

216.103 as “. . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.”

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

### Summary of Request

On September 14, 2016, NMFS received an adequate and complete application from the AAC requesting authorization for the take of marine mammals incidental to space vehicle and missile launch activities from the Pacific Spaceport Complex Alaska (PSCA) for a period of five years. Space vehicle and missile launch activities have the potential to result in take of pinnipeds on nearby haul outs. Therefore, AAC requests authorization to take marine mammals that may occur in these areas, including Steller sea lions (*Eumatopias jubatus*) and harbor seals (*Phoca vitulina richardii*).

### Specified Activities

AAC is proposing to launch small to medium space launch vehicles from the PSCA. PSCA may also launch a number of smaller missile systems, such as tactical or target vehicles. AAC anticipates the ability to accommodate nine launches per year.

### Information Solicited

Interested persons may submit information, suggestions, and comments concerning AAC’s request (see **ADDRESSES**). Comments should be supported by data or literature citations as appropriate. We will consider all relevant information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by AAC, if appropriate.

**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact John LeMaster, 202–245–6218.

**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand the Department’s information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in

public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Measures and Methods for the National Reporting System for Adult Education.

*OMB Control Number:* 1830–0027.

*Type of Review:* An extension of an existing information collection.

*Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 57.

*Total Estimated Number of Annual Burden Hours:* 5,700.

*Abstract:* Title II of the Workforce Innovation and Opportunity Act of 2014 (WIOA—Pub. L. 113–128), entitled the Adult Education and Family Literacy Act (AEFLA), was enacted on July 22, 2014. AEFLA creates a partnership among the Federal government, States, and localities to provide, on a voluntary basis, adult education and literacy services. Section 116 of WIOA requires States and Local Areas that operate the six core programs of the workforce development system to comply with common performance accountability requirements for those programs. In addition to the WIOA Joint Performance ICR, ED’s Office of Career, Technical, and Adult Education (OCTAE) has modified its previously-approved ICR, used by States for performance reporting under the Workforce Investment Act of 1998 (WIA) through the National Reporting System for Adult Education (NRS ICR), to conform to the new requirements under WIOA. The NRS ICR obtains aggregate data annually from States using a set of data tables developed by ED (OMB Control No. 1830–0027).

Through this proposal, the Department is submitting a revised NRS ICR to include additional data collection elements consistent with the WIOA performance accountability requirements for the AEFLA program. These new requirements will become effective July 1, 2017. Thus, for purposes of the AEFLA program, States will be required to complete and submit annually to OCTAE the WIOA Annual Statewide Performance Report Template

(in the Joint Performance ICR) and the aggregate data tables in the revised NRS ICR under OMB Control No. 1830-0027.

This revised NRS ICR contains 17 tables, two of which are required only for States that offer distance education; one optional table; two financial reports; one narrative report; and one data quality checklist. These tables and report forms are included in the document titled "Adult Education and Family Literacy Act (AEFLA) Reporting Tables." States include in the tables all participants in programs (1) that meet the purposes of AEFLA, and (2) for which expenditures are reported on the Federal Financial Report. In June 2016, OMB approved the data collection required by AEFLA (OMB 1830-0027) by approving non-substantive changes that conformed to the performance accountability requirements in WIOA section 116. OCTAE is requesting an extension of this approval, with proposed minor changes in order to obtain a more accurate reporting of participants served in the various AEFLA activities, services, and programs that support the purposes of AEFLA. These minor enhancements will increase the efficiency of the data collection process and ensure the quality of the data that States report.

## DEPARTMENT OF ENERGY

[OE Docket No. EA-184-C]

### Application To Export Electric Energy; Morgan Stanley Capital Group Inc.

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Morgan Stanley Capital Group Inc. (Applicant or MSCG) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests, or motions to intervene must be submitted on or before October 27, 2016.

**ADDRESSES:** Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW.,

Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to *Electricity.Exports@hq.doe.gov*, or by facsimile to 202-586-8008.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 7, 2011, DOE issued Order No. EA-184-B to MSCG, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on December 7, 2016. On September 14, 2016, MSCG filed an application with DOE for renewal of the export authority contained in Order No. EA-184 for an additional five-year term.

In its application, MSCG states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that MSCG proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

**Procedural Matters:** Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning MSCG's application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-184-C. An additional copy is to be

provided directly to Edward J. Zabrocki, Morgan Stanley & Co. LLC, 1585 Broadway, 3rd Floor, New York, NY 10036 and Allison E. Speaker, Sutherland Asbill & Brennan LLP, 700 Sixth Street NW., Suite 700, Washington, DC 20001.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [Angela.Troy@hq.doe.gov](mailto:Angela.Troy@hq.doe.gov).
