Dated: September 12, 2016.
M.B. Zamperini,
Captain, U.S. Coast Guard, Captain of the Port Ohio Valley.

DEPARTMENT OF HOMELAND SECURITY
Coast Guard

33 CFR Part 117
[Docket No. USCG–2016–0674]

Drawbridge Operation Regulation; South Branch of the Elizabeth River, Atlantic Intracoastal Waterway, Chesapeake, VA

AGENCY: Coast Guard, DHS.
ACTION: Notice of deviation from drawbridge regulation.
SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Gilmerton (US13/460) Bridge across the South Branch of the Elizabeth River, mile 5.8, on the Atlantic Intracoastal Waterway, Chesapeake, VA. This deviation is necessary to avoid bridge failure and perform emergency bridge repairs. This deviation allows the bridge to remain in the closed-to-navigation position.
DATES: This deviation is effective without actual notice from September 16, 2016 through 5 a.m. on September 19, 2016. For the purposes of enforcement, actual notice will be used from September 13, 2016 at 9 a.m., until September 16, 2016.
ADDRESSES: The docket for this deviation, [USCG–2016–0674] is available at http://www.regulations.gov. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.
FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Hal R. Pitts, Bridge Administration Branch Fifth District, Coast Guard, telephone 757–398–6222, email Hal.R.Pitts@uscg.mil.

SUPPLEMENTARY INFORMATION: The City of Chesapeake, that owns and operates the Gilmerton (US13/460) Bridge, across the South Branch of the Elizabeth River, mile 5.8, on the Atlantic Intracoastal Waterway, at Chesapeake, VA, has requested a temporary deviation from the current operating regulations to avoid bridge failure and perform emergency repairs to the bridge due to failure of operating mechanism components, requiring non-standard manual operation of the bridge until repair is completed. The bridge is a vertical lift draw bridge and has a vertical clearance in the closed position of 36 feet above mean high water. The vertical clearance of the bridge in the open-to-navigation position of 136 feet above mean high water will be reduced to approximately 110 feet above mean high water from 5 p.m. on September 16, 2016, through 5 a.m. on September 19, 2016.

The current operating schedule is set out in 33 CFR 117.997(c). Under this temporary deviation, the bridge will remain in the closed-to-navigation position, except for scheduled openings at 9 a.m., noon, 3 p.m. and 7 p.m., Monday through Friday; and 9 a.m. and 3 p.m. on Saturday and Sunday. The scheduled openings at 9 a.m. and 3 p.m. on Saturday and Sunday, September 17, 2016, and September 18, 2016; and emergency openings from 9 p.m. on September 16, 2016, through 5 a.m. on September 19, 2016, will provide a reduced vertical clearance of approximately 110 feet above mean high water.

The South Branch of the Elizabeth River is used by a variety of vessels including U.S. government and public vessels, commercial vessels, tug and barge traffic, and recreational vessels. The Coast Guard has carefully coordinated the restrictions with waterway users in publishing this temporary deviation.

Vessels able to safely pass through the bridge in the closed position may do so at any time. On Saturday and Sunday, September 17, 2016, and September 18, 2016, vessels able to safely pass through the bridge in the closed position should contact the bridge tender to ensure safe passage through the bridge. There is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The bridge will open on signal for emergency vessels, if at least one hour notice is given. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 13, 2016.

Hal R. Pitts,
Bridge Program Manager, Fifth Coast Guard District.

[Docket No. USCG–2016–0866]

Drawbridge Operation Regulation; James River, Isle of Wight and Newport News, VA

AGENCY: Coast Guard, DHS.
ACTION: Notice of deviation from drawbridge regulation.
SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the James River Bridge (US17) across the James River, mile 5.0, at Isle of Wight and Newport News, VA. The deviation is necessary to perform bridge maintenance and repairs. This deviation allows the bridge to remain in the closed-to-navigation position.
DATES: This deviation is effective from 5 a.m. on September 19, 2016, to 7 p.m. on October 16, 2016.
ADDRESSES: The docket for this deviation, [USCG–2016–0866] is available at http://www.regulations.gov. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.
FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Hal R. Pitts, Bridge Administration Branch Fifth District, Coast Guard, telephone 757–398–6222, email Hal.R.Pitts@uscg.mil.

SUPPLEMENTARY INFORMATION: The Virginia Department of Transportation, that owns and operates the James River Bridge (US17), across the James River, mile 5.0, at Isle of Wight and Newport News, VA, has requested a temporary deviation from the current operating regulations to perform repairs to the aerial electrical cable connecting the north tower to the south tower. The bridge is a vertical lift draw bridge and has a vertical clearance in the closed position of 60 feet above mean high water.

The current operating schedule is open on signal as set out in 33 CFR 117.5. Under this temporary deviation, the bridge will remain in the closed-to-
navigation position from 5 a.m. to 7 p.m. from September 19, 2016, through September 30, 2016; with alternate dates from October 1, 2016, through October 16, 2016. During this temporary deviation, the bridge will operate per 33 CFR 117.5 from 7 p.m. to 5 a.m.

The James River is used by a variety of vessels including deep draft ocean-going vessels, U.S. government vessels, small commercial vessels, recreational vessels and tug and barge traffic. The Coast Guard has carefully coordinated the restrictions with waterway users.

During closure periods a 55-foot by 150-foot crane barge will be positioned alongside the bridge at various locations within the main navigation span of the bridge with the centerline of the barge perpendicular to the bridge. Vessels able to safely pass through the bridge in the closed position with the crane barge positioned alongside the bridge may do so at anytime. Vessels planning to transit through the bridge in the closed position with the crane barge positioned alongside the bridge shall contact the bridge tender to request information concerning the position of the crane barge to ensure safe passage.

Vessels able to safely pass through the bridge in the closed position that require the crane barge to clear the main navigation span of the bridge, may do so at noon, daily, if at least two hours advance notice is given to the bridge tender. The bridge will open on signal for vessels that require an opening of the bridge and are unable to transit through the bridge during non-closure times due to draft and/or daylight restrictions, if notice is provided by 5 p.m. the day before the required bridge opening. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transit to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 13, 2016.

Hal R. Pitts,
Bridge Program Manager, Fifth Coast Guard District.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[81 FR 63701, September 16, 2016; 40 CFR 52.21]

Approval and Promulgation of Air Quality Implementation Plans; Maryland; Control of Volatile Organic Compounds Emissions From Fiberglass Boat Manufacturing Materials; Withdrawal of Direct Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to the receipt of a comment, the Environmental Protection Agency (EPA) is withdrawing the direct final rule published on August 1, 2016, to approve the State of Maryland’s adoption of the requirements in EPA’s control technique guidelines (CTG) for fiberglass boat manufacturing materials.

DATES: The direct final rule published at 81 FR 50336 on August 1, 2016, is withdrawn effective September 16, 2016.

FOR FURTHER INFORMATION CONTACT: Gavin Huang, (215) 814–2042, or by email at huang.gavin@epa.gov.

SUPPLEMENTARY INFORMATION:

In the direct final rule published on August 1, 2016 (81 FR 50336), we stated that if we received comment by August 31, 2016, the rule would be withdrawn and not take effect. EPA received a comment before the August 31, 2016, deadline. EPA will address the comment received in a subsequent final action based upon the proposed action also published on August 1, 2016 (81 FR 50427). EPA will not institute a second comment period on this action.

List of Subjects in 40 CFR Part 52

Dated: September 6, 2016.

Shawn M. Garvin, Regional Administrator, Region III.

Accordingly, the direct final rule which published in the Federal Register on August 1, 2016, at 81 FR 50336 is withdrawn as of September 16, 2016.

[81 FR 63701, September 16, 2016; 40 CFR 52.21]

Air Plan Approval; Alabama: Volatile Organic Compounds

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a portion of a revision to the Alabama State Implementation Plan (SIP) submitted by the Alabama Department of Environmental Management (ADEM) on May 8, 2013. The revision modifies the definition of “volatile organic compounds” (VOC). Specifically, the revision adds one compound to the list of those excluded from the VOC definition on the basis that this compound makes a negligible contribution to tropospheric ozone formation. This action is being taken pursuant to the Clean Air Act (CAA or Act).

DATES: This direct final rule is effective November 15, 2016 without further notice, unless EPA receives adverse comment by October 17, 2016. If EPA receives such comments, it will publish a timely withdrawal of the direct final rule in the Federal Register and inform the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R04–OAR–2016–0473 at http://www.regulations.gov. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit
