Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Flight Operational Quality Assurance (FOQA) Program

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. Flight Operational Quality Assurance (FOQA) is a program for the routine collection and analysis of digital flight data from airline operations, including but not limited to digital flight data currently collected pursuant to existing regulatory provisions. The FAA requires certificate holders who voluntarily establish approved FOQA programs to periodically provide aggregate trend analysis information from such programs to the FAA.

DATES: Written comments should be submitted by October 28, 2016.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to

the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW., Washington, DC 20503.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Ronda Thompson by email at: Ronda.Thompson@faa.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2120-0660.

Title: Flight Operational Quality Assurance (FOQA) Program.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on July 6, 2016 (81 FR 44087). There were no comments. The purpose of collecting, analyzing, aggregating, and reporting this information is to identify potential threats to safety, and to enable early corrective action before such threats lead to accidents. FOQA can provide an objective source of information for FAA decision making, including identification of the need for new rulemaking based on observed trends in FOQA data. Title 14, Code of Federal Regulations (14 CFR), Subpart 13.401, stipulates that the FAA does not use FOQA information in punitive enforcement action against an air carrier or its employees, when that air carrier has an FAA approved FOQA program. There are no legal or administrative requirements that necessitate this rule. The rule is intended to encourage the voluntary implementation of FOQA programs in the interest of safety enhancement.

Respondents: 60 airline operators.

Frequency: Information is collected monthly.

Estimated Average Burden per Response: 1 hour.

Estimated Total Annual Burden: 720 hours.

Issued in Washington, DC, on September 21, 2016.

Notice of Land Use Change and Release of Grant Assurance Restrictions at the Oceano County Airport, Oceano, San Luis Obispo County, California

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of a non-aeronautical land-use change.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the application for a land-use change for approximately .834 acres of airport property at Oceano County Airport, Oceano, California. The land use change will permit the release of the aeronautical use provision of the Grant Assurances that require it to serve an airport purpose since the land is not needed for aeronautical uses. The released land will be used for storm drainage improvements intended to enhance the existing drainage system in the southerly portion of the Oceano community adjacent to the east portion of the Oceano County Airport. The project will also reduce existing runoff on airport property as well as alleviate an existing drainage problem on Highway 1 at 13th Street. The fair market value will be paid for the land and thereby serve the interest of civil aviation.

DATES: Comments must be received on or before October 28, 2016

FOR FURTHER INFORMATION CONTACT:

Comments on the request may be mailed or delivered to the FAA at the following address: Mr. James W. Lomen, Manager, Federal Aviation Administration, San Francisco Airports District Office, **Federal Register** Comment, 1000 Marina Boulevard, Suite 220, Brisbane, CA 94005. In addition, one copy of the comment submitted to the FAA must be mailed or delivered to Mr. Dave Flynn, Deputy Director of Public Works, County of San Luis Obispo, 1055

Monterey St., San Luis Obispo, CA 93408.

SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 106-181 (Apr. 5, 2000; 114 Stat. 61), this notice must be published in the **Federal Register** 30 days before the Secretary may waive any condition imposed on a federally obligated airport by surplus property conveyance deeds or grant agreements.

The following is a brief overview of the request:

The County of San Luis Obispo, California requested a modification to the conditions in the Grant Assurances to permit the non-aeronautical use of .834 acres of land at Oceano County Airport for the construction, maintenance, and operation of a permanent concrete sedimentation basin that is to be constructed below grade and that will collect and control surface water runoff from Airport and off-airport property. The land subject to the release is part of a larger 6.3-acre parcel that is currently being used for recreational vehicle (RV) storage on a month-to-month agreement. Drainage collected in the basin will ultimately flow to Arroyo Grande Creek via an existing airport drainage basin lying westerly of and adjacent to the proposed concrete basin. The new storm drain system will be located in the east portion of the Airport and will enhance the existing drainage facilities that serve the Oceano community since most of the Airport lies within the 100-year flood plain. The project will reduce existing runoff on airport property and alleviate a drainage problem on Highway 1 at 13th Street. Fair market value will be paid for the property and rental revenue will continue to be collected for the portion of land (5.466 acres) that continues to be used for RV storage. As a result, this project will reduce storm water runoff, preserve the RV storage rental revenue, and serve the interest of civil aviation.

Issued in Brisbane, California, on September 15, 2016.

Arlene B. Draper,

Assistant Manager, San Francisco Airports District Office, Western-Pacific Region.
