisions to the State Implementation Plan submitted by the Connecticut Department of Energy and Environmental Protection on November 15, 2011 and July 1, 2004. The revisions consist of 90 single source emission trading orders necessary for satisfying Reasonable Available Control Technology requirements for nitrogen oxides during specific time periods.

(i) Trading Agreement and Order No. 8093C, Modification No. 2 issued to Pfizer in Groton.

(ii) Trading Agreement and Order No. 8093C, Modification No. 3 issued to Pfizer in Groton.

(iii) Trading Agreement and Order No. 8136A, Modification No. 1 issued to Pfizer in Groton.

(iv) Trading Agreement and Order No. 8136A, Modification No. 2 issued to Pfizer in Groton.

(v) Trading Agreement and Order No. 8296 issued to Pfizer in Groton.

(vi) Trading Agreement and Order No. 8109, Modification No. 1 issued to Hamilton Sundstrand Corporation in Windsor Locks.

(vii) Trading Agreement and Order No. 8109, Modification No. 2 issued to Hamilton Sundstrand Corporation in Windsor Locks.

(viii) Trading Agreement and Order No. 8109, Modification No. 3 issued to Hamilton Sundstrand Corporation in Windsor Locks.

(ix) Trading Agreement and Order No. 8291 issued to Hamilton Sundstrand Corporation in Windsor Locks.

(x) Trading Agreement and Order No. 8291, Modification No. 1 issued to Hamilton Sundstrand Corporation in Windsor Locks.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2010-0861; FRL-9950-32-Region 6]

Approval and Promulgation of Implementation Plans; Texas; Revisions to the General Definitions for Texas New Source Review and the Minor NSR Qualified Facilities Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving and disapproving portions of revisions to the Texas State Implementation Plan (SIP) pertaining to the Texas New Source Review (NSR) program submitted on March 13, 1996; July 22, 1998; September 11, 2000; September 4, 2002; and October 5, 2010. Specifically, the EPA is approving the severable portions of the amendments to the General Definitions for the Texas NSR program, and the Minor NSR Qualified Facilities Program. The EPA is disapproving a severable portion of the General Definition of “modification of existing facility” submitted on October 5, 2010. We are taking these actions under section 110, parts C and D of the Clean Air Act (CAA).

DATES: This rule is effective on October 11, 2016.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2010-0861. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the EPA Region 6, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733.

FOR FURTHER INFORMATION CONTACT: Ms. Adina Wiley, (214) 665-2115, wiley.adina@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” means the EPA.

I. Background

The background for this action is discussed in detail in our May 2, 2016 proposal. See 81 FR 26180. In that document we proposed to approve the Texas Qualified Facilities Program as a component of the Texas Minor NSR program as submitted on October 5, 2010. We also proposed to approve several updates to the General Definitions for Permitting submitted from July 22, 1998 through October 5, 2010, with one exception. We proposed to disapprove the severable portion of the definition of “modification of existing facility” pertaining to modifications made at natural gas processing facilities without a case-by-case permit as submitted on October 5, 2010. We received comments from three parties; our response to the comments received on our proposed action are summarized below.

II. Response to Comments

Comment: We received two supportive comment letters from the Texas Commission on Environmental Quality (TCEQ) and the Texas Chemical Council, wherein the commenters reiterated the objectives of the proposed rulemaking and expressed support for the EPA finalizing as proposed.

Response: The EPA appreciates the support of the commenters. No changes were made to the proposed rule as a result of these comments.

Comment: The Lone Star Chapter of the Sierra Club submitted several comments regarding anti-backsliding requirements of the CAA. First, the commenter generally opposed any weakening in the Texas SIP if it fails to meet the anti-backsliding requirements of the CAA section 110(l) and stated that backsliding must not be allowed by the EPA in the Texas SIP. Second, the commenter provided a link to the TCEQ Agenda Item Request for the SIP Revision Adoption of the Houston-Galveston-Brazoria (HGB) Area Redesignation Substitute for the 1997 Eight-Hour Ozone National Ambient Air Quality Standard (NAAQS). The commenter stated that “If Sierra Club understands this Texas SIP change correctly, part of the proposal would significantly change the threshold for emissions that would trigger such controls/trading. The netting trigger would increase substantially (from 5 to 40), a major source would change from
