SUPPLEMENTARY INFORMATION:
A. Need For and Use of the Information Collection

The NSMO is a recurring quarterly survey of individuals who have recently obtained a loan secured by a first mortgage on single-family residential property. The survey questionnaire is sent to a representative sample of approximately 6,000 recent mortgage borrowers each calendar quarter and typically consists of between 90 and 95 multiple choice and short answer questions designed to obtain information about borrowers’ experiences in choosing and in taking out a mortgage. The questionnaire may be completed either on paper or electronically online, where it is available in both English and Spanish. A copy of the most recent NSMO questionnaire appears at the end of this document. 1

The NSMO is one component of a larger project, known as the “National Mortgage Database” (NMDB) Project, which is a multi-year joint effort of FHFA and the Consumer Financial Protection Bureau (CFPB) (although the NSMO is sponsored only by FHFA). The NMDB Project was created, in part, to satisfy the Congressionally-mandated requirements of section 1324(c) of the Federal Housing Enterprises Safety and Soundness Act of 1992, as amended by the Housing and Economic Recovery Act of 2008 (Safety and Soundness Act). 2 Section 1324(c) requires that FHFA conduct a monthly survey to collect data on the characteristics of individual prime and subprime mortgages, and on the borrowers and properties associated with those mortgages, in order to enable it to prepare a detailed annual report on the mortgage market activities of the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac) for review by the appropriate Congressional oversight committees. Section 1324(c) also authorizes and requires FHFA to compile a database of timely and otherwise unavailable residential mortgage market information to be made available to the public.

In order to fulfill those and other statutory mandates, as well as to
