

gender, and ethnicity of existing, reportable interest holders; the use of a unique identifier; and the biennial filing requirement. In addition, the 323/CORES Order and Reconsideration Order makes a number of significant changes to the Commission's reporting requirements that reduce the filing burdens on broadcasters, streamline the process, and improve data quality. These enhancements will enable the Commission to obtain data reflecting a more useful, accurate, and thorough assessment of minority and female broadcast station ownership in the United States while reducing certain filing burdens.

Licensees of noncommercial educational AM, FM, and television broadcast stations must file FCC Form 2100, Schedule 323-E (formerly FCC Form 323-E) every two years. Pursuant to the new filing procedures adopted in the 323/CORES Order and Reconsideration Order, Form 2100, Schedule 323-E shall be filed by December 1 in all odd-numbered years. Biennial Ownership Reports shall provide information accurate as of October 1 of the year in which the Report is filed.

In addition, Licensees and Permittees of noncommercial educational AM, FM, and television stations must file Form 2100, Schedule 323-E following the consummation of a transfer of control or an assignment of a noncommercial educational AM, FM, or television station license or construction permit; a Permittee of a new noncommercial educational AM, FM, or television station must file Form 2100, Schedule 323-E within 30 days after the grant of the construction permit; and a Permittee of a new noncommercial educational AM, FM, or television station must file Form 2100, Schedule 323-E to update the initial report or to certify the continuing accuracy and completeness of the previously filed report on the date that the Permittee applies for a license to cover the construction permit.

In the case of organizational structures that include holding companies or other forms of indirect ownership, a separate Form 2100, Schedule 323-E must be filed for each entity in the organizational structure that has an attributable interest in the Licensee or Permittee.

Synopsis

1. On December 29, 2014, the Committee was established for a period of two years from the original charter date. The Commission anticipates that the Committee will hold the final meeting of its current term on December 6, 2016. Thereafter the Committee's charter and all member appointments will terminate on December 29, 2016. The Commission anticipates that the Committee's charter will be renewed for another two-year term. The Committee will operate in accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. 2 (1988). Each meeting of the Committee will be open to the public. A notice of each meeting will be published in the **Federal Register** at least fifteen days in advance of the meeting. Records will be maintained of each meeting and made available for public inspection. More information about the Committee's recommendations and subcommittees may be found at its Web site: <https://www.fcc.gov/general/disability-advisory-committee>.

2. The Committee, which was created under the Federal Advisory Committee Act, provides a vehicle for consumers and other stakeholders to provide feedback and recommendations to the Commission on a wide array of disability issues within the FCC's jurisdiction. In addition to keeping the Commission apprised of current and evolving communications accessibility issues for persons with disabilities, recommendations from the Committee have enabled the FCC to build on its record of ensuring access to communications and video programming for people with

disabilities. Some of the issues the Committee has addressed, and will continue to address, include telecommunications relay services, closed captioning, video description, access to emergency information on television and telephone emergency services, device accessibility, IP and other technology transitions, and the National Deaf-Blind Equipment Distribution Program. When renewed, the Committee will also address new accessibility issues that arise.

3. The Commission seeks applications from interested consumer organizations, industry and trade associations, corporations, governmental entities, and individuals that wish to be considered for membership on the Committee. Selections will be made on the basis of factors such as expertise and diversity of viewpoints that are necessary to effectively address the questions before the Committee. The Commission will determine the appropriate Committee size necessary to effectively accomplish the Committee's work. The Commission expects that on an annual basis the Committee will meet in Washington, DC for a minimum of three one-day meetings, all of which will be fully accessible to individuals with disabilities. In addition, working groups or subcommittees will be established as needed to facilitate the Committee's work between meetings of the full Committee. Working group and subcommittee deliberations will be conducted primarily through email and teleconference/videoconference meetings.

4. Members must be willing to commit to a two-year term of service, should be willing and able to attend three one-day meetings per year in Washington, DC, and will also be expected to participate in deliberations of at least one working group or subcommittee. The time commitment to each working group or subcommittee may be substantial. The Commission does not provide payment or honoraria to members, and generally does not reimburse members for travel expenses, although it may have very limited funds to partially reimburse travel expenses of members who demonstrate need.

5. Some applicants possessing expertise or perspectives of interest to the Committee, and who will serve on the Committee in an individual capacity (and not as the representative of a corporation, nonprofit, or other entity), are deemed to be Special Government Employees (SGEs). Such individuals are ineligible to serve if they are federally registered lobbyists. In addition, although all individuals serving on the Committee or its working groups,

whether representatives or SGEs, can have personal or financial interests in their individual capacities that could create a conflict with the work of the Disability Advisory Committee if not properly addressed in consultation with the Commission's Office of General Counsel, SGEs specifically are subject to a variety of restrictions under the conflict of interest statutes, 18 U.S.C. 203 *et seq.*, and the Standards of Ethical Conduct for Employees of the Executive Branch, 5 CFR 2635. While not subject to those ethics restrictions to the same extent as more typical government employees because there are exceptions and waiver provisions available only to SGEs, SGEs do have to file confidential employee financial disclosure forms prior to beginning their service and annually thereafter. SGEs will also be subject to ethics restrictions in section 4(b) of the Communications Act, 47 U.S.C. 154(b), and in the Commission's rules, 47 CFR 19, 5 CFR 3901 and 3902.
