SUPPLEMENTARY INFORMATION:

Title: Core Principles and Other Requirements for Swap Execution Facilities (OMB Control No. 3038-0074). This is a request for extension of a currently approved information collection.

Abstract: Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) added

new section 5h to the Commodity Exchange Act (CEA) to impose requirements concerning the registration and operation of SEFs, which the Commission has incorporated in part 37 of its regulations.¹ These information collections are needed for the Commission to ensure that SEFs registered with the Commission (and entities applying for SEF registration) comply with these requirements. Among other requirements, part 37 of the Commission's regulations imposes SEF registration requirements for a trading platform or system, obligates SEFs to provide transaction confirmations to swap counterparties, and requires SEFs to comply with 15 enumerated core principles.²

The Commission initially estimated that there would be 35 SEFs registered with the Commission, but in the 60-Day Notice of Intent to Renew Collection 3038-0074 (60-Day Renewal Notice), the Commission stated that 22 SEFs, rather than 35 SEFs as initially estimated, were registered with the Commission.³ However, since the publication of the 60-Day Renewal Notice, the Commission has granted permanent registration to an additional SEF, for a total of 23 registered SEFs.⁴ Accordingly, the Commission is revising the below burden statement from the 60-Day Renewal Notice to account for the increase from 22 to 23 registered SEFs.

The Commission did not receive any relevant comments on the 60-Day Renewal Notice.

¹ In general, this OMB Control Number covers all information collections in part 37 of the Commission's regulations, including Subpart A and the SEF core principles (*i.e.*, Subparts B and C). However, any information collections related to § 37.10 of the Commission's regulations are not included under this control number and are instead subject to a separate information collection with OMB Control Number 3038-0099 (Process for a Swap Execution Facility or Designated Contract Market to Make a Swap Available to Trade).

² These 15 core principles establish standards with respect to SEFs: Enforcing rules; listing contracts for trading that are not readily susceptible to manipulation; monitoring trading to prevent market manipulation; obtaining information; adopting position limits or position accountability levels; adopting rules to enforce financial integrity of swaps transactions entered on or through the SEF; adopting rules to provide for the exercise of emergency authority, in consultation with the Commission; making public information regarding prices and volume on a timely basis; maintaining records of all activities of the business of the contract market in a form and manner acceptable to the Commission for five years; avoiding rules that result in unreasonable restraints of trade or anticompetitive burden on trading; enforcing rules to minimize conflicts of interest in its decision-making process; maintaining adequate financial resources; establishing system safeguards; and designating a chief compliance officer.

³ See 81 FR 47779, 47780 (July 22, 2016).

⁴ Commission granted permanent registration to the additional SEF on August 23, 2016.
