DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials
Safety Administration

[Docket No. PHMSA–2016–0110; Notice No.
2016–18]

Hazardous Materials: Damaged,
Defective, Recalled Lithium Cells
or Batteries or Portable Electronic
Devices

AGENCY: Pipeline and Hazardous
Materials Safety Administration
(PHMSA), DOT.

ACTION: Safety advisory notice.

SUMMARY: The Pipeline and Hazardous
Materials Safety Administration
(PHMSA) is issuing a safety advisory notice to inform the public of the risks associated with transporting damaged, defective, or recalled lithium cells or batteries or portable electronic devices (PEDs), including Samsung Galaxy Note 7 smartphone devices recently recalled by the U.S. Consumer Product Safety Commission’s (CPSC) [Recall No. 16–266]. PHMSA is issuing this safety advisory notice in conjunction with the CPSC recall to advise members of the public who wish to carry Samsung Galaxy Note 7 subject to CPSC Recall no. 16–266 aboard aircraft that they must take all of the following precautions:

- Turn off the device;
- Disconnect the device from any charging equipment;
- Disable all applications that could inadvertently activate the phone (e.g., alarm clock);
- Protect the power switch to prevent its unintentional activation; and

- Keep the device in carry-on baggage or on your person. (Do not place in checked baggage.)

FOR FURTHER INFORMATION CONTACT:
Kevin Leary, Standards and Rulemaking
Division, Pipeline and Hazardous
Materials Safety Administration,
telephone: (202) 366–8553.

SUPPLEMENTARY INFORMATION:
Carriage Aboard Aircraft by Passengers
and Crew

- Passengers or crew may only carry portable electronic devices on aircraft under the conditions of § 175.10(a)(18) of the HMR. Except as detailed below, electrical devices, such as batteries and battery-powered devices, which are likely to create sparks or generate a dangerous evolution of heat must not be transported in passenger or cargo aircraft, whether as cargo, carry-on, or in checked baggage, unless packaged in a manner that would preclude such an occurrence. On September 2, 2016, Samsung issued a statement to consumers regarding the Samsung Galaxy Note 7. According to CPSC, “Samsung has received 92 reports of the batteries overheating in the U.S., including 26 reports of burns and 55 reports of property damage, including fires in cars and a garage.” Consequently, as a safety measure, CPSC has urged consumers to turn off, stop charging, and stop using these devices, and the FAA has advised such devices be turned off and not used or charged aboard aircraft and not be placed in checked baggage.

Federal hazardous materials
transportation law (49 U.S.C. 5101–
5128) authorizes the Secretary of
Transportation (Secretary) to “prescribe regulations for the safe transportation, including security, of hazardous materials in intrastate, interstate, and foreign commerce.” The Secretary delegated this authority to PHMSA in 49 CFR 1.97(b). In accordance with § 173.21(c) of the HMR, electrical devices such as batteries and battery-powered devices, which are likely to create sparks or generate a dangerous evolution of heat, are forbidden for transportation unless packaged in a manner which precludes such an occurrence. Therefore, passengers or crew may only transport on board an aircraft a Samsung Galaxy Note 7 powered device, such as batteries and battery-powered devices, which are likely to create sparks or generate a dangerous evolution of heat must not be transported in passenger or cargo aircraft, whether as cargo, carry-on, or in checked baggage, unless packaged in a manner that would preclude such an occurrence. On September 2, 2016, Samsung issued a statement to consumers regarding the Samsung Galaxy Note 7. According to CPSC, “Samsung has received 92 reports of the batteries overheating in the U.S., including 26 reports of burns and 55 reports of property damage, including fires in cars and a garage.” Consequently, as a safety measure, CPSC has urged consumers to turn off, stop charging, and stop using these devices, and the FAA has advised such devices be turned off and not used or charged aboard aircraft and not be placed in checked baggage.

DEPARTMENT OF THE TREASURY

Submission for OMB Review;
Comment Request

September 19, 2016.

The Department of the Treasury will submit the following information collection requests to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of
Bureau of the Fiscal Service

OMB Control Number: 1530–0013.

Type of Review: Revision of a currently approved collection.

Title: FS Form 2887, Application Form for U.S. Department of the Treasury Stored Value Card (SVC) Program.

Abstract: FS Form 2887 is used to enroll individuals in the Treasury SVC program; to obtain authorization to initiate debit and credit entries to individual’s accounts; and to facilitate collection of any delinquent amounts.

Affected Public: Individuals or households.

Estimated Total Annual Burden Hours: 10,001.

OMB Control Number: 1530–0012.

Type of Review: Extension of a currently approved collection.

Title: FS Form 2888, Application Form for U.S. Department of Treasury Accountable Official Stored Value Card (SVC).

Abstract: FS Form 2888 is used to collect information from accountable officials requesting enrollment in the Treasury SVC program in their official capacity, to obtain authorization to initiate debit and credit entries to their bank or credit union accounts to load value on the cards, and to facilitate collection of any delinquent amounts that may become due and owing as a result of the use of the cards.

Affected Public: Individuals or households.

Estimated Total Annual Burden Hours: 1,250.

Brenda Simms,
Treasury PRA Clearance Officer.
