**SUPPLEMENTARY INFORMATION:**

#### **Change in PRA Approval of Forms Used by Business Taxpayers**

Under the PRA, OMB assigns a control number to each “collection of information” that it reviews and approves for use by an agency. A single information collection may consist of one or more forms, recordkeeping requirements, and/or third-party disclosure requirements. Under the PRA and OMB regulations, agencies have the discretion to seek separate OMB approvals for business forms, recordkeeping requirements, and third-party reporting requirements or to combine any number of forms, recordkeeping requirements, and/or third-party disclosure requirements (usually related in subject matter) under one OMB Control Number. Agency decisions on whether to group individual requirements under a single OMB Control Number or to disaggregate them and request separate OMB Control Numbers are based largely on considerations of administrative practicality.

The PRA also requires agencies to estimate the burden for each collection of information. Accordingly, each OMB Control Number has an associated burden estimate. The burden estimates for each control number are displayed in (1) the PRA notices that accompany collections of information, (2) **Federal Register** notices such as this one, and (3) in OMB’s database of approved information collections. If more than one form, recordkeeping requirement, and/or third-party disclosure requirement is approved under a single control number, then the burden estimate for that control number reflects the burden associated with all of the approved forms, recordkeeping requirements, and/or third-party disclosure requirements.

As described below under the heading “New Burden Model,” the IRS’s new Business Taxpayer Burden Model (BTBM) estimates of taxpayer burden are based on taxpayer characteristics and activities, taking into account, among other things, the forms and schedules generally used by those groups of business taxpayers and the recordkeeping and other activities needed to complete those forms. The BTBM represents the second phase of a long-term effort to improve the ability of IRS to measure the burden imposed on various groups of taxpayers by the federal tax system. While the new methodology provides a more accurate and comprehensive description of business taxpayer burden, it will not provide burden estimates on a form-by-form basis, as has been done under the

previous methodology. When the prior model was developed in the mid-1980s, almost all tax returns were prepared manually, either by the taxpayer or a paid provider. In this context, it was determined that estimating burden on a form-by-form basis was an appropriate methodology. Today, over 90 percent of all business entity tax returns are prepared using software or with preparer assistance. In this environment, in which many taxpayers’ activities are no longer as directly associated with particular forms, estimating burden on a form-by-form basis is not an appropriate measurement of taxpayer burden. The new model, which takes into account broader and more comprehensive taxpayer characteristics and activities, provides a much more accurate and useful estimate of taxpayer burden.

Currently, there are 206 forms used by business taxpayers. These include Forms 1065, 1065-B, 1066, 1120, 1120-C, 1120-F, 1120-H, 1120-ND, 1120-S, 1120-SF, 1120-FSC, 1120-L, 1120-PC, 1120-REIT, 1120-RIC, 1120-POL, and their schedules and all the forms business entity taxpayers attach to their tax returns (see the Appendix to this notice). For most of these forms, IRS has in the past obtained separate OMB approvals under unique OMB Control Numbers and separate burden estimates.

The BTBM estimates the aggregate burden imposed on business taxpayers, based upon their tax-related characteristics and activities. IRS therefore will seek OMB approval of all 206 business-related tax forms as a single “collection of information.” The aggregate burden of these tax forms will be accounted for under OMB Control Number 1545-0123, which is currently assigned to Form 1120 and its schedules. OMB Control Number 1545-0123 will be displayed on all business tax forms and other information collections. As a result of this change, burden estimates for business taxpayers will now be displayed differently in PRA Notices on tax forms and other information collections, and in **Federal Register** notices. This new way of displaying burden is presented below under the heading “Proposed PRA Submission to OMB.” Because 44 of the 206 forms used by business taxpayers are also used by tax-exempt organizations, trusts and estates and other kinds of taxpayers, there will be a transition period during which IRS will report different burden estimates for individual taxpayers (OMB Control Number 1545-0074), business taxpayers (OMB Control Number 1545-0123), and another OMB Control Number for other taxpayers using the same forms.
