

outstanding warrants, options, and rights at the time of issuance will not exceed 20% of the outstanding voting securities of the BDC.

3. Applicant represents that its proposal to grant certain stock options to Eligible Directors under the Director Plan meets all the requirements of section 61(a)(3) of the Act. Applicant states that the Board is actively involved in the oversight of Applicant's affairs and that it relies extensively on the judgment and experience of its Board. In addition to their duties as Board members generally, Applicant states that the Eligible Directors provide guidance and advice on financial and operational issues, credit and loan policies, asset valuation and strategic direction, as well as serving on committees. Applicant believes that the availability of options under the Director Plan will provide significant at-risk incentives to Eligible Directors to remain on the Board and devote their best efforts to ensure Applicant's success. Applicant states that the options will provide a means for the Eligible Directors to increase their ownership interests in Applicant, thereby ensuring close alignment of their interests with those of Applicant and its stockholders. Applicant asserts that by providing incentives such as options, Applicant will be better able to maintain continuity in the Board's membership and to attract and retain the highly experienced, successful and motivated business and professional people who are critical to Applicant's success as a BDC.

4. As noted above, Applicant states that the amount of voting securities that would on the Order Date result from the grant of all restricted stock issued or issuable under the 2009 Restricted Stock Plan and 2015 Restricted Stock Plan and the exercise of all outstanding options issued or issuable to the directors, officers, and employees under the Director Plan, 2006 Amended Director Plan, the 2006 Employee Plan and the 1996 Employee Plan would be 2,179,871 shares of Applicant's common stock, or approximately 8.95% of Applicant's shares of common stock outstanding on December 31, 2015, which is below the percentage limitations in the Act. Applicant asserts that, given the relatively small amount of common stock issuable to Eligible Directors upon their exercise of options under the Director Plan, the exercise of such options would not, absent extraordinary circumstances, have a substantial dilutive effect on the net asset value of Applicant's common stock.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Robert W. Errett,

Deputy Secretary.
