SUPPLEMENTARY INFORMATION:

I. Background

We are announcing the availability of a revised draft guidance for industry entitled “Health Document Submission Requirements for Tobacco Products.” We are issuing this draft guidance consistent with our good guidance practices (GGP) regulation (21 CFR 10.115). The draft guidance, when finalized, is intended to assist persons making certain document submissions to FDA as required by the Tobacco Control Act.

The Tobacco Control Act, enacted on June 22, 2009, amends the FD&C Act and provides FDA with the authority to regulate the manufacture, marketing, and distribution of tobacco products to protect the public’s health (Pub. L. 111–31). Among other things, the Tobacco Control Act adds section 904(a)(4) to the FD&C Act (21 U.S.C. 387d(a)(4)), requiring each tobacco product manufacturer or importer, or agents thereof to submit all documents developed after June 22, 2009, that relate to any “health, toxicological, behavioral, or physiological effects of current or future tobacco products, their constituents (including smoke constituents), ingredients, components, and additives.”

The revised draft guidance includes guidance for manufacturers or importers of products that are newly deemed as tobacco products that are subject to Chapter IX of the Federal Food, Drug, and Cosmetic Act (the FD&C Act). Cigarettes, cigarette tobacco, roll-your-own tobacco, and smokeless tobacco were immediately subject to the tobacco provisions of the FD&C Act, including section 904(a)(4), and to FDA’s regulatory authority. As for other types of tobacco products, section 901(b) of the FD&C Act (21 U.S.C. 387a) grants FDA authority to deem those products subject to the law as well. Pursuant to that authority, FDA issued a rule deeming all other products that meet the statutory definition of “tobacco product”, set forth in section 201(rr) of the FD&C Act, except for accessories of those products, as subject to the FD&C Act (81 FR 28974). FDA published the

final rule on May 10, 2016 (81 FR 28974), and it became effective on August 8, 2016. Manufacturers and importers of tobacco products that have been deemed subject to the FD&C Act are now required to comply with Chapter IX of the FD&C Act, including section 904(a)(4).

II. Significance of Guidance

FDA is issuing this revised draft guidance consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, represents the current thinking of FDA on health document submission requirements. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

This revised draft guidance also refers to previously approved collections of information found in FDA statute. The revised draft guidance includes information and recommendations for how to provide health document submissions. The collections of information in section 904(a)(4) of the FD&C Act have been approved under OMB control number 0910–0654.

IV. Electronic Access

Persons with access to the Internet may obtain an electronic version of the draft guidance at either <http://www.regulations.gov> or <http://www.fda.gov/TobaccoProducts/Labeling/RulesRegulationsGuidance/default.htm>.

Dated: August 31, 2016.

E17 General Principles for Planning and Design of Multi-Regional Clinical Trials; International Council for Harmonisation; Draft Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a draft

guidance entitled “E17 General Principles for Planning and Design of Multi-Regional Clinical Trials.” The draft guidance was prepared under the auspices of the International Council for Harmonisation (ICH), formerly the International Conference on Harmonisation. The draft guidance describes general principles for planning and designing multi-regional clinical trials (MRCT). MRCTs conducted according to the guidance will investigate treatment effects in overall populations with multiple ethnic factors (intrinsic and extrinsic factors as described in the ICH guidance entitled “E5 Ethnic Factors in the Acceptability of Foreign Clinical Data” (E5 guidance)) and evaluate the consistency of treatment effects across populations. The draft guidance is intended to increase the acceptability of data from MRCTs as the primary source of evidence supporting marketing approval in global regulatory submissions and to thereby facilitate more efficient drug development and earlier access to medicines.

DATES: Although you can comment on any guidance at any time (see 21 CFR 10.115(g)(5)), to ensure that the Agency considers your comment on this draft guidance before it begins work on the final version of the guidance, submit either electronic or written comments on the draft guidance by November 8, 2016.
